20th Annual Report

of the

AIRPORT MANAGER

of the

NEW BEDFORD MUNICIPAL AIRPORT

For the Year Ending December 31, 1966

BRADBURY-WARING, INC.
New Bedford, Mass.
1967

December 31, 1966

To the Honorable Edward F. Harrington, Mayor, and the
Gentlemen of the City Council of the City of New Bedford.

Gentlemen:

Presented herewith is the Annual Report of the New Bedford Municipal Airport.

This report reflects the continued growth of the airport in terms of service, income, and ability to become self-supporting. This growth must be attributed to the continued efforts, the imagination, and the dedication of the Airport Manager and the Airport Commission.

Respectfully submitted,

N. B. AIRPORT COMMISSION

C. ERIC LINDELL,

Chairman

NEW BEDFORD AIRPORT COMMISSION

Year Ending December 31, 1966

NAME	TERM EXPIRES
<i>Chairman</i>	
C. Eric Lindell	January 1967
<i>Vice-Chairman</i>	
Isidore Eisner	January 1969
<i>Members</i>	
Fred N. Darwell	January 1969
Frank Golen, Jr.	January 1968

Louis J. Ostric	January 1967
William A. Silveira	January 1969
Raymond J. Thomasset	January 1967

December 31, 1966

The New Bedford Airport Commission:

Gentlemen:

December 31, 1966 marks the end of the twentieth full year during which the City of New Bedford has operated its Municipal Airport.

The number of takeoffs and landings recorded by the Federal Aviation Agency Control Tower during 1966 totaled 53,954 compared to 49,483 during 1965, an increase of 4,471.

The following percentages, based on the total number of takeoffs and landings of the past two years, show clearly the type of aircraft now using the field:

TYPE	1965	1966
Scheduled Airlines	13.26%	11.80%

Itinerant Aircraft:

USAF	3.51%	1.95%
Navy	2.07%	1.30%
Civil	53.62%	55.20%
	-----	-----

Local Aircraft:

USAF	8.95%	5.34%
Navy	5.46%	3.37%
Civil	13.13%	27.54%
	-----	-----

The following chart shows the number of takeoffs and landings recorded during the years 1965 and 1966 and the number of days they were recorded:

Number of takeoffs and landings	Number of days during the year	
	1965	1966
200 or more	52	95
100—199	227	176
75— 99	33	28
50— 74	13	18
25— 49	16	20
15— 24	8	13
10— 14	6	6
5— 9	7	5
1— 4	1	3
0	2	1

HIGHLIGHTS OF THE YEAR'S ACTIVITIES:

This has been an eventful year at the airport. Much has been accomplished as a result of the hard work of all those connected with the airport including the Airport Commission, Federal Aviation Agency, Massachusetts Aeronautics Commission and other city departments. I am grateful for the excellent co-operation that has made our progress possible.

The outstanding achievement of the year was the fact that we were able to support approximately 75% of the regular annual operating cost of the airport for the year 1966 through earned income. This is a record that I hope will be improved on in every successive coming year.

On December 1 the FH227 "Yellowbirds" arrived replacing the never-to-be-forgotten workhorse, the DC-3. The coming of these new, modern, turbo-prop aircraft will greatly improve our scheduled air carrier service in many ways, including reliability and reduced flight time between New Bedford and New York. In addition, Northeast Airlines has done its utmost to schedule our daily flights at the times most convenient to the flying public in the Greater New Bedford area. A great deal of the credit in obtaining desired daily frequency and convenient

arrival and departure times should go to the chairman and members of the Airport Commission.

Under the Federal and State Aid to Airports Program for the year 1966 approximately 2,500 feet of chain link safety fencing was installed along Dreisbach Drive. This fencing, which has been sorely needed for many years, was installed to prevent the general public from entering onto the active area in relation to Runway 32. In addition, the concrete apron adjacent to the administration building was overlaid with bituminous asphalt for reasons of safety and appearance. The total cost of this project, including engineering, was \$20,375.75. The city's share of 10% of the total was paid for from Airport Reserve account funds.

In May, New Bedford Aviation, Incorporated established themselves on the field as a new Fixed Base Operator for the purpose of operating a modern flight school, something that has been needed for a long time. Through the balance of the year they made good progress and show great potential for the future.

During the early summer months the United States Weather Bureau installed a transmissometer and rotating beam ceilometer. These highly sophisticated electronic devices automatically transmit accurate runway visibility and ceiling information, respectively, to control tower operators. The installation of this equipment makes us one of the finest equipped airports on the east coast relative to our size, for the safe operation of aircraft flying under instrument conditions.

More surplus equipment was acquired this year at no cost to the taxpayer, making us one of the best equipped airports from every standpoint with one exception, that being our Crash-Rescue equipment. Incidentally, during the past five years we have acquired surplus equipment having an original acquisition value of close to \$125,000.00.

In the latter part of the year, the Massachusetts Department of Commerce and Redevelopment appropriated monies for engineering, marketing, and other related studies in the area

set aside for our proposed Industrial Air Park. If all goes well, all preliminary engineering relative to water, sewerage, access roads, taxiways, aprons and other related studies should be completed by July 1, 1967. I view this progress with high hopes and sincerely feel that the development of that area, as planned, will eventually offset all future deficits so that we may be self-supporting and not be a burden to the taxpayer.

Again this year the Neighborhood Youth Corps was extremely helpful in maintaining the airport throughout the summer months, especially where we suffer from a shortage of regular personnel due to vacations, and we are looking forward to having them with us again next summer.

My recommendations for the year 1967 are as follows:

1. Obtain a new Foam Crash Truck at all cost.
2. Overlay taxiways to Runways 5 and 32 under Federal and State Aid to Airports program.
3. Attempt to obtain Federal Funds for installation of access roads and utilities in the Industrial Air Park area.
4. If money is available, paint All Weather markings on the Instrument Runway.
5. Study the possibility of developing an area for erection of individually owned T hangars.

In conclusion, I would like to say that although we have had an exceptionally fine year, I want to bring to your attention the fact that we can expect some rather high maintenance costs in the next two or three years. The first is the seal coating of both runways. The second is the cutting of trees on the approach to Runway 5, the Instrument Runway.

Unfortunately, work of this nature is considered routine maintenance by both the Federal Aviation Agency and the Massachusetts Aeronautics Commission. Therefore, the entire cost

of this work must be borne by the city. This means that we must start to plan for this work now.

Again, I would like to extend my thanks to all those who helped to make this such a rewarding year.

Respectfully submitted,

JASON G. TAYLOR

SUPERINTENDENT AND INSPECTOR OF BUILDINGS

ANNUAL REPORT

1966

In accordance with Chapter 7, Section 158 of the City Code of the City of New Bedford, I hereby submit a report of the activities of the Superintendent of Buildings for the calendar year of 1966.

BUILDING DEPARTMENT

A total of Seven Hundred Five (705) permits were issued in 1966 amounting to Seven million, ninety-five thousand, seven hundred and forty-nine dollars (\$7,095,749.00). This was eight (8) less than in 1965 and the total valuation was Two million, one hundred eight thousand, four hundred and ninety-two dollars (\$2,108,492.00) less than in 1965.

List of some of the large permits issued in 1966:

M. Mendes Industrial Park Erect one-story addition	\$55,000.00
Taber Nursing Home 19 Taber St. Erect an addition	70,000.00
Rodney Metals 1357 East Rodney French Blvd. Erect two additions	230,000.00
City of New Bedford Normandin Junior High School 99 Felton St. Alterations to Cafeteria	87,222.00
Browne's Drug Store S.E. Cor. Brigham and Taber Sts. Erect an addition	65,000.00

Merchants Bank N.W. Cor. Purchase St. and Mechanics Lane Erect a Drive-In Bank	61,000.00
Purchase Associates Inc. S.S. Purchase St. Erect a Filling Station	38,000.00

Phase 1 of the contract for construction of the John Avery Parker Elementary School was substantially completed in January 1966 and classes were transferred from the old Parker Street School to the new building. Phase 2, demolition of the old school, was started immediately thereafter. The contract was completed in July 1966, by the Westcott Construction Corporation, and final acceptance was voted by the School Committee on August 26, 1966.

Another step was taken in the program to change electric power and light from direct current to alternating current, in the Municipal Building. On January 11, 1966, the

Building Department accepted a proposal, by the Otis Elevator Company to install an electric motor generator set for a contract price of \$6,249.00. Wiring service for the generator was installed by the low bidder, King Electric Company, for \$866.48 according to specifications prepared by Wire Inspector Walter Mont, of the New Bedford Wire Department.

Specifications were prepared for a sewage disposal system, according to Massachusetts Health Department requirements, at the New Bedford Public Golf Course. The system was installed by D. W. White Construction, Inc., lowest bidder, for a contract price of \$13,293.00.

A new clock system was installed in the Municipal Building replacing an old troublesome, inaccurate system that had become very expensive to maintain. Thirty-nine clocks were replaced and two clocks, one in the Council Chamber and one in the Mayor's office were converted by the Simplex Time Recorder Company for their low bid of \$830.00.

The Building Department prepared specifications and requested bids for a new electrically operated overhead door at the Central Police Station. The door was furnished and installed by the Overhead Door Sales Co., for their bid of \$549.00.

Police Station No. 5 was completed and occupied in September 1966. The total cost of the new structure was \$181,233.79.

Plans and specifications for an addition to the Campbell School were drawn by Tallman, Drake and Guay, Architects. A contract to construct the addition was awarded to the DeLoid and Gomes Construction Corporation, for their bid of \$270,709.00, on September 20, 1966. Peat was encountered at the approximate elevation of the bottom of the foundation footings. Excavation to remove the peat, replacing with compacted fill and removal of rock encountered resulted in an increase in the original contract of \$16,286.55, at unit prices contained in the contract.

Demolition of an unsafe building at 156-162 North Second Street was performed by the lowest bidders, D. W. White Construction, Inc., for \$1,435.00. Procedure was according to Chapter 143, Sections 6, 7, 8 and 9, of the General Laws of the Commonwealth and a lien has been placed on the property for the cost of the demolition.

SUMMARY OF BUILDING PERMITS**1966**

	Permits	Estimated Cost
*NEW CONSTRUCTION:		
Dwellings	185	\$1,959,700.00
Stores, Bus., Mfg.	39	2,019,700.00
Garages	51	46,395.00
Schools, Hospitals, Institutions	1	200,000.00
Filling Station	1	38,000.00
Swimming Pools	10	23,300.00
	<hr/> 287	<hr/> \$4,287,095.00
**ALTERATIONS AND ADDITIONS:		
Dwellings	237	\$ 203,503.00
Bus, Mfg., etc.	93	1,271,742.00
Schools, Churches, Hospitals	2	470,709.00
Miscellaneous	2	854,000.00
	<hr/> 334	<hr/> \$2,799,954.00
*New Construction	287	\$4,287,095.00
**Alterations and Additions	334	2,799,954.00
Heating	18	8,700.00
Demolitions	66
	<hr/> 705	<hr/> \$7,095,749.00

There were One hundred eighty-five (185) new dwellings including one two-family and twenty-one (21) new apartments added by conversion.

Comparative Summary of Construction for the Last Five Years

Year	No. of Permits	Estimated Cost
1962	702	\$3,073,342.00
1963	745	5,392,646.00
1964	790	6,296,401.00
1965	713	9,204,241.00
1966	705	7,095,749.00

The Department made 21 special investigations during the year 1966. Special investigations are made as a result of

a complaint by a tenant or a neighbor relative to a violation of zoning or building code.

There were 49 sign applications during 1966 which were forwarded by the City Clerk to be approved by this Department as to construction, site of location and method of erection and maintenance.

There were 36 appeals from the ruling of the Inspector of Buildings during the year 1966 relative to the application of the zoning ordinances.

Granted	31
Denied	4
Withdrawn	1
	<hr/>
	36

Appeals that are granted are reversals of the rulings of the Inspector of Buildings; while appeals that were denied upheld the Inspector's ruling.

Places of assembly must be carefully examined according to Chapter 143 of the General Laws, as amended, before a license for their use can be obtained. This includes every building or part thereof, used as a place of public assembly and capable of accommodating 50 or more people; where 10 or more people are employed; rooming houses and apartment houses having eight rooms or 10 people above the second floor.

The following places of assembly were checked and issued certificates during 1966.

	Renewal
Cafes, Clubs, etc.	77
Industrials	5

During the year 1966, 27 Rooming Houses having 611 rooms, were inspected. A report of each inspection was forwarded to the State Department of Public Safety.

Inspections were made on Boarding Homes, Convalescent Homes, and Nurseries providing day care services for children.

BUILDING MAINTENANCE

Employees of this division of the Building Department were kept busy with maintenance and normal repairs of all city-owned buildings other than School Department Buildings. Normal repairs consisted of painting, plumbing, pipe fitting, electrical and carpentry work.

A good deal of miscellaneous jobbing was performed by this division, such as trucking, setting up bandstands for various civic organizations, etc.

Maintenance carpenters laid plywood floor underlayment in offices of the Park Department, Board of Health, Planning Department, Wire Department, City Engineers, Department of Public Works, Water Department, Election Commissioners, Assessors and the Building Department. Asbestos vinyl tile flooring, over the plywood, was laid by Morency Floor Covering at 37½¢ per square foot.

All maintenance mechanics performed a lot of work at the Central Police Station during the past year. Major jobs were interior painting, building telephone equipment room in basement, and miscellaneous repairs of doors, windows, screens, locks etc., in addition to normal plumbing, heating and electrical repairs.

At the Kerwin Memorial Parking Facility, fluorescent lighting has been troublesome and replacements have been too frequent and expensive. The fluorescent fixtures are being replaced with incandescent lighting. Two levels were completed during the year and the change has proven to be most practical.

Also at the Parking Facility, the maintenance painters removed rust and spot painted steel columns and beams and painted the two steel stairways completely.

Maintenance painters have painted the entire interior of Fire Station No. 6, and extensive changes have been made in the heating system at No. 5 Fire Station.

Respectfully submitted,

EVELYN HENDRICKS

Clerk of the Cemetery Board

BOARD OF CEMETERY COMMISSIONERS

To the Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

The Cemetery Board herewith presents its seventy-second Annual Report.

A portion of our land, near the corner of Lowell and Menton Streets, known as Lot Number One (1), the size of which is five thousand twenty (5020) square feet, was transferred, December 12, 1966, from our department and placed in the custody of the Committee on City Property, as it was of no further use to this department.

Due to the sudden death of Mr. Manuel Teixeira, our board member since February, 1964, Mr. John E. Medeiros was elected a member of the Cemetery Board by the City Council, December 8, 1966, to complete the term of the late Mr. Teixeira, which expires May 1, 1969.

Mr. Joaquim Semiao resigned, January 22, 1966, as Skilled Laborer-Motor Equipment Operator, Grades I and III, after working in our department for over seven years, to go into the business of commercial fishing.

On April 18, 1966, Mr. Leonard F. Sylvia was promoted from Laborer-Motor Equipment Operator, Grade I to Skilled Laborer-Motor Equipment Operator Grades I and III, to replace Mr. Semiao.

A replacement for Mr. Sylvia was Mr. Roland R. Cloutier, who transferred from the Water Department of New Bedford, April 11, 1966, as Laborer-Motor Equipment Operator, Grade I, at his own request.

One of our permanent laborers, Mr. Laurier J. Choquette, was transferred to the New Bedford Department

of Public Works, Highway Division, April 9, 1966, at his own request.

June 10, 1966, Mr. Joseph M. Thomas resigned as Junior Clerk at the Pine Grove Cemetery office, after two years of service.

Our Janitress, Mrs. Helen M. Wareing, resigned June 4, 1966, with over five years of service in our department, to accept a position as Clerk-Typist in the New Bedford Welfare Department office.

Mrs. Rose M. Fernandes, was appointed provisionally, as Janitress, to replace Mrs. Wareing.

Our Assistant Superintendent of Cemeteries, Mr. Henry J. Wareing, was given a temporary transfer to the New Bedford Park Department as Acting Superintendent of Parks, which was effective August 21, 1966.

Mr. Fred W. Thornhill, our Cemetery Foreman, received a temporary transfer to Assistant Superintendent of Cemeteries, September 21, 1966, to replace Mr. Wareing.

The title of our Florist, Mr. Albert Santos, was changed to Working Foreman Florist, November 20, 1966, and the title of our Gardener and Laborer, Mr. Walter Ibbotson, was changed to Gardener and Florist, November 21, 1966.

We continued to employ Neighborhood Youth Corps boys this year, and a few men from the Title V Program. One clerk from the Title V Program, Mrs. Lillian Freitas, worked in the main office for the first six months of the year.

Mr. Frank A. Thrasher, Jr., our former Florist, who retired in 1955, under the Veterans' Act on account of disability, passed away June 4, 1966.

Twenty-three (23) crab apple trees were planted on the Ashley Boulevard side of the Pine Grove Cemetery, near the entrance, by the Beautification Project.

We entered a display in the Annual Kiwanis Club Spring Flower Show that was held at the Lincoln Park Pavilion, and the setting consisted of a wishing well and benches made of an old telephone pole split in half, lengthwise, with arborvitae, forsythia and flower beds.

The following equipment was purchased, this year:

One (1) 1967 eight cylinder automatic Belair Station Wagon.

One (1) new Chevrolet Truck with V-Type Snow Plow Attachment.

Eight (8) Jacobsen Mowers.

Eight (8) Canvas Covers, each eight feet (8 ft.) by ten feet (10 ft.), in size, to protect the grass from the dirt removed from grave openings.

One (1) new Desk for the main office, to replace one of those damaged when the office was broken into, last year.

We purchased ten thousand Pacific Telephone and Telegraph Company, thirty-two year, 4 $\frac{5}{8}$ debentures, due November 1, 1990, from the funds deposited for the perpetual care of lots.

Our department turned over to the City Clerk's office, recording fees amounting to two hundred fifteen dollars (\$215.00), which were paid for the following transactions:

Cemetery	Graves Sold	Lots Sold	Transfers of Lots and Graves	Burial Right Assignments	Total
Rural	22	33	17	21	93
Oak Grove	0	13	7	8	28
Pine Grove	21	42	11	20	94
Totals	43	88	35	49	215

The need of new mowers and trimmers cannot be too strongly stressed. We cut grass on approximately five thousand lots, each year, and in order to fulfill our contract with the lot owners and keep our own property

in a presentable condition, we must have this much needed equipment, annually.

We take this opportunity to express our sincere thanks and appreciation for the kindness, assistance and cooperation received from His Honor, the Mayor, Members of the City Council, Department Heads and our own department personnel.

Respectfully submitted,

J. TUNSTALL PARHAM, Chairman

LIONEL J. SOUZA, Secretary

RALPH E. SALTUS

JOHN E. MEDEIROS

SUPERINTENDENT'S REPORT

To the Board of Cemetery Commissioners

Gentlemen:

I, herewith, submit the annual report of the work done under my supervision, during the year 1966, and recommendations for 1967.

RURAL CEMETERY

Due to the large amount of water at the Matthew Street entrance, we built a new catch basin and cleaned out three other basins that now allows our drain water to run off much faster. Repairs were made to the roof and gutters on the toolhouse by the Building Department carpenters. During the past year, vandals broke into the toolhouse and caused damage to some of our equipment and garage doors. A new engine was purchased for our International truck.

OAK GROVE CEMETERY

A considerable amount of maintenance work was done on our buildings at Oak Grove Cemetery. In the greenhouse, we installed new windows and built a new bench in the west greenhouse. All of the woodwork on the Public Tomb was painted and roof repairs were made. The inside of the potting house was painted for the first time in many years. The roof on the north side has been leaking and I recommend that the roof be shingled in 1967. The front porch at Peckham West Cemetery was rebuilt and a rodent condition in the Caroline Street wall was taken care of. Vandalism has continued in this cemetery and the local police have been notified of all cases reported to us.

PINE GROVE CEMETERY

A new 1966 Chevrolet truck was purchased for this cemetery with a V-shaped snow plow attachment and is being used to good advantage. A new water surface drain was installed at the Pontiac Street entrance and has made considerable improvement there. The inside of the office was completely painted and both the men and ladies rest rooms were painted and new facilities installed. A water break in the main line coming in from the Acushnet Avenue entrance was repaired by the Water Department.

GENERAL

Our department received a blue ribbon for our exhibit in the Kiwanis Flower Show. The greenhouse men did an excellent job and received many compliments on their work at this show. Major repairs had to be made on our grave digger, when the front axle broke, and canvas mats were purchased for all cemeteries. Four pieces of mobile equipment were lettered by Mr. Mark Howland, who is one of the Neighborhood Youth Corps employees working in our department. Two truck drivers, with our trucks, were assigned to help remove snow from two city parking lots during the winter. Your superintendent was awarded a bronze plaque, by the American Cemetery Association, for services rendered to Municipal Cemeteries in this association.

I express my thanks for the assistance I have received from your Honorable Board, His Honor, the Mayor, members of the City Council, Department Heads, and their personnel and to the employees of the Cemetery Department for their cooperation during the year 1967.

**REPORT OF CARETAKER
of
SOLDIERS' AND SAILORS' GRAVES**

New Bedford, Mass.
January 1, 1967

To the Honorable City Council of the
City of New Bedford

Gentlemen:

I, hereby, submit the following report of the work done, during 1966, on neglected lots and graves where soldiers and sailors are interred, as authorized in Chapter 218, Acts of Legislature, 1920:—

	Care of Lots and Graves
Rural Cemetery	178
Oak Grove Cemetery	145
Pine Grove Cemetery	22
Peckham West Cemetery	24
Congregational Church Cemetery	2
Griffin Street Cemetery	9
	<hr/> 380

The amount appropriated for this work was \$2,500.00 and this amount was expended for cutting grass.

Respectfully submitted,

JOHN THORNHILL

Caretaker of Soldiers' and
Sailors' Graves

ANNUAL REPORT
BOARD OF CEMETERY COMMISSIONERS
for year ending December 31, 1966

IN CITY COUNCIL,

September 28, 1967

Received, placed on file and ordered printed in the City Documents.

CHARLES W. DEASY,
City Clerk

Attest:

CHARLES W. DEASY,
City Clerk

ANNUAL REPORT

OF THE

CITY AUDITOR

OF THE

CITY OF NEW BEDFORD

MASSACHUSETTS

FOR THE YEAR 1966

REYNOLDS - DeWALT
New Bedford, Mass.
1967

CITY OF NEW BEDFORD

Office of the City Auditor

To His Honor Edward F. Harrington, Mayor of New Bedford,
and the Honorable City Council:

Submitted herewith are the following statements and schedules showing the receipts and expenditures for the City of New Bedford for the calendar year ending December 31, 1966 and the financial conditions.

Exhibit A—Balance Sheet as of December 31, 1966.

Exhibit B—Statement of Receipts for the year ending December 31, 1966.

Exhibit C—Statement of Expenditures for the year ending December 31, 1966.

Exhibit D—Summary of Receipts and Expenditures for the year ending December 31, 1966.

Exhibit E—Report of Appropriations, Receipts and Expenditures for the calendar year January 1, 1966 to December 31, 1966.

Exhibit F—Schedule of Bonded Debts and Sinking Funds as of December 31, 1966.

Exhibit G—Schedule of Indebtedness Payable at the close of the calendar years 1943 through 1966.

Exhibit H—Summary of Bonded Debt and Sinking Funds as of December 31, 1966.

The City of New Bedford closed the calendar year 1966 with a balance of \$404,360.42 in the Excess and Deficiency Account.

I certify that in the course of the audit of the books and records of the City of New Bedford the cash on deposit and securities representing the investments of sinking funds of the City of New Bedford and several trust funds in the custody

of the commissioners, trustees and city treasurer were verified and found that the same were in agreement with reports and records rendered by said commissioners, trustees and city treasurer to the City Council.

Respectfully submitted,

ROGER G. DUBE,

City Auditor

CITY COUNCIL

This has been an exceptionally busy year, starting with the organization meeting on January 3rd. Councillor at Large, Lawrence W. Caton, Jr. was elected President for the year; and during his term he exhibited many outstanding attributes such as fairness coupled with firmness, a thorough knowledge of parliamentary rules, and a conscientious application of the same.

The Mayor presented his budget for the year to the City Council in the amount of \$21,637,232.73. After holding three open meetings as a committee of the whole on the budget, the City Council, after reducing it to \$21,491,546.81, adopted it on March 31, 1966.

During the year, 14 special meetings were held in addition to the 24 regular meetings.

Difficulties with the Fort Rodman Job Corps held the spotlight and following a public hearing on May 23, 1966, it was voted to request the President of the United States to move the Corps out of the city. Before the year was over, conditions materially improved, however.

June 2, 1966, the City Council and Assessors met to fill a vacancy on the Board of Assessors caused by the death of Mary L. Finnell. Henry Correia was elected by six votes (5 members abstained from voting) to hold office until the first Monday in January, 1968.

In an effort to create order out of chaos, the Council adopted an ordinance on April 14, 1966, requiring all commercial vessels to sell at the Pier 3 Auction House.

The establishment of assessments against certain property owners to cover part of the cost of the hurricane dike demanded innumerable conferences and meetings including an advertised public hearing at the Keith Junior High School.

GENERAL

Our financial receipts were the highest in the past nine years and showed an excess over operating expenses.

Mrs. Frances J. Francis, who had been employed steadily in this department since 1925, retired during the year, creating the usual void that accompanies the loss of services of an experienced employee.

At this time, I wish to thank the Councillors for their cooperative spirit in expediting matters of common concern.

My staff has tried diligently to create a good public image by being courteous and helpful, and I believe they have succeeded. As usual, I have been able to rely extensively on the knowledge and assistance of Miss Gaughan, Assistant City Clerk.

Respectfully submitted,

CHARLES W. DEASY,
City Clerk

New Bedford, Massachusetts

December 14, 1967

To the Honorable Edward F. Harrington, Mayor
and Members of the City Government of the
City of New Bedford

Gentlemen :

In compliance with Sec. 1-208 of the City Code, I herewith submit the Annual Report of the Law Department for the year ending December 31, 1966.

34 legal opinions were rendered to the Mayor, City Council, Committees of the city government and department heads, besides many oral opinions that were given.

253 claims were filed under the Workmen's Compensation Act, resulting in investigations and numerous hearings before Industrial Accident Board members.

147 claims for personal injuries and property damage resulting from motor vehicle accidents were filed with this office. Causes were defective sidewalks and accidents with city-owned vehicles.

202 contracts were examined as to legality and form and approved by the City Solicitor. Deeds, leases, orders for street layouts, alterations and easements were drafted by this department.

\$5,100 was collected on accounts due the city for damage to city property and vehicles.

Legal work on plans, etc. was started for the taking for school purposes in the area bounded by Hathaway Blvd., Durfee, Liberty and Parker Sts. This department also handled the following matters: Petition for Writ of Mandamus, case of Emilio DeBortoli vs. John Chadwick re erection of funeral home; land takings by Redevelopment

Authority in the Urban Renewal section of the city; legal work related to the Hurricane Dike assessments; drafting of forms and procedures for Division of Minimum Housing; consultations with and drafting of documents for the City Planning Department.

The following suits arose out of claims for personal injuries and property damage resulting from alleged defects in public ways:

Plaintiff	Plaintiff
Joseph Avila	Miquelina C. Marcelino
Bernadette Bazinet	Madelaine Martin
Anna Bronspiegel	John F. Meehan
Dolores Camandona	Jenny Meister
Laurentia Camire	Francis Mello
Mildred Cleinman	Esther Miller
Palmira Coelho	Mildred Sullivan
Richard Dunn	Pauline T. Sol et al
Herbert Fish	Mildred Sylvia
Lillian Freitas, Admx.,	Laurinda Teixeira
Estate of Manuel Freitas	

Miscellaneous cases against the city or its employees:

Adrienne Carreau et al — motor vehicle
 Euclid Carreau et al — motor vehicle
 Children's Hospital Medical Center — welfare aid
 City of Boston — welfare aid
 Roger J. Dupuis et al — motor vehicle
 Louis Ferreira — motor vehicle
 Elmer W. Hubbs — motor vehicle
 Richard Janson et al — motor vehicle
 Yvonne Joaquim — motor vehicle
 Manuel Lopes et al — stone wall damage
 John S. Machado, Jr. — motor vehicle
 Massachusetts General Hospital — welfare aid
 Rodolph G. Maynard — motor vehicle
 William A. Neagus — damaged ceiling
 Charles C. Pimental — motor vehicle
 Carl Sylvia — motor vehicle
 Allen M. Wood — motor vehicle

Tort cases in which the city is the plaintiff :

Adrienne E. Carreau et al — vehicle

Noah Kee, Jr. — hydrant

George W. Martin, Jr. — cruiser, traffic light, parking
meter

John J. Openshaw, Jr. — hydrant

John B. Pires, Jr. — traffic light

Robert G. S. Reney — hydrant

Raymond J. Silvia — fence damage

Petitions filed for damages for the taking of land :

J. B. Lumber Co., Inc. — pumping station, Wamsutta St.

Joseph G. Marnik — Sylvan Grove

John Noga et al — Sylvan Grove

John Zimon — Sylvan Grove

Respectfully submitted,

GEORGE JACOBS

City Solicitor

SECOND ANNUAL REPORT
of the
CONSERVATION COMMISSION
of the
City of New Bedford
Massachusetts
For the year 1966

January 1, 1967

To His Honor, Mayor Edward F. Harrington
and members of the City Council of New Bedford, Mass.

Gentlemen:

The Conservation Commission presents its Annual Report
for 1966.

Respectfully submitted,

FLORA B. PEIRCE,

Chairman

CHARLES FRANCIS, JR.

DANIEL F. GABRIEL, JR.

ALLEN C. HASKELL

WILLIAM SMITH

EDWIN F. SPENCER

SAMUEL S. WAGSTAFF

REPORT OF THE CONSERVATION COMMISSION

December 31, 1966 ended the second full year of activities for the New Bedford Conservation Commission. The City Council accepted the enabling act under Section 8C, Chapter 40 of the General Laws, Acts of 1957, Chapter 223 on June 6, 1963. Although authorized by the Council vote, the Conservation Commission was not organized until June 1, 1964.

Herewith is the second annual report of the Conservation Commission.

Mr. Daniel F. Gabriel, Jr. and Mr. William Smith were reappointed for three year terms expiring June, 1969. The reappointment of Miss Flora B. Peirce and the appointment of Major Samuel S. Wagstaff for three year terms expire July, 1969.

The seven member commission organized in June for the ensuing year, re-elected Miss Flora B. Peirce, chairman, and Mr. Charles Francis, Jr., secretary. Mr. Edwin F. Spencer was elected vice-chairman.

The Conservation Commission held regular monthly meetings throughout the year, generally on the second Wednesday of the month, in the Park Board office. The commission maintained its membership in the Massachusetts Association of Conservation Commissions and the Massachusetts Forest and Park Association.

The New Bedford Conservation Commission pursued the purposes given to it by the General Laws of the Commonwealth to promote and to develop the city's natural resources and to preserve its water resources. The commission, empowered to plan and to carry out a program for the preservation of open spaces within the city, acquired property in accordance with this objective. Other functions given to conservation commissions, namely, to inform and to educate the public, also were pursued. Interests in land, other than outright acquisition, were acquired. Regretfully, the Conser-

vation Commission was not granted appropriation to a conservation fund, and, subsequently projects were impeded. Section 5 of Chapter 40 of the General Laws, amended 1966, states that municipalities may appropriate funds to conservation commissions in a conservation fund of which the treasurer shall be custodian. He may deposit or invest the proceeds of the fund. The monies in the fund may be expended by a commission for its purposes other than a taking by eminent domain.

The New Bedford commission during 1966 directed its efforts in the northwestern open space area of the city, in particular, to acquire land for the purpose of developing a nature trail along the Paskamansett River. Preliminary cutting of a trail in 1965 on Municipal Airport land, licensed to the commission, was at a stalemate for lack of rights or ownership of needed property. Access was provided through the Park Department land, the Mill River Park, also licensed to the commission for its use. Negotiations to acquire connecting land was successful with the Acushnet Saw Mills Company, owner of three parcels of land, comprising thirty-six (36) acres. Transfer of funds and appropriation for the purchase of the property at \$2,800.00 was passed by the Council, December 22, 1966 and approved by the Mayor, December 27, 1966. The Conservation Commission received approval of a preliminary application for a grant toward acquisition of the property under the Massachusetts Self-Help program. It is anticipated a 50% reimbursement will be realized after purchase of the property and approval of the final application. A better developed trail, areas for parking, and other facilities are contingent upon transactions with owners of adjoining property.

Plans to clean up along the New Bedford course of the Paskamansett River were delayed because of various factors of timing in appeals for volunteer aid from youth and civic groups. Boy scout troops have expressed support in the clean-up campaign for next spring. Property owners along the river have encouraged the project.

Tax titled property, Plat 124, Lot 75, located at the northwest corner of Shawmut Avenue and Plainville Road, was transferred to the jurisdiction of the Conservation Commission on approval of the City Council, April 28, 1966 and approval of the Mayor, May 3, 1966. This three acre lot is part of an open space area recommended in the city's Master Plan for 1980. One hundred (100) red pines were planted on the lot through the courtesy of Mr. Charles A. Stiles, district game manager, in the State Division of Fisheries and Game. The commission is most grateful to Mr. Stiles. The planting is part of the short range plans to recondition the soil and to beautify the spot, an excavated plot. Long range plans consider a multi-purpose program for conservation and recreation. The Conservation Commission communicated with the Recreation Commission suggesting recreation potentials for the three acre parcel.

The Board of Park Commissioners granted the Conservation Commission jurisdiction of twenty-three (23) acres, Plat 121, Lots 1, 45, 2, 3, 5, 6, 7, 8, land west of the Whaling City Country Club. The commission plans to preserve this swampy and somewhat wooded area, a nesting ground for ducks, as a Wildlife Refuge. The commission awaits formal notice of its rights to the land from the Board of Park Commissioners.

The value of the Atlantic White Cedar trees in the Acushnet Cedar Swamp, property of the Acushnet Saw Mills Company, was recognized by the commission in a communication to the Department of Natural Resources. The commission urged preservation of the trees and the tract of land, and inclusion of the area in the master plan of the department. In further action the commission emphasized the value of the Acushnet Cedar Swamp as a Wildlife Management area to the Division of Fisheries and Game.

The potentials of water resources and the possibilities for development in the Turners Pond area were subjects of discussion at a meeting to which members of the Dartmouth Conservation Commission were guests. Mr. Alden E. Cousins, forester, in the State Division of Forests and Parks, and

Mr. Stiles presented reports of their respective surveys of the region. The value of the general drainage system from the Uplands, Acushnet Cedar Swamp to Turners Pond along the Paskamansett and Slocum Rivers into Buzzards Bay and the development of well fields could have far-reaching effects on the Dartmouth-New Bedford area, the commissions were told. Great recreation potentials were pointed out to the commissions. Later developments, instigated by a special committee of the City Council, materialized in the formation of a 12-man study committee of Dartmouth-New Bedford representatives. A representation from the New Bedford Conservation Commission will be one of the 12-man committee.

The quality of water of the city's rivers and ponds concerned the commission. State legislation passed in the Fall enacted a \$150,000,000 bond issue for a water pollution control system and the provisions for water pollution abatement districts, set forth in Chapter 685 of the Acts of 1966 of the General Laws, spurred the commission to form a steering committee. One meeting was held in December composed of representatives from Acushnet, Dartmouth, Fairhaven, New Bedford, Southeastern Massachusetts Technological Institute and the Standard-Times. The consensus of the steering committee was favorable to a water pollution abatement district composed of the communities represented at the meeting, as a nucleus, with the additional towns of Freetown and Westport.

The possible pollution or algae problem at Sassaquin Pond continued under investigation during the year. The cooperation of Mr. George H. Brightman, Superintendent of the Water Department, made it possible for samples of the pond water to be taken and forwarded for testing. Samples were received five times — April 11, May 11, June 15, July 13, September 2 by the Lawrence Experimental Station, Massachusetts Department of Public Health, and three times by the New Bedford Department of Public Health. Samples examined and count taken determined at all times that no treatment was necessary. The commission thanks Mr. Bright-

man for his willing and helpful assistance. The commission supported legislation filed by Representative J. Louis LeBlanc authorizing the State Department of Public Health to treat Sassaquin Pond for control of algae growth and to finance the project. The legislation was not enacted by the General Court of 1966.

Interest continued in the hurricane dike beautification project. The commission members and its beautification subcommittee members attended a special meeting with the Mayor and representatives of the United States Army Corps of Engineers. Members agreed that the high cost of treating the salinized ground near Clarks Cove pumping station prevented attempts to grow grass. Planting trees to screen the area and erecting a chain link fence with an extruded green rubber coating were acceptable to all the parties.

The Conservation Commission introduced a pilot program for conservation education with the approval of Dr. James R. Hayden, Superintendent of Schools and Miss Mary A. Keneally, Assistant Superintendent of Elementary Education. Its purpose was to encourage conservation education and to demonstrate conservation management practices. The program was conducted for Grade 6 pupils of six elementary schools located near city parks, natural settings for outdoor classrooms. Hereby acknowledgment with appreciation is extended to the Board of Park Commissioners for giving its permission to use the parks. Pupils from Rodman and Winslow Schools participated at Buttonwood Park, from Ashley and Swift at Brooklawn Park, and from Hannigan and Taylor at Hazelwood Park on the mornings of April 26, 27 and May 10, respectively, with their teachers in attendance. Conservation stations were set up for lectures, demonstrations and questions. Conservation literature was distributed. Success of the program was due in great measure to the federal, state, county and local participating conservationists. These professionals spared no effort or time to the achievement of the objectives of the pilot program. The Conservation Commission extends its wholehearted thanks to the

conservationists, namely, Messrs. William N. Andrews and his assistant, Richard D. A. Vieira, soil conservationists, U.S. Department of Agriculture; Cousins and Stiles; Peter W. Stanley, Bristol County Extension agent; Albert W. Bussewitz, director, Massachusetts Audubon Society; John Correa, gardener and florist, New Bedford Park Department; Frank Jason, Boys Scout Conservation Council. Their contribution to the attainment of the commission's goals and Miss Keneally's enthusiasm for the project stimulate plans for continuing programs in the schools.

Subsequently Mr. Raymond L. Gehling, Jr., Supervisor of Conservation Education, Massachusetts Department of Education, met with the commission to discuss future implementation of school programs. Participation of pupils in demonstrations and acquaintance of pupils with local conservation problems were among several proposals for implementation. The commission arranged a meeting between Miss Keneally and Mr. Gehling. Consequently identical programs in three schools were presented by Mr. Gehling. The chairman represented the commission at one of the sessions.

The commission opposed taking away park land for proposed construction of a skating rink — at the time pinpointed to the Common. The commission supported regulations for soil conservation. Mr. Francis, commissioner, is gathering factual information as a basis for the commission to formulate soil regulations to recommend to the ordinance committee. The commission and its subcommittee on beautification favored enactment of an ordinance requiring developers to plant two trees to each new housing unit; endorsed a proposal to ban political signs on residential property, and so notify the Council; was watchful of violations of the Hatch Act, Chapter 220, General Laws. Representatives attended a hearing of the Harbor Development Commission regarding filling of the Acushnet River. State legislation pertinent to its interest in conservation was supported.

Chairman of the Conservation Commission and chairman of the subcommittee on beautification attended the Gover-

nor's Conference on Natural Beauty at the Museum of Science, Boston, Massachusetts, May 23, 1966.

Public relations activities have included an excellent exhibit of a nature trail at the Kiwanis Flower Show designed by Mr. Allen C. Haskell, beautification co-chairman; leaflets designed by Mr. Gabriel, commissioner, distributed at the show and at the Free Public Library and its branches and at the First Federal Savings and Loan Association bank; adoption of an official emblem, designed by Mr. Gabriel and printed in the Conservation Leader, a pamphlet distributed throughout the State; a radio broadcast arranged by Major Wagstaff, commissioner, with the Reverend Philip C. Douglas as moderator and three members participating; a speaking engagement by the chairman before Girl Scout Leaders.

The commission is appreciative of the legal assistance rendered by Mr. Guy Volterra, associate member.

The Conservation Commission extends its thanks and appreciation to the Mayor and the City Council for their interest and cooperation and to the various city departments for assistance given to the commission. Special appreciation is extended to the Planning Department for the inestimable help received throughout the year and to Mr. Martin A. Gustavson, assistant city planner, for his guidance and keen interest in the projects of the commission.

Respectfully submitted,

FLORA B. PEIRCE

Chairman

SUB-COMMITTEE on BEAUTIFICATION REPORT

During the year 1966, the Sub-Committee on Beautification held five meetings and participated in numerous field trips and joint discussion to further public and private sponsored programs of beautification throughout the City of New Bedford.

Of foremost importance in the progress of city beautification was the establishment of a Municipal Street Tree Nursery on a three acre site at Buttonwood Park. The project is financed on an annual basis by matching contributions from the City of New Bedford and the New Bedford Gas and Edison Light Company. A total of \$1,900.00 is utilized to establish and maintain the nursery site, and purchase and plant whips (small trees) to be later transplanted on city streets as per recommendations of the Master Street Tree plan.

Members of the sub-committee helped by County Agent Peter W. Stanley aided ONBOARD in suggesting areas to beautify in low income sectors of the city. An application under the Nelson Amendment was filed to upgrade the Monty Playground, Grove Park, Andrews-Dahill Square, Middle Street Playground, and the Knowlton School Playground. Acceptance of the program is pending federal approval.

The Sub-Committee on Beautification worked closely with officials of the Rodman Job Corps and developed site plans to beautify the entrances, dormitory areas and administration sites with appropriate plant materials. It is expected that the plans will be implemented during the spring of 1967.

Special thanks goes to Ed Hill of the sub-committee for chairing the Speaker's Bureau and to the City Departments of Planning, Public Works, Parks and Water. State and fed-

eral organizations including the Soil Conservation Service and the Department of Natural Resources also have been very helpful.

Members of the Conservation Commission and appointees, Mrs. Basil Brewer, Miss Minna Littmann, Messrs: Roland R. Milliken, Stanley P. Negus, Paul A. Palange, Edmund J. Toomey, Milton A. Travers and Hill compose the Sub-Committee on Beautification.

Respectfully submitted,

EDWIN F. SPENCER

ANNUAL REPORT

OF THE

CHIEF

OF THE

FIRE DEPARTMENT

NEW BEDFORD, MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31, 1966

Richard T. Gaughan, Chief of Department

BAKER PRINTING
NEW BEDFORD
MASSACHUSETTS
NOVEMBER, 1967

FIRE DEPARTMENT REPORT

Mayor of the City of New Bedford —

Dear Mr. Mayor:

I respectfully submit the Annual Report of the operations and functional status of the Fire Department for the year 1966, together with the recommendations that I consider necessary for maintaining and increasing the efficiency of the Department.

The total of alarms received for "Fires" and "Non-Fires" for the year 1966 is 1,930.

SUMMARY OF ALARMS RECEIVED

Fires	970
Emergency Calls, other than fires	596
No Fire Found, Sprinkler Trouble, etc.	155
False Box Alarms	176
False Telephone Alarms	26
Out of City Responses	7
	<hr/>
	1,930

Of the actual 970 fires, 796 originated as "Still Alarms" and in 275 cases were followed by "Box Alarms" for the same fire. Of the actual 970 fires, 174 originated as "Box Alarms" and in 8 cases, calls for additional apparatus were sent out by "Still Alarms" for the same fire.

Total "Still or Telephone Alarms" transmitted from Headquarters	992
Total "Box Alarms" transmitted from Headquarters	620
	<hr/>
	1,612

Of the total alarms transmitted, there were 970 actual fires. There were seven Second Alarms during the year.

The total fire loss for the year 1966 is \$264,979.17, of which the loss in buildings is \$188,518.95; the loss of contents of buildings is \$60,480.53; the loss on auto fires is \$12,082.49; the loss on boats is \$800.00 and for miscellaneous fires is \$500.00. The per capita fire loss of \$2.65 compares most favorable with the national average of \$5.60.

The Department responded to 596 emergency services which include resuscitator efforts, pumping out of flooded cellars and boats, removal of refrigerators that were leaking sulphur dioxide gas, and numerous other types of services which this Department classes as emergency Public Service. May I state that

the above calls were made as a part of the emergency service this Department provides the citizens of our City.

As authorized by Section 19 of Chapter 148, General Laws, I granted 11 Permits for Blasting.

The capable staff of Chief Officers who are responsible for administrative and firefighting efficiency in their respective Districts, in addition to a myriad of other duties related to the Fire Service, are to be congratulated for their unquestioned dedication and support to this office.

Deputy Chief Frank H. Cleveland, District Chiefs Charles J. Armanetti, Edward J. Jablonski, Daniel L. Piekut, Alphonse Piekut, James E. Harwood, Gordon W. Graham, Fred Osuch, and Oreste A. Savino made approximately 372 inspections during the year to check out complaints and remedy hazardous fire conditions. They granted 1,047 Open Air Permits after visitation for assurance of fire-safe conditions.

The Home Inspection Program was continued under direction of Deputy Chief Frank H. Cleveland. I wish to compliment our personnel in this phase of fire prevention. The diplomatic and efficient manner in which Company personnel conducted these inspections is highly commendable. A total of approximately 3,221 occupancy and 2,394 building inspections were made. In addition to the Home Inspections, schools, hospitals, theatres, and convalescent homes were inspected quarterly. A continuing phase of this most important fire prevention measure also included every church in the City. If we may prevent the loss of just one life through the efforts of our Fire Prevention measures, then I would say the program is justifiable.

The Fire Alarm Division, our communications center, which services both telegraphic and radio transmission and reception continues to operate in a most efficient and progressive manner under the direction of Assistant Superintendent of Fire Alarms Clifford J. Snell.

Considerable work has been done on the relocation of underground cable and overhead aerial line in connection with the construction of two new highways through the City. In connection with these new highways, approximately 3,000 feet of aerial line and 5,500 feet of underground cable was relocated.

Six new private master fire alarm boxes were installed and approximately 2,800 feet of aerial line and associated equipment installed to service these boxes. 1,000 feet of underground and approximately 7,000 feet of old overhead line wire was replaced on the following streets: Nash Road, Brook Street, and Edison Street.

As in the past, assistance was given the Wire Department relative to the Christmas display at the Common Park.

Routine maintenance work was done by the fire alarm crew

FIRE DEPARTMENT

5 L

which included tree trimming, line inspection, change over to new poles, ground testing, and painting outside equipment.

All fire alarm boxes were tested and inspected and the interior circuits from master boxes were tested.

At the close of 1966, the number of fire alarm boxes throughout the City totalled 476; of this total 269 are Public and 207 are Private boxes, 104 of the latter being the master type connected to sprinklers, heat detectors, or auxiliary pull stations.

The Repair and Maintenance Division under Master Mechanic Kenneeth M. Haddock is charged with the upkeep and repair of all mobile units, many of which are specialized requiring service uncommon to most motor vehicles. The Repair Shop also maintains, repairs, and many times fabricates the special equipment and accessories peculiar to firefighting.

Care of the eleven (11) buildings under the fire department jurisdiction, requires that our repair division perform carpenter, plumbing, and heating repairs which otherwise would require the services of an outside contractor.

Fire Prevention Division is headed by Acting Head Lieutenant Edwin L. Albino assisted by two Lieutenants and two clerks. This division is responsible for administering one of the most important phases of Fire Department functions, namely Fire Prevention and Investigation.

Their duties embrace the entire field of Fire Prevention and Investigation including issuing of relative permits as required by law, inspection duties, fire prevention lectures to schools and public service organizations, and investigative work in relation to suspicious fires.

Permits issued by the Division are as follows:

Power Oil Burners	356
Range, Cabinet, and Space Heaters	22
Garage and Filling Stations	6
Fuel Oil Storage	63
Liquified Petroleum Gas Storage	25
Underground Tank Removals	13
<hr/>	
TOTAL	485

The Drill and Training Program is directed by Captain Raymond G. Furness. Its function is to maintain efficiency in all phases of firefighting through classroom instruction and fire ground training at the Drill Tower and various other locations.

Captain Furness, through his attendance at the Massachusetts Institute of Fire Department Instructors monthly meetings is able to keep astride of the most modern techniques of firefighting.

Annual Underwriter service tests for all pumping engines, first aid instructions and lectures to the Military, Civil Defense, and Industrial fire brigades are all a part of the duties of our Drillmaster.

Refresher courses in radiological monitoring were given to all members of the department. The various instruments employed in detection of radioactivity are provided by the Civil Defense Agency and are kept operational and in readiness at all Fire Stations throughout the City.

The New Bedford Protecting Society Officers and Personnel constitute a most dedicated and capable body of citizens who, with a most modern salvage vehicle provide invaluable assistance to the Public and Fire Department. Serving without remuneration, the members of the Society avail themselves at any hour, day or night, in their effort to help keep the City's fire losses low. The Public should be more aware of their excellent service.

APPARATUS IN COMMISSION

- 11—Motor Pumping Engines, 6-1,000 G.P.M. and 5-750 G.P.M. Engines, all with booster hose and water tanks. Four have built-in liquid foam tanks used for flammable liquid fires. Six carry large deluge guns for use on large fires.
- 4—Aerial Ladder Trucks, 2-85 Ft. tractor type and 2-75 Ft. non-tractor type, all equipped with ladder pipes.
- 1—City Service Ladder Truck.
- 1—Rescue and Fire Boat, on trailer - available on call.
- 1—Hose Wagon with Booster and Water Tank, equipped with forestry hose, wet-water device, flammable liquid fire fighting appliances - on call.
- 1—Automobile for the Chief.
- 1—Automobile for the Deputy Chief.
- 4—Automobiles for the District Chiefs.
- 1—Automobile for the Drillmaster.
- 3—Fire Alarm Trucks, one used only for pulling in cable.
- 3—Repair Division Cars - 1 truck and 2 sedans.
- 3—Automobiles for Fire Prevention Division.
- 1—Van for towing of Rescue SCUBA and Fire Boat.
- 1—N. B. Protecting Society Salvage Truck.

APPARATUS IN RESERVE

- 1—Motor Pumping Engine, 200 G.P.M. with power take-off pump and water tank.
- 1—Motor Pumping Engine, 500 G.P.M.
- 1—High Pressure Fog Truck with 435 Gallon Water Tank.

FIRE HOSE

800 feet of 3-inch hose
28,600 feet of 2½-inch hose
18,550 feet of 1½-inch hose
1,000 feet of 1-inch hose, high pressure
4,500 feet of ¾-inch hose
800 feet of ⅝-inch garden hose
127 Waterproof salvage covers carried on apparatus
10 Waterproof salvage covers carried on Protective Truck

NEW EQUIPMENT ACQUIRED DURING THE YEAR

1,000 feet of 1½-inch Fire Hose
Two Fire Alarm Boxes
Five one-half-hour Demand Air Paks
One Voice Recorder for Signal Room
Fire Alarm Cable and related equipment
One new car for the Chief

My sincere thanks to the Mayor and City Council for the continuation of their excellent cooperation and good relationships with this Department.

Inter-Department cooperation is on the highest level. I extend my thanks to the Building, Wire, Water, and Public Works Departments.

Our news media including the Standard-Times, radio stations WNBH and WBSM are outstanding in the presentation of fire ground activity and various other newsworthy items related to the functions of the Fire Department. Without their fine support our Educational and Fire Prevention programs would be impossible to achieve their objective - namely, "reaching the people".

The Salvation Army, Volunteers of America, and American Red Cross who faithfully dispense hot coffee and refreshments to our men at multiple alarm fires, deserve and receive our special thanks. May our fine relationship continue.

Many thanks to Civil Defense Director Mrs. Anne Fitch and her personnel, for invaluable assistance in the fields of traffic, lighting, and availability of their Rescue Truck at multiple alarm fires.

Special recognition and many thanks are extended to the Company Officers and Firefighters who on many occasions have demonstrated their ability to fulfill their duties in the highest tradition of our service. Their participation in the many civic endeavors of our City is worthy of admiration.

RECOMMENDATIONS

ONE (1) NEW 1,000 G.P.M. PUMPING ENGINE: The efficiency of a fire department is, to a large degree, predicated on the dependability and capacity of its' pumping engines both active and reserve. Our pumping engine posture is rapidly becoming acute. Reserve status is for all practical purposes negative, which means if an active piece of apparatus breaks down and requires extensive repairs, there is no dependable replacement — some area of the City will be exposed to inadequate protection.

Engine #1, a 750 g.p.m. pumper, quartered in Station #2, is charged with the protection of the high value district, including the entire downtown area and surrounding manufacturing districts. This engine is nearly 17 years old and has seen considerable service, and should be placed in reserve status.

Our present active pumping engine age is as follows:

1947 — one	1948 — one
1950 — one	1952 — one
1953 — one	1954 — three
1955 — one	1956 — one
1965 — one	

It is obvious from the above that a long range plan for gradual replacement should be instituted. I sincerely hope serious and forthright consideration be given to the above request.

REQUEST: \$26,000.00

TWO (2) NEW STATION WAGONS: Passenger type vehicles, of which we have eleven, are used by the Chief, Deputy Chief, District Chiefs, Fire Prevention Inspectors, Drillmaster, and Master Mechanic.

The above vehicles are necessary in the performance of the day and night duties of the aforementioned. In the move toward economy, the practice of this department is, through the "hand-down" process, get the most out of each vehicle. Two of the above vehicles, which are of the 1949 vintage, should be replaced.

The two new station wagons, because of their versatility would replace two of the District Chief's cars (1956 Ford and 1957 Plymouth) which older cars would be handed down to replace the 1949 models.

REQUEST: \$6,500.00

TWO (2) NEW FIRE ALARM BOXES: With increased new construction in residential areas it become imperative that such areas be protected by adequate distribution of fire alarm boxes.

FIRE DEPARTMENT

9 L

Our citizens need and deserve such protection for the notification of fire.

REQUEST: \$450.00

FIRE ALARM IRON WIRE, UNDERGROUND CABLE AND SECONDARY RACKS: Fire alarm iron wire, underground cable and secondary racks are integral units of our telegraphic Fire Alarm system. They serve as the carriers of a fire alarm signal from the various fire alarm boxes throughout the City to our Central Station at Headquarters. Much of the wire and cable has deteriorated through age and weather and must be replaced. Failure to replace such wire and cable could very well result in serious consequences, for a breakdown would negate the receipt of a signal from a fire alarm box that was pulled on that particular circuit.

REQUEST: \$2,100.00

ONE (1) TYPEWRITER: Considerable clerical work is processed in our main office and Fire Prevention Bureau. Due to age and constant use, I recommend a replacement for the typewriter in the Fire Prevention Bureau. The older unit would then be handed down for use in one of the stations that presently does not have one.

REQUEST: \$250.00

FIRE STATION REPAIRS AND PAINTING: We have tried, with the aid of the Building Department, to effect certain minor repairs and painting of certain stations. However, major repairs are urgently needed at several stations. At Station #9, water enters through the porous bricks on the South wall of the station and runs down the brick and plaster inside of bedrooms, severely damaging walls on the second floor. This condition has persisted for several years and should be corrected.

We should begin a long range program of station repair to eliminate further damage to the interior of the stations.

REQUEST: \$2,000.00

THREE (3) NEW RADIOS FOR APPARATUS: This department maintains and uses 28 mobile radio units which have been purchased over a span of 15 years. Increased service and repairs to many of the older units is indicative of their need for replacement. A plan should be instituted whereby three (3) units should be replaced yearly in order to maintain this most vital link of communications.

REQUEST: \$2,400.00

FIVE (5) AIR PAKS: A program to replace the Chemox masks with the contained air type was started two years ago and is proving both beneficial and economical to the department and should be continued. These masks are paying for themselves by eliminating the costs of cannisters needed for the Chemox mask.

We have the facilities to re-charge the air cylinders, whereas should a Chemox cannister be used (even for a short period of time) the cannister must be discarded at the cost of \$7.50 per unit.

REQUEST: \$1,250.00

FIRE ALARM TRUCK: The truck that is used in the maintenance of the overhead wires that serve the fire alarm system is now 15 years old and the elevated ladder used for this work is in dangerous condition. This truck is in constant use throughout the year and is essential to the continuous and efficient operation of our fire alarm system. I respectfully request that this truck be replaced with an aerial platform type of truck, equipped with a winch because pulling underground cable is also part of this truck's duties.

REQUEST: \$18,000.00

REPAIR SHOP PICK-UP TRUCK: The truck that is now used is 16 years old and is in need of major repairs. This truck is used for many and varied purposes such as: delivering station supplies to 10 stations and furnishing gasoline and additional hose to apparatus working at a serious fire; also, towing apparatus that is broken down and must be brought to the repair shop.

REQUEST: \$3,100.00

ONE REBUILT LADDER TRUCK MOTOR: Ladder Three's motor is in need of a major overhaul. The truck was purchased in 1948 and has never had any major work done on the motor. At this time it shows a very low compression reading (40-60 pounds) and smoke from the motor enters the cab when running. I would hope that you can see fit to allow a re-built motor be obtained to replace the present one. This would allow the truck to be put back in commission much sooner than an overhaul (one week versus five weeks) and the fact that with a rebuilt motor all parts should be in excellent condition. Such action should give the department many more years of dependable service from this truck.

REQUEST: \$2,600.00

Respectfully submitted,

RICHARD T. GAUGHAN,

RTG/arj

Chief

CAUSES OF FIRE — 1966

- 17 Acetylene and blow-torch carelessness
 - 5 Arcing wire
 - 2 Arson
- 21 Burning food
 - 4 Burning soot
 - 7 Burning with a permit
- 42 Burning without a permit
 - 2 Careless use of inflammables
- 256 Careless smoking
 - 14 Carburetor backfire
 - 5 Careless use of matches
- 183 Children with matches
 - 18 Combustibles in contact with stoves, etc.
- 44 Defective and faulty carburetors
 - 8 Defective wiring
 - 6 Hot ashes
 - 5 Exposures
 - 2 Leaking gas pipes
- 22 Leaking gasoline, oil, or kerosene
 - 3 Lightning
 - 1 Overheated brake bands
 - 7 Overheated drying machines
 - 8 Overheated gasoline or electric motors
 - 7 Overheated exhaust pipes
 - 3 Overheated flatiron, electrical appliances
 - 21 Overheated grease
 - 8 Overheated stoves, ovens, or fireplaces
- 10 Overheated stacks, smokepipes, or chimneys
 - 2 Overheated transmissions
 - 2 Overheated tar kettles
- 34 Overturned street flares
- 14 Oil burners — defective, improperly operated, flare-up, and flooded
- 87 Short circuits, including auto, house, radio, and television
 - 5 Set by persons unknown
- 15 Sparks from incinerator
 - 3 Sparks from stove
- 10 Spontaneous combustion
 - 7 Rekindle
 - 5 Under investigation
 - 1 Vigil candle
 - 3 Careless use of candles
 - 3 Firecrackers
 - 3 Sparks from chimney
 - 1 Fumes ignited by spark

Bernard A. Portnoy, M.D.

Anne D. Saunders, M.D.

*Leave of absence

REPORT OF THE DIRECTOR OF PUBLIC HEALTH

For the first time measles vaccine became available and was furnished by the Massachusetts Department of Public Health to this department. It is significant to note that in the previous year there were 221 cases reported as against 6 for the current year. It is evident from these figures that another milestone has been reached in the control of contagious diseases by the use of measles vaccine.

With the migration of from 3,000 to 5,000 aliens into this community as a result of the lowering of the barriers of the immigration laws of this country, this department realized that a serious situation arose wherein these people might have a high incidence of tuberculosis. Consequently, with the cooperation of both the public and parochial school departments all of the non-English speaking children attending school were tuberculin tested. Out of 527 children tested approximately 17% were positive. This meant that there was a possible nucleus of tuberculosis in this particular group of individuals and an intensive program was immediately instituted to screen these families.

While on the subject of tuberculosis there were 25 newly reported cases and 2 deaths as compared to the year 1965 when only 15 cases were reported with 1 death. This department has become aware that while many public health officials throughout the country are constantly talking about the eradication of certain diseases it is our opinion that a better word would be control. In our opinion, the public has been misled by the use of the word eradication in connection with tuberculosis and we now find that throughout the country the number of cases being reported are on the increase.

When penicillin and other antibiotics were found to be very useful in fighting venereal diseases such as syphilis and gonorrhea health authorities immediately began to use the word eradication. We now find that the same thing is occurring in these diseases as is occurring in tuberculosis. People are overconfident and think that now that eradication is possible or that eradication has already come about they no longer need to pay attention to these diseases. There were 141 new cases of syphilis and gonorrhea in 1966 as against 129 in 1965. It is worthy of note that New Bedford has had a lower rate of increase than the remainder of the country so far.

Five public clinics were held in various sections of the city for the vaccination of dogs against rabies. A great deal of time and expense was

involved in holding these clinics with disappointing results. Of the more than 3500 dogs that are licensed each year and probably an equal number unlicensed there were only 50+ people who came forward to have their dogs immunized.

It appears that animal lovers do not yet appreciate the value of having their dogs protected against rabies. However, in the event that a case of rabies should break out in New Bedford there is no question but that our facilities would be inadequate to vaccinate the large number of dogs in the city. It would then become a herculean task for this department as well as the veterinarians to try to protect the animals from this dread disease.

From time to time this department has advocated that dogs be restrained. Our interest in requesting such a law is in view of the fact that each year there are approximately 350 dog-bites which is roughly 1 per day reported to us. About 75% of those bitten are children under fifteen years of age. We think it is time that drastic measures should be taken to protect these children.

During the year 1966 both of the furnaces at the municipal incinerator were completely relined. It is hoped that on the basis of our present rate of burning these linings will last for a period of some eight or ten years outside of necessary maintenance.

One of the more serious problems affecting refuse collection is the fact that all of our trucks and other motor vehicles are stored outdoors. In extremely cold weather it is impossible to start these trucks and in the case of packer type trucks the hydraulic units become damaged as a result of the very low viscosity of the hydraulic fluids. Information has recently been obtained wherein electrical heaters may be installed both in the engines and in the hydraulic oil tanks to maintain a reasonable temperature so that no damage will occur. We hope to experiment with this solution in the forthcoming year.

Because of Civil Service restrictions and delays it has become extremely difficult to permanently hire laborers at our Refuse Disposal Division. There are times when periods of three, four and even six months elapse before permanent laborers can be obtained. Lists containing 100 to 125 names are submitted to us by the Civil Service Division and not more than six or twelve of those whose names are submitted are willing to accept such employment. More and more this job appears to be not attractive and, consequently, many of our workers are constantly looking

to being transferred to other departments within the city, thus aggravating our difficulties in this division.

The problem of obtaining adequately trained and skilled personnel for the Board of Health has also become extremely difficult. Many of the people who apply do not have the scientific and academic background which is required for persons involved in the field of public health. Lack of promotion within the department appears to be a drawback to prospective workers. Inadequate pay as a result of the short work week is another and the limited population from which to draw these skilled workers is a third. We can draw little satisfaction from the fact that the shortage of adequately trained public health personnel is universal and there is no prospect of improvement in the immediate future.

Where health departments have for many years been involved in public health for the prevention of illness and disease we are now being looked upon as agencies which can take on truly medical programs of one sort or another, including the rehabilitation of the chronically ill. At the present time, health departments are not prepared to do so. If such responsibility is to be placed in the hands of health departments, the shortage of professional personnel will become even more acute and such professionals will undoubtedly be impossible to obtain.

The lack of public sanitary sewers to serve some of the outlying sections of the city is, in the opinion of this department, restricting the construction of new homes in this community. Most of the desirable land has been used and builders are now considering construction on marginal lands where private sewage disposal is questionable. It is hoped that upon construction of the new sewage treatment plant the sewer extensions will be installed at an early date.

The Board of Health wishes to thank its personnel for their diligence and hard work in conducting the various programs of the department. It also wishes to thank Mayor Edward F. Harrington, members of the City Council and the Building, Police and School Departments for their wholehearted cooperation.

ALPHEGE LANDREVILLE,
Director of Public Health

ANNUAL REPORT

OF THE

INSPECTOR OF WIRES

POLICE SIGNAL SYSTEM

STREET LIGHTS

TO THE CITY COUNCIL

For the Year 1966

BRADBURY-WARING, INC.

Printers

1967

Annual Report

New Bedford, Massachusetts

July 14, 1967

To the City Council of the City of New Bedford:

Gentlemen:

I respectfully submit the annual reports for the departments of Inspector of Wires, Police Signal System and Street Lights for the year 1966.

The Prescribed Area for 1966 as recommended by the Inspector of Wires and the Acting Commissioner of Public Works was adopted by the City Council on March 10, 1966. The area was as follows: Tarkiln Hill Road, from the junction of King's Highway, east to the Acushnet Town Line. Nothing was done by the utility companies this year in the Prescribed Areas.

At the end of the year, the New Bedford Gas & Edison Light Company's obligations amounted to \$670,750.00 and the New England Telephone & Telegraph Company's to \$422,500.00. A communication from Mayor Edward F. Harrington, dated February 26, 1966 to the City Council was accepted and referred to a committee. This communication stressed the importance of repealing the Acts of 1914, Chapter 335 and to present a new underground bill to the legislature relating to underground installations in the North and South Terminal Areas and the Historic Area. Several meetings on this subject were held between the utility officials and city personnel. As a result, it is hoped that this matter will be brought to the attention of the City Council early in 1967.

During the year, I investigated and reported to the City Council on one hundred and three (103) petitions of the New Bedford Gas & Edison Light Company and the New England Telephone & Telegraph Company for pole and underground conduit installations.

Some of the larger electrical installations that were inspected are as follows:

St. Luke's Hospital
J. C. Rhodes new plant
Hallmark Nursing Home
Sacred Heart Home
Rodney Metals, Inc.
Bristol Nursing Home
Union Hospital
North End Police Station
Parker Street School

Inspections after fires increased this year from two hundred and nine (209) in 1965 to two hundred forty-five (245) in 1966. Oversized fuses on overloaded circuits and the misuse of cords do contribute to the cause of fires. Overloads caused by modern high wattage appliances connected to circuits and services of inadequate capacities not only are an inconvenience but more important are a serious fire hazard.

The City of New Bedford Christmas Display was set up on the Common. Students from New Bedford Vocational High School, Art, Carpentry and Electrical Departments contributed their skills to make the display a huge success. The City of New Bedford Public Works, Fire, Police, Civil Defense, Water, Building, Park and Police Signal Departments are to be commended for their help.

The following is a breakdown of the work completed this year:

2W receptacles	5,013
3W receptacles	359

New buildings	112
Old buildings	2
110V motors	25
220V motors	31
440V motors	1
550V motors	3
Sockets	610
Switches	2,641
Meterloops	11
Intercom Systems	0
Traffic Lights	0
New services	159
Underground services	6
Service breakdowns	14
Services reconnected	15
Service changeovers	143
Service changeovers for houses relocated	0
Oil burners	151
Oil pumps	7
Circulators	80
Oil tanks	0
Gas burners	132
Gas pumps	2
Incinerators	0
Gas dryers	4
Fixtures	2,462
Fluorescent fixtures	866
Air conditioners	55
Washers	51
Disposals	34
Dryers	51
Dishwashers	13
Fire Alarm Systems	12

Thermostats	3
Circus	1
Church fairs	1
Inspections	5,758
Trailers	10
Re-inspections	16
Advisory	29
Requests for inspections	2,627
Permits to electricians	1,328
Permits to owners	49
Reports of defective wiring	1,750
Yellow tags	544
Green tags	97
Blue tags	123
Red tags	8
Permits issued to N. B. Gas & Edison Light Co.	1,377

The operating expenses for the year were:

General Expenses \$ 1,636.08

INSPECTOR OF WIRES

7 0

Salaries and Wages	34,965.13
Pension	2,107.04
New Equipment
Christmas Decorations	5,660.48

TOTALS	\$ 44,368.73

The installation of electronic devices, modern electrical equipment and related circuits and wiring methods have increased the work load of the Inspectors to the degree that two additional inspectors are needed to keep up with the filed permits and requests for inspections.

POLICE SIGNAL SYSTEM

The temporary Police Signal Switchboard was removed from Station No. 8, Davis Street and Acushnet Avenue and the north end circuits were connected to Police Headquarters on the official circuit. Walkie Talkies were put into operation by the Police Department in place of the north end boxes. The new transmitter and antenna for the Police Department should be in operation early in 1967. The new transmitter shelter designed by the Inspector of Wires is being erected by New Bedford Vocational High School Students from the Carpentry Department and the interior wiring is being done by Police Signal Electricians.

The Police Signal Switchboard at Police Headquarters will be discontinued in 1967. All the boxes throughout the city will be kept in working order and will be used for emergency purposes. A new compact receiver connected to all existing circuits will replace the existing switchboard and will be located in the main desk area.

A contract was awarded to R. W. LeBaron in September for the installation of Traffic Signals at the following intersections:

Hawthorn Street and Brownell Avenue
Tarkiln Hill Road and Church Street
Rivet Street and County Street

New Traffic Signals at Mt. Pleasant Street and Nash Road were put into operation as the result of a contract awarded to the Municipal Signal and Supply Company.

A new truck chassis and cab was purchased from George O'Hara Chevrolet. The utility body for the chassis was purchased from Hunt-Pierce Corporation. The body consists of an aerial telescoping boom and a two-speed electric winch.

Police Signal Electricians set up temporary lighting for band concerts during the summer months. A water fountain pump was set up and wired for at Buttonwood Park. This required the installation of 1,000 feet of new overhead wires on new poles. Eugene Lorenzo and Malcolm E. Tripp supervised and erected the many units for the Christmas Display on the Common. Several wiring jobs were done for various departments during the year. Mr. Robert F. MacMillen resigned from his position as Police Signal Electrician on March 28, 1966.

The following is a breakdown of the work done by the Police Signal Electricians:

Station No. 2 — Repairs	2
Inspections	12
Station No. 5 — Repairs	34
Inspections	178
Station No. 1 — Repairs	27
Inspections	266
Police Boxes — Repaired	49
Painted	6
Underground Cables — Repaired	81

INSPECTOR OF WIRES

90

Overhead Lines — Repaired	21
Cross Arms — Changeovers	15
Traffic Lights — Repaired	242
Inspected	32
Painted	27

The operating expenses for the year were:

General Expenses	\$ 17,258.79
Salaries and Wages	12,107.07
New Equipment	12,855.26

TOTAL	\$ 42,221.12

STREET LIGHTS

For their excellent co-operation, I extend my sincere thanks to each member of the 1966 Street Lights Committee as follows:

Ralph J. Saulnier, Chairman
 Anthony Catojo, Vice-chairman
 Daniel F. Hayes
 Donald R. Gaudette
 William E. Hall

New Mercury Lighting was ordered to be installed on County Street south from Arnold Street to Cove Road and on Acushnet Avenue north from Tarkiln Hill Road to the junction of Ashley Blvd. Both these projects will be completed in 1967.

A change in the street lights rates went into effect on July 1, 1966 much to the benefit of the City of New Bedford. For the 1,000 lumen light there is a reduction of \$5.04 per year and for the 21,000 lumen fluorescent light the reduction is \$29.80 per year. In fact all sizes of street lighting were reduced. The additional charge of \$10.00 per year for wood poles used only for street lights has been eliminated.

New lighting was ordered in the new streets of the Pine Hill Acres project and increases in lamp sizes and new installations were made in all sections of the City.

At the end of the year there were 5,890 street lights in operation in the City of New Bedford as follows:

1,776	1,000 lumen O.H. Open	@ 23.76 per year
1,839	2,500 lumen O.H. Open	@ 31.32 per year

CITY OF NEW BEDFORD
BOARD OF PARK COMMISSIONERS

December 31, 1966

To the Honorable City Council:

Gentlemen:

The Seventy-third Annual Report of the Board of Park Commissioners on Parks, together with reports on Bath Houses, Playgrounds and Militia under the control of this Board, is herewith presented in accordance with provisions of law for the fiscal year ending December 31, 1966.

The Board held ten regular meetings and four special meetings during the year and voted to dispense with meetings during the months of July and August. They organized in May for the ensuing year and elected Frank Vieira as chairman and William Smith, secretary. Manuel P. S. Macedo and Carl R. Anderson continued to serve as hold-overs as Mayor Edward F. Harrington did not appoint replacements.

Bids for refreshment concessions were advertised in April, and the permit was awarded to Mr. John W. Clauretie of 546 County Street for a one (1) year term beginning May 1, 1966, and ending April 30, 1967, for his bid of \$200.00.

The Board awarded concession rights at the Municipal Beach, East Rodney French Boulevard to John W. Clauretie of 546 County Street for a term of five (5) years beginning June 1, 1966, for his bid of Five Hundred Dollars (\$500.00) annually or ten per cent of the gross sales at the East Beach Concession, whichever is greater.

Taken by eminent domain for municipal purposes of a public playground or recreation centre were two parcels of

land west of the New Bedford Municipal Golf Course. The 23 acres of heavily wooded land almost completely "dead-locked" by other properties, most municipally owned, are located in the northwest section of the city between the Dartmouth line, railroad tracks, the municipal golf course and Interstate 195.

A license was granted to the Conservation Commission for the care, custody, and control of the land west of the Whaling City Country Club for a term of years or until such time as the Board might require use of it for public playground and recreational purpose. The aforementioned area is to be used as a wildlife refuge and would not be open to the public.

The municipal golf course known as the Whaling City Country Club, survived its first major reconstruction era, and embarked on its 21st year. A new 18-hole format, necessitated by the invasion of a Route 140 connector with new Route 195 taking part of the old course and a new ultra-modern clubhouse, welcomed the 1966 season. Major projects in the relocation program were the construction of nine new holes and realignment of existing holes, blended into the new 18-hole layout, and the erection of the one-story clubhouse, 40 feet by 80 feet, at a cost of \$39,716.00 replacing the one which stood in the path of the new road.

New Bedford's July 4 celebration at Brooklawn Park included a band concert, baton twirling and fireworks. More than 10,000 persons were attracted by the colorful affair.

Formal dedication of the New Bedford-Fairhaven-Acushnet Hurricane barrier was held at Marine Park, May 15, 1966. The massive stone and steel project built by the Army Corps of Engineers to shield the inner harbor from storm tides is 3½ miles long. It took 40 months to build. The dike was financed by private firms, the Commonwealth and by three communities it serves.

The Board voted to renew the lease of the Greater New Bedford Little Baseball League, Inc., for use of the baseball diamond at Robert J. Lawler field for a five-year lease, September 1, 1966 through August 31, 1971.

The State Waterways Division agreed to pay half the cost of the East Beach construction project and awarded the contract to Gracia Brothers of Fairhaven to construct a stone groin and retaining wall as well as replace the sand blown off or washed into the harbor at the East Beach on East Rodney French Boulevard.

The Bravo Battery, 3rd Howitzer Battalion, 211th Artillery, New Bedford National Guard made use of Marine Park to display for public viewing two 8-inch howitzers in firing position.

Flora B. Pierce, chairman of the Conservation Commission, conducted an outdoor Conservation Days' Program for Grade 6 pupils from seven elementary schools at Buttonwood, Brooklawn and Hazelwood Parks.

The Election Commission made use of the Brooklawn Park Warming House for a voting precinct in the State primary and State election.

The New Bedford Health Department conducted a two-day clinic at Buttonwood and Brooklawn Park Warming House for a vaccination of city dogs against rabies in May 1966.

The New Bedford Exchange Club was granted use of Marine Park for the period of August 8 through the 15th, 1966, to sponsor their Ninth Annual Scallop Festival on 12-13-14, August 1966.

A plaque was put up at Buttonwood Park Zoo honoring the late Louis J. Dupres, who donated two golden pheasants to the zoo.

The Cape Verdean Veterans Drum and Bugle Corps made use of Marine Park for marching and maneuvering practices, on Mondays and Fridays.

The Whalers' Senior Drum and Bugle Corps was granted use of Marine Park Tuesdays, Wednesdays and Thursdays for rehearsals.

The Whaling City Chordettes Drum and Bugle Corps made use of Marine Park every Saturday for drilling.

The Shield Drum and Bugle Corps was granted use of Lot 13 for marching and maneuvering practice on Saturday.

The Eagles Little League was authorized to erect a memorial plaque, 20" x 10" honoring the founder of the Eagles Little League, Milton T. Weaver, in the center of the fence around the playing field of the Brooklawn Park Little League Diamond.

The 16th Annual Camporee, sponsored by the Southern District Cachalot Council, was held at Buttonwood Park, June 3-5, 1966.

The Recreation Commission was granted use of the park and bath-house facilities to carry out their summer program.

The Polish-American World War Veterans' Association was granted use of Brooklawn Park to hold services on Memorial Day at their war memorial.

The Middle Street Playground was rehabilitated according to plans submitted by Charles W. Rock, assistant city planner, at a cost of \$6,678.23. The playground was divided into three areas: an asphalt surface for a double basketball court, a center strip landscaped as a green park with seeding of grass and tree plantings, benches, a drinking-fountain and a fountain-type shower, and a play apparatus zone.

An eagle cage, 20' x 28' and 16' high, was constructed of chain-link fencing at Buttonwood Park for the park's American eagle as a part of the park's expansion program. The cage was designed by Anthony Pelczar, park maintenance craftsman.

The Board approved schedules for tennis, softball and little league, pony, colt and twilight baseball games at various recreational fields.

On August 19, 1966, the Board voted to accept the Mayor's request to be replaced as Acting Superintendent of Parks. Henry J. Wareing, assistant superintendent of the Cemetery Department, was approved as Acting Superintendent of Parks until such time as a superintendent was chosen and qualified after a Civil Service exam to be held September 10, 1966.

The Board of Park Commissioners thanks the Mayor and the City Council for their interest and encouragement and also thanks the heads of city departments who contributed in any way to make the work of the Park Department a success.

Respectfully submitted,

FRANK VIEIRA, Chairman
WILLIAM SMITH, Secretary
HARRIE W. JOHNSTON
CARL R. ANDERSON
MANUEL P. S. MACEDO

December 31, 1966

To the Honorable Board of Park Commissioners:

Gentlemen:

Herewith is submitted the Annual Report of the Park Department and its subdivisions for the year of 1966.

The necessary repairs to Park Buildings and properties have been made as well as added improvements. These repairs, projects, and improvements are being accelerated and will continue so, due to the acquiring of new lands and properties being incorporated into the Park systems.

In 1966, in Buttonwood Park, there was a new cage built for the Eagle, also a renovated fountain was installed in the duck pond.

Plywood cabs were installed for the Jeeps for winter work.

The backstop on No. 1 diamond was rebuilt, also a backstop was salvaged from the Bristol Mill Lot and transported and installed on the No. 4 diamond of Brooklawn Park.

Four dozen Park rules and regulation signs were built as well as five new life guard stands for the Bath House.

Two hundred and sixty feet of copper tubing was installed at Buttonwood Park replacing an old broken water line.

Three Basketball backstops were built and installed at the various playgrounds.

All anchor fencing at Ashley Park was painted with Rust-oleum paint, also all anchor fencing at Brooklawn Park and Riverside Playground were painted.

Four hundred pieces of 2 x 4's were purchased for the installation of benches at Common Park.

At the Rifle Range, eight additional target supports were built and installed.

Twelve new Jacobson grass cutting motors were purchased, also a new 1967 Chevrolet two ton truck, and two Brush King cutters.

At Brooklawn Park, a new backstop was installed and a Little League diamond was renovated and rebuilt into serviceable condition.

A basketball court was constructed at the Common Park.

Two hundred and twenty stumps were ground by the Department of Public Works in Brooklawn Park. The clearing and removing of all brush and stumps in the northwest

corner of Brooklawn Park was accomplished. There were disinfecting units installed in the rest rooms in all parks wherever necessary.

Two coats of paint were given to all flag poles in all parks.

Numerous playground equipment, including all picnic tables and benches were repaired and painted, throughout the parks.

The department participated in the Annual Spring Flower Show of the Kiwanis Club of Greater New Bedford, held at Lincoln Park.

At Buttonwood Park, bleachers were razed by the 483rd Engineer Battalion.

The Middle Street Playground, designed by the Planning Department, was built and constructed by the Park Department. Lawn was graded, cultivated and seeded. Pin Oaks and Dogwood trees were planted. Cement benches were installed and basketball courts were built.

To the members of the Board, the employees of the Department and the various Department heads, I wish to extend my thanks for the co-operation given me during the year.

Respectfully submitted,

HARRY J. WAREING, Superintendent of Parks, Temporary

RIFLE RANGE

Utilization of the New Bedford Rifle Range facilities by the Military throughout the year of 1966 was considerable. Approximately 1800 Military personnel were trained and qualified in the use of small arms. From April to November various units, elements or components of the following organizations used the Rifle Range and Range equipment for training:

1st Howitzer Battalion, Army National Guard; 441st Civil Affairs Company, U. S. Army Reserve; 489th Engineer Battalion, U. S. Army Reserve; 489 Ordnance Battalion, U. S. Army Reserve; 3 U. S. Naval components.

Throughout the entire year civilians holding range permits, civilian organized clubs, and Boy Scout units with their instructors were at the Range holding competitive matches when the weather was conducive to good shooting.

Customary maintenance of cutting brush and grass was carried out as usual.

Respectfully submitted,

ARTHUR LEE, SMC, USN, Retired — Range Control Officer

Forty-second Annual Report

OF THE

PLANNING BOARD

NEW BEDFORD, MASSACHUSETTS

For the Year 1966

BRADBURY-WARING, INC.

New Bedford, Mass.

1 9 6 7

PLANNING BOARD REPORT

City of New Bedford

February 18, 1967

To the City Council of the City of New Bedford.

Gentlemen:

The Planning Board submits its Annual Report for the year ending December 31, 1966.

Ten meetings were held during the past year for the purpose of holding hearings on changes on the zoning map. Twenty-two petitions for proposed zoning changes, two ordinances, and three resolutions were received for consideration by the Planning Board.

A summary of the cases with the action of the Board therein is set forth in the following table.

EDMUND J. TOOMEY,

Secretary

PETITIONS FOR ZONING CHANGES — 1966

<i>Location</i>	<i>From</i>	<i>To</i>	<i>Recommendation by Board</i>	<i>Date of Meeting</i>
1. West side of Church Street and on the north side of Tacoma Street.	Industrial C	Industrial B	Withdrawn	January 24, 1966
2. West of Church Street, the southern boundary of said land beginning south of Dutton Street, said land being bounded on the north by land owned by the Greater New Bedford Industrial Foundation, being bounded by the railroad tracks on the west and bounded on the east by land owned by various persons.	Industrial C	Industrial A	Granted	March 14, 1966
3. Northwest corner of Liberty Street and Parker Street having a frontage of 1328.75 feet on Liberty Street and a frontage of 277.85 feet on Parker Street now zoned for Residence B, be reclassified and all zoned for Business to the depth of the lot, as more especially appears on an Assessors Plan Plot 69, Lot 459, Plat 70, Lot 1.	Residence B	Business	Granted	March 14, 1966
4. That the property at 4329 and 4331 Acushnet Avenue be extended westerly for a depth of 105 feet for business. Being Lots 96, 97, 98 and 99 on Plat 136A for the total depth of said Lots.	Residence B	Business	Withdrawn without Prejudice	March 28, 1966

Forty-first Annual Report

OF THE

BOARD OF APPEALS

NEW BEDFORD, MASSACHUSETTS

For the Year 1966

BOARD OF APPEALS

City of New Bedford

February 18, 1967

To the City Council of the City of New Bedford.

Gentlemen:

The Board of Appeals submits its Annual Report for the year ending December 31, 1966.

Meetings were held on the first and third Wednesdays of each month except when there were no appeals.

Thirty-five appeals, under the Zoning Ordinance were received for consideration during the year. Twenty of these appeals were granted, four were denied, and eleven were granted conditionally.

A summary of the cases, with the action of the Board is set forth in the following table.

EMERIC H. CHENEL,

Clerk

° *Granted Conditionally*

<i>No.</i>	<i>Nature</i>
1698	To use land to erect two dwellings
1699	To alter the second floor to provide two apartments
1700	To sub-divide property

Captain MANUEL SIMMONS, Retired

Died: October 28, 1966

Age: 72 years, 2 months, 13 days

REMARKS AND RECOMMENDATIONS

Three (3) patrolmen and one matron retired, six (6) retired officers died, four (4) patrolmen were appointed to the Department, and three (3) Lieutenants were promoted to Captain, during 1966.

As the result of a law which became effective on January 1, 1966 the four appointees to the Department attended a recruit training school at the Massachusetts State Police Academy in Framingham for six (6) weeks.

The Auditorium at Police Headquarters was renovated. We now have a modern lighted hall which can be utilized for meetings and gatherings by government agencies and the general public.

At Headquarters the Foyer, Traffic Division office and Garage office were renovated. A room adjoining the Policewomen's quarters was painted and the floor covered with asphalt tile. With the completion of this work most of the first floor of Headquarters has been beautified during the past three years.

We had three (3) new patrol cars and one (1) new station wagon replace four of the older same type vehicles this year. We had requested eight (8) vehicles. Many of our mobile units have registered 100,000 miles or more.

Walkie Talkie radios for foot patrolmen were put into operation in the Fall of 1966. They replaced the Gamewell Box Signal system. This innovation has increased the efficiency of the foot patrolman tremendously.

A new telephone system for the Department is in the process of being installed. When completed in 1967, it will eliminate numerous busy signals allowing the public faster and better service. The new automatic switchboard will release three (3) patrolmen for duty elsewhere.

All police officers were given an eight hour refresher course on First Aid this year. They attended school two hours a day in sessions extending over four weeks. Re-

cruits attend this school on a sixteen hour basis. This instruction is mandatory and is taught every two years.

Police Station #5 was completed and officially dedicated on July 31, 1966. This building contains the most modern equipment and its appearance both inside and out enhances the image of the Police Department in the eyes of the public.

RECOMMENDATIONS FOR 1967

It is respectfully requested that the following equipment be acquired for the maintenance and improvement of Police Services:

An Oil Burning Furnace: To replace a coal burning furnace which is approximately forty-five years old. The oil burning furnace would supplement another oil burning furnace now being operated in conjunction with the coal burning furnace. Both furnaces are overtaxed. The acquisition of another oil burning furnace would make it possible to institute a two-zone heating system. This would provide uniform heat throughout the building, causing a decrease in the consumption of oil thereby creating a savings in the cost of heating Police Headquarters.

We have a large portable gasoline generator which is kept for emergency purposes. In case of a power failure, this generator is capable of supplying electrical current in sufficient quantity to operate our Central Headquarters building. There should be a covering or house for this piece of equipment of a permanent nature so that no time would be lost transporting or setting it up when it is needed. On the occasion of the recent blackout of the east coast on November 9, 1965, the generator which was stored in the police garage could not be put in operation for a half hour. This was because the garage door, which is operated electrically, had to be disassembled manually. Estimated cost \$2,000.

Aluminum Railings: On the Spring Street side and on the Second Street side of Police Headquarters, there are outside stairways leading to the first floor of the building. It is recommended that aluminum railings be installed as a safety measure for the protection of the public.

Safety Helmets: During the past few years mob violence has broken out in many cities and towns. In some of these places it was deemed unlikely to occur. In 1966 I recommended 100 Safety Helmets be purchased. We acquired 50. It is now recommended that 50 more be bought. Estimate \$10. each. Total cost \$500.

Riot Sticks: The Department now has 120, 36-inch Riot Sticks. Fifty (50) more are requested. Cost per stick \$3.50. Total cost approximately \$175.00.

Police Revolvers. One hundred of the revolvers now in use by the Department, Colt 38-calibre, Police Positive, are antiquated having been in use more than forty years. Many of the barrels are pitted. Last year we had two hundred such revolvers but replaced one hundred with Smith and Wesson 38-calibre, model 10, Special. I am recommending that one hundred Colts be replaced with Smith & Wesson Specials. By trading in it is estimated each firearm would cost \$25.00; total amount \$2,500.

In order to provide one hundred percent radio communication service in the Department, three motorcycles require sets. I recommend the purchase of three (3) units. Cost each \$740.00; total \$2,220.

Eight Sedans for Patrol Duty: To replace the same number and type of vehicles respectively. As of November 17, 1966, the mileage of the vehicles to be replaced run from a low of 96,000 to a high of 182,000 miles. Three of these cars are operating with a second or replacement motor. They are constantly in need of repair. Estimated cost \$19,200.

It is recommended that eight (8) Gas Masks be provided. Price \$30.00 each, total \$240.00. The Gas Masks we have now are useless because of leaks, etc.

For the new revolvers purchased in 1966, 2-M 38 Special 158 grain ammunition is required, price \$70.00 per thousand. We will need two (2) thousand; \$140.00.

For in-service training it is respectfully requested that \$500. be allotted.

Manpower of the New Bedford Police Department is 235 as of December 31, 1966. In order to compensate for extended vacations which were instituted January 1, 1966, five more patrolmen are respectfully requested. This number would bring out complement up to 240 manpower.

My gratitude is extended to His Honor, Mayor Edward F. Harrington and the honorable members of the City Council for their understanding and cooperation in all circumstances pertaining to the Police Force. The Department as a whole has benefited during 1966 from their recommendations, guidance and acquiescence in all mutual matters.

I am most thankful for the help and assistance which has been given to the Police Department by administrative heads of other City Departments and their employees. Without them many of our accomplishments could not have materialized.

Again I am very appreciative of the manner in which police communications have been handled by those connected with radio, television and newspapers. The news media has been most helpful to us in cooperating by either printing or withholding information when to do one or the other would be in the best interests of the public and the police.

This year as in the past year some people of New Bedford have helped our operation by coming forward to report crime. Although the number is not great the De-

partment is glad to receive this assistance. We in law enforcement are always hopeful this trend will continue and improve.

Our Department continues to send officers to Seminars, Forums, etc., of one day duration. The officers in the supervisory grades are especially urged to attend. Any officer who wishes to attend class in college is encouraged to do so and their assignment time will be so set that it will not conflict with school hours.

THOMAS F. CAWLEY,

Chief of Police

ANNUAL REPORT
OF THE CHIEF OF POLICE OF THE
CITY OF NEW BEDFORD, MASSACHUSETTS

for the year ending December 31, 1966

IN CITY COUNCIL

ANNUAL REPORT

OF THE

BOARD OF PUBLIC

WELFARE

FOR THE YEAR 1966

CITY OF NEW BEDFORD

MASSACHUSETTS

BOARD OF PUBLIC WELFARE

Emil Bellotti

Chairman

Victor Rebello, Jr.

Secretary

Joseph Enos

William A. Higgins

Lionel B. LeDuc

Joseph A. Sciuto, M.D.

Board Members

Leo S. Harrington

Director of Public Assistance

To His Honor, the Mayor, and Members of the City Government of the City of New Bedford:

Gentlemen:

The New Bedford Board of Public Welfare hereby submits its annual report for the year 1966.

Gross expenditures for all of the public assistance categories administered by the Department totalled \$8,471,595.90. Gross reimbursements from all sources amounted to \$7,613,737.16, leaving a net cost to the City of \$857,858.74 which was a decrease of \$455,437.30 from the net cost to the City in 1965.

The year 1966 saw the implementation of two major programs of the Social Security Amendments of 1965: Title XVIII, Medicare, and Title XIX, Medical Assistance, which is commonly referred to as Medicaid.

Prior to the institution of Medicare on July 1, 1966, considerable preliminary work had to be accomplished at the local level. Several planning conferences were held; numerous State and Administrative Letters were received; Social Security and claim numbers were obtained; myriads of forms completed; and an unending amount of detail work had to be accomplished in order to insure a smoothly working, effective Medicare program.

On the State level, new rules were adopted removing restrictions on the eligibility of persons sixty-five years of age and over receiving care and services in a medical institution with a diagnosis of psychosis or tuberculosis. In addition to meeting the needs of patients sixty-five years of age and over in tuberculosis institutions, rules adopted by the Massachusetts Department of Public Welfare removed restrictions on the eligibility of any person who was a patient in a medical institution as a result of tuberculosis or psychosis, making such persons eligible on or after February 1, 1966.

The department went on to eliminate specific control of visits by physicians and revised fees for physicians' services. It established that payment for surgical services or procedures

for recipients sixty-five years of age and over are to be paid in accordance with Medicare provisions. Payments for surgical services or procedures for recipients under sixty-five are to be made in accordance with Fee Schedule XI of the Medical Care Plan. This latter plan applies also to those recipients sixty-five years of age and over who are not covered by Plan A of Medicare.

Without advance warning, on September 1, 1966, we were informed by a State Letter that a Title XIX Medical Assistance program, commonly known as Medicaid, had gone into effect that same day. This new Medical Assistance program became a separate category of assistance, and it replaced the several provisions for medical care included prior to that date in the programs of Old Age Assistance, Medical Assistance for the Aged, Aid to Families with Dependent Children, and Disability Assistance. This program eliminated the Medical Assistance for the Aged program and it made provision for the inclusion of persons not previously eligible for an aid grant. With the inauguration of this new program, Old Age Assistance, Aid to Families with Dependent Children, and Disability Assistance became programs to provide for the maintenance needs of the recipient whereas Medical Assistance provides for their medical needs.

All persons being aided by the federally aided categories of assistance became automatically eligible for Medical Assistance. Persons who would be eligible for OAA, AFDC, or DA, except for durational residence, income or personal property, are referred to as Categorically Related Persons and are eligible for Medical Assistance providing they meet the basic eligibility requirements.

In addition to this, all medically needy children under twenty-one years of age whose income and resources are sufficient for their maintenance but are insufficient to meet the cost of their medical and remedial care are eligible. Also eligible are those residents of Massachusetts who are temporarily absent from the Commonwealth, providing they meet all of the eligibility requirements.

As of January 1, 1966, the approval rate for licensed rest homes was increased to \$4.75 per diem. On that same date, hospital, Public Medical Institutions, and licensed nursing home rates were revised. Nursing and Convalescent Homes were divided into five separate groupings with a different rate set for each grouping.

On March 1, 1966, budgetary standards for Old Age Assistance and Disability Assistance were revised with the use of a new simplified form of budgeting being put into effect at that time. As of April 1, 1966, a revision was made in the cost-of-living adjustment for the federal categories of assistance, the cost-of-living showing an increase of 3.49% from the period of July 1963 to February 1966. In order to effect the change, it was necessary to adjust the recipients' budgets to 39.49% in place of the previous 36% cost-of-living adjustment.

The definition of a dependent child in Aid to Families with Dependent Children was broadened to include children under the age of twenty-one who are students regularly attending a school, college or university, or regularly attending a course of vocational or technical training.

Effective September 1, 1966, all dependent children under the age of twenty-one years with earned income are included in the family budget. The State Department of Public Welfare has established a policy disregarding \$50.00 per month of net earned income of a child under eighteen years of age. As of December 19, 1966, this same policy was extended to children between the ages of eighteen and twenty-one years, retroactive to September 1, 1966. This policy was adopted in order to continue the incentive for employment of children.

The State Department further established an income exemption for single children twenty-one years of age or over living with their parent or parents in the amount of \$2,200.00. Allowance is made for federal and state taxes, and one-third of the excess over this net amount is to be given to the parents on the AFDC program. This exemption is similar to that in effect for the Disability Assistance program.

As of October 1, 1966, Standards of Assistance in the Aid to Families with Dependent Children program were adopted simplifying the budget procedure. At this same time, the State Department adopted the policy that a Board of Public Welfare is to make a regular assistance grant to the AFDC family that is not reduced by the amount due from the absent parent. Arrangements have to be made to have such support payments made directly to the Board of Public Welfare.

The State Department on October 13, 1966 established a policy which prohibits the assignment of police personnel to public assistance agencies. They are not to be used for the purpose of investigating cases and are not to be given any information which does not relate to the location of absent parents. The purpose of this is to protect the individual rights of the recipients.

Effective November 27, 1966, Chapter 570 of the Acts of 1966 provided for an increased limit by Boards of Public Welfare in the burial of an Old Age Assistance recipient from \$200.00 to \$300.00 and increased the ceiling for the total expense incurred from \$400.00 to \$500.00. Notification was received on December 16, 1966 that the Advisory Board of the Department had revised the AFDC regulation and the DA rule relative to the responsibility of the department for its share of the cost of funeral and burial expenses in AFDC and DA to be the same as the allowance for an OAA burial, this to be effective January 1, 1967.

As of January 1 1966, federal financial participation was increased for aid as follows:

OAA was increased to \$57.50 per case

DA was increased to \$50.00 per case

AFDC was increased to \$22.00 for each eligible person included in the aid grant

With the advent of the Medicaid program, the federal grant for aid in the OAA category was reduced to \$50.00 per case.

As the year 1966 ended, there were 143 participants assigned to the Title V Program which is operated by this department

under a federal grant. This program was renewed from June 16, 1966 to May 31, 1967, offering work training, work experience, and educational programs to up-grade skills for employment and to improve the employment potentials of unemployed fathers and other needy persons and to assist in the securing and retaining of employment for participants in this program.

In April 1966, the Board of Public Welfare extended to all recipients of assistance from this department the choice of their own physician. This eliminated the positions of two Board Physicians who, up to this time, provided services for AFDC and General Relief recipients. This action granted to recipients of these two categories the privilege of physicians of their own choice which had been hitherto granted to recipients of the other categories of assistance.

We were deeply shocked and saddened by the unexpected death on April 11, 1966 of Paul R. Merchant, Social Worker in the Adult Unit of this department. His genial manner and willingness to help others is greatly missed by his fellow employees and, above all, by recipients of aid from this department.

In addition to the sad loss of Mr. Merchant, we also lost the services of several other valued employees through resignation and retirement. The problem of securing replacements to fill their vacancies is indeed a serious one — it is most difficult to replace people who have years of knowledge and experience.

We were reminded by Administrators Letter 163 dated October 26, 1966 of the need to meet caseloads and supervisory standards for all programs by July 1, 1967. These caseloads and supervisory standards are mandatory and will require the hiring of additional supervisors and social workers. The major difficulty which can be foreseen is that of securing adequate qualified staff through the ordinary Civil Service process due to the small number of persons certified by the Division of Civil Service as qualified for social work staff vacancies.

1966 proved to be a year of many changes in the administration of public assistance in Massachusetts. It is felt that this is only a sampling of changes to be brought about in future years by action of the Legislature and the Congress.

We wish to extend our sincere thanks to His Honor, the Mayor, Members of the City Council, all local private and public agencies, the New Bedford District Office of the Massachusetts Department of Public Welfare, and, in particular, to all members of the staff of this department whose loyalty, devotion to duty, and willingness to assist has lightened the burden of administering the Public Assistance Programs in New Bedford.

Respectfully submitted,

LEO S. HARRINGTON

Director of Public Assistance

Annual Report

OF THE

CITY PURCHASING

DEPARTMENT

CITY OF NEW BEDFORD

MASSACHUSETTS

For the Year 1966

BRAD-WAR DIV. REY. DEWALT
PRINTERS
1967

December 31, 1966

The Honorable Mayor and City Council
City of New Bedford
New Bedford, Massachusetts

Gentlemen:

We have the pleasure of submitting to you our report for the year 1966.

Your continued support and confidence in our efforts to effect every saving possible for all City departments has been most gratifying. We wish, also, to acknowledge the cooperation we have received from all City departments to conduct all purchasing activities in accordance with the laws and ordinances of the City.

Respectfully submitted,

FERNANDO P. CRUZ,

Purchasing Agent

**CITY OF NEW BEDFORD, MASSACHUSETTS
PURCHASING DEPARTMENT**

REPORT OF THE PURCHASING DEPARTMENT — 1966

The work load of the Purchasing Department during 1966, the tenth full year of its operation, is summarized in the schedules of Requisitions, Purchase Orders and Contracts listed on the following pages.

The operating expense for 1966 follows:

Salaries and Wages	\$14,645.89
General Expenses	1,762.52
	<hr/>
	\$16,408.41

The City Ordinance provides that the Purchasing Department is responsible for procurement of all supplies and contractual services required by any department which derives its support wholly or in part from City funds, with the exception of professional expert consultant or similar contractual services. The Department is also responsible for the disposal of all surplus scrap and unusable materials.

Purchases of miscellaneous small items, usually required immediately, are made promptly after prices have been checked. On items involving less than \$200.00 competitive bids are invited by telephone, on items over \$200.00 by mail and on special equipment bids are advertised. Where contracts were issued formerly on purchases involving \$500.00 or more, the City Council approved our request to raise the amount to \$650.00 or more.

Savings have been realized by the installation of a Xerox copying machine and copies are being made for all City departments as needed. In 1966 73,571 copies were made. By centralizing this work it has definitely resulted in substantial savings to the City and in clearer copies being made.

The City is exempted by law from payment of Federal Excise Taxes and State Sales Taxes and it has been the policy of the Purchasing Department to provide exemption certificates to cover such taxes on all supplies purchased by the City. Purchases of automotive equipment such as motor passenger cars, motor trucks, batteries, etc., are covered by exemption certificates.

RECREATION COMMISSION OFFICE

Room 401

Municipal Building

December 31, 1966

To the Honorable City Council:

Gentlemen:

The members of the Recreation Commission are gratified by the increase of activities in Recreation in New Bedford. With a limited Budget and the loyalty of the department employees, we have had a most successful year. There is so much more that could be accomplished with an enlarged budget.

New Youth programs, geared to the "teen age" interests, expanded craft and social programs for the Senior Citizens in larger quarters, and the erection of a permanent building for use as a First Aid station and storage unit at the East Beach are only a few of the many improvements that we should undertake.

The second annual two-mile swim sponsored by Dawson's was held at the West Beach with an enthusiastic crowd of 5,000 spectators who were thrilled by the Sky Divers who performed for them in the afternoon.

The Senior Citizens had a total of sixteen Bus trips planned for them and climaxed the year with their annual Holiday party with dinner and dancing with the Retired Worker's Council of the U.A.W. again cooperating with the Commission by contributing very generously of both money and time to make the trips and party as interesting and successful as possible.

The Annual Lincoln Park outing for the Playground children was again by unanimous opinion, a huge success.

The newly introduced gymnastics class for the very young girls of 8-12 was extended to include Roosevelt and Normandin Junior High schools after the Pilot program at Keith Junior High School had proved so popular.

Sailing instruction classes growing rapidly in popularity with both the Youth and young adults were expanded from two classes weekly to three classes.

Recreation is rapidly being recognized nationally as an important part of living for all age groups.

Much of the equipment in the playground areas particularly, is very old and should be replaced with newer and more modern materials. Sooner or later it will become an absolute necessity and I cannot urge strongly enough that surveys be conducted and a gradual replacement of equipment be instituted.

Appropriations and expenditures for the entire year are shown in the various accounts which follow this report.

Respectfully submitted,

DR. EDWARD KESTENBAUM,
Chairman

JOSEPH S. PONICHTERA,
Vice Chairman

RECREATION DIRECTOR'S REPORT

To the Board of Recreation Commissioners:

Dear Members:

Herewith is submitted the report of the activities of the Recreation department for the year ending 1966.

1. WATER ACTIVITIES — Herbert Rego, Recreation Supervisor

BEACHES:

The swimming season officially opened Sunday, June 19, 1966 with twenty-four lifeguards manning the East and West beaches.

The lifeguard's pre-season training clinic was held Saturday afternoon June 11th and Monday evening June 13th. The Saturday session covered lifeguard rules and regulations, guard assignments, work duties, mechanical and artificial resuscitation, issuing of equipment and locker assignments and ended with a brief written examination. The Monday clinic was held at the Y.W.C.A. indoor pool and consisted of the following life-saving techniques; inverted scissor and shallow arm pull; rear, front, and front underwater approaches; quick reverses; the defenses, the carries; shallow water carries; the releases and use of the paddle board for rescues.

Only twenty of the thirty-four eligible lifeguards accepted positions resulting in the emergency hiring of four guards. This was due to the fact that our salary scale in no way compares with that of other area beaches.

Free swimming instructions were held six days a week from July 5th thru August 26th under the direction of three authorized American Red Cross Safety Instructors. Class instruction ranged from the Beginner swimmer to advanced swimmer, Junior and Senior Life-saving and synchronized swimming. The programs ended with the annual Water Show on August 27th.

Special competitive swimming instruction was held twice weekly from July 5th thru August 25th, under the direction of Mrs. Beatrice "Trix" Whalen.

Sailing and small craft safety instruction classes were held three evenings weekly from July 11th thru September 2nd, under the direction of George Crook. By holding the classes in the early evening, more adults took advantage of the instructions and consequently at the middle of the season we had to increase the classes to five nights a week.

There were 54 water mishaps that involved the direct assistance of the lifeguards, which could have proved serious if there had not been trained and competent personnel on duty. A total of 315 First Aid cases were treated at East and West Beaches.

Lifeguard towers were erected on the West Beach this season which improved greatly the effectiveness in controlling activities on the beach.

The Annual Swim Carnival was held Sunday, August 14th. Mr. Albert Sylvia was the starter with Irving Davids and "Trixie" Whalen as judges. A total of 32 trophies were awarded to the winners of the various events.

The greatest crowd ever recorded for a local aquatic event was on hand for the 2nd Annual Dawson 2-Mile Swim on Sunday, August 21st. Events other than the swim were: House of Champions tumbling exhibition, Band concert by the Portuguese American Band, Jazz Combo from the Ft. Rodman Job Corps, a Water Skiing exhibition, and climaxed by the thrilling performance of the Taunton Para Divers Sky Diving exhibition.

The newly initiated 1st Annual Sailing Regatta on Monday, September 5th was very successful with 36 boats entered in the three various classes; — Beetle Cat, Cruising class and Miscellaneous. We received great cooperation by the U. S. Coast Guard Auxiliary Flotilla 1-605 who patrolled the course.

The rafts were taken out of the water September 8th and the beaches were officially closed on September 9th.

SWIMMING INSTRUCTION — General —**Genevieve Townley, Supervisor**

Enrollment of students for swimming instruction began June 27th thru July 3rd. The lessons were conducted from July 5th thru August 27th. Assisting instructors were Misses Kathleen Marr and Barbara Bourbeau.

Pupils passing all requirements in different levels of swimming were awarded official Red Cross achievement certificates.

Parents and friends were very pleased to attend the annual Water Show at the end of the season and to view the accomplishments of their children during the 8 weeks of instructions. Swimming demonstrations were held with Tiny Tots and on thru Senior Life Saving students. Races for beginners were held with ribbon awards given to the winners. Eight young girls attractively attired in white with glittering bathing caps gave an interesting exhibition of synchronized swimming techniques.

New personnel at the beach were given a course in standard First Aid and Red Cross cards were issued upon the completion of 10 hours of class work and the successful passing of a written test.

Total enrollment ..	404	
Failed to report	47	357 participating students

Taught to swim successfully	269
-----------------------------------	-----

Received Red Cross Certificates	149

SAILING AND SMALL CRAFT SAFETY —**George Crook, Red Cross Authorized Instructor**

The aim of this basic sailing course is designed primarily to prevent drownings associated with the use of small sailboats. Furthermore, since the principles of safety, self-rescue, and rescue of others is the same among all types of small craft, the conducting of this course contributes to all small craft safety in general.

2. PLAYGROUNDS: — Bette Tripp and George Pires, Recreation Supervisors

The summer playground season consisted of a nine week program with fourteen playgrounds in full operation and thirty-two persons employed. A varied and well planned program was incorporated into the nine week period.

A two day training clinic was conducted prior to the official opening of the playgrounds in order to orient the newly appointed leaders with all phases of programs and rules and regulations of conduct on the playgrounds to insure the safety and health of all who attend the programs.

A most interesting and educational arts and crafts schedule was conducted under the direction of Mrs. M. Iris Shaw, Lawrence Frates and Deanna Medeiros who made weekly visits to all playgrounds. The rewarding results were exhibited at the annual Sing-a-Long which was held at the end of the season at Buttonwood Park.

City wide contests were held each Friday morning at the various play areas followed by a city wide winner being chosen in the afternoon and appropriate prizes or trophies presented.

Leagues were again operating in baseball and basketball for boys and the three divisional champions met at Buttonwood Park in a playoff to determine the City Champs. All-star teams competed against Ted Williams private Day camp and also against the Dartmouth Recreation Commission's playground teams. Handsome trophies were also awarded to winners in both singles and doubles horseshoe tournaments.

The girls participated in organized volleyball, softball, and kickball leagues, as well as informal competition in horseshoes, basketball and social games.

This year we were fortunate in having two qualified persons who instituted daily tennis lessons. The program was enthusiastically received. A tournament culminated the season and trophies were awarded in both singles and doubles competition.

The annual Lincoln Park Day was held on August 2nd with 1,000 boys and girls from the fourteen playgrounds trans-

ported by chartered bus and served refreshments by the Recreation Commission and thru the courtesy of many local merchants.

The game of Kickball was introduced to the young people this season, and all age groups enjoyed it immensely.

Sketching and art work which had been introduced last season was expanded greatly. The participation in this program was tremendous.

3. TENNIS — Saturday Clinics —

Betty Anne Turner and Scott Gatenby

The average attendance rate was high all season so that at the conclusion, a total of 70 certificates were given to those who had a maximum of 4 excused class absences. Tournaments were held for girls, age 14 and under in Singles; 12 and under singles and doubles were held. Lack of too many boys prevented more tourneys in that area. The season was most successful with many students entering New Bedford Tennis Association tournaments and doing very well in them.

4. SCHOOL GYMS PROGRAM

The Recreation Commission was once again granted the use of the three Junior High School gyms. In an effort to service all age groups we offered various programs including basketball training and league play, volleyball, modified gymnastics and tumbling.

The program for girls age 8 thru 12 was expanded to all three gyms and continues to be most successful in terms of attendance. These young girls have been offered a very diversified program under the excellent supervision of Mrs. Marcia Foucart, regularly employed by the school department as a girls gymnastics teacher.

The holdover programs of basketball, volleyball, and tumbling have proved to be as popular as ever. Little leagues, Pony leagues and adult leagues were formed and the Recreation Commission continued its policy of cooperating with various outside

organizations in permitting them the use of the facilities. Some of these groups are:

The Jewish Community Center
The Bay State Little League
The Salvation Army Pony League
Several Soccer organizations
North End Youth Athletic League

We are sure that we could offer more diversified activities if only we had available facilities.

Although we cater to the athletic interests of many city residents, it is felt that many areas of recreation are totally unexplored due to the lack of facilities which certainly narrows the scope of any programs which we could possibly attempt.

The Recreation Commission continues to show a dedicated interest towards improving the recreational programs offered by the municipality.

They feel, as I do, that with the continued support of all concerned, we will someday be able to offer a more comprehensive recreation program for all residents and all age groups in the City of New Bedford.

5. 4th of JULY PROGRAM

KIDDIES DAY ACTIVITIES — James T. Bicker,

Supervisor

The Kiddies portion of the 4th of July celebration was again very successfully held in three areas; Buttonwood, Brooklawn and Hazelwood Parks. The usual field events were held with prizes being awarded to the first three winners in each event.

Mr. William Turbak again donated his services as "Billy the Balloon Man" and as usual delighted all age groups with his specialty number of creating amusing characters with balloons. Free ice cream, candy and potato chips were distributed.

The evening Fireworks display was enhanced by the exhibition of the Whalers Senior Drum and Bugle Corps and the

specialty act of a group of junior baton twirlers followed by the usual fine Band concert.

**6. SENIOR CITIZENS CENTER — James T. Bicker,
Supervisor**

The Recreation Commission, realizing the needs and wants of the Senior Citizens of New Bedford, is constantly making an effort to expand our present programs in this area of recreation.

The inability to find suitable quarters elsewhere has forced us to remain as tenants of the Y.W.C.A. — for our city-operated Senior Citizens Drop-in-Center.

The original conception of this operation was to provide a suitable place for all Senior Citizens to drop in and rest or watch television. We now find that if we offer these Senior Citizens a diversified program of Arts and crafts, dancing, Bingo, card parties, and community singing, that our present facility is not nearly large enough to handle the crowds.

Another extremely popular activity is the various bus trips planned by the Commission. Fourteen different places were visited this year.

The Retired Worker's Council of the U.A.W. has again cooperated with the Recreation Commission both financially and time-wise to insure the continuance of many of our programs.

The City of New Bedford Recreation Commission, despite its continuing effort to improve the over-all picture of Municipal Recreation becomes somewhat frustrated when it becomes necessary, because of lack of facilities or staff — or both — to refuse requests of interested parties to widen the scope of our programs.

Based on the premise that recreation interests are as diversified as the interests of man, we find that we are only touching the surface in many areas, such as Drama, Music, Art, Choral groups, etc.

People are looking more and more to municipalities to provide interesting, challenging outlets for their leisure-time pursuits and it is my fervent hope that we may in the foreseeable future, be able to provide facilities and staff to meet the ever-growing needs of all age groups in regard to recreational pursuits.

My sincere appreciation goes to the Commission for its dedication and to the staff of the Recreation department for their efforts to improve the existing programs and their challenging suggestions to add new programs.

Respectfully submitted,

EDWARD J. LOWNEY,
Director of Recreation

RETARDED and HANDICAPPED RECREATIONAL PROGRAMS — Mrs. Dorothy McCarthy, Director WINTER PROGRAMS

For maximum benefit to our children, the winter programs are divided into three classes, according to ability. Hours are from one to four daily, and the schedule follows that of the public schools as much as possible.

One group of the most severely retarded is made up of young people with little speech, or with no speech. Self-help is encouraged, neat eating habits, socially acceptable behavior. Simple puzzles, manipulative toys, music, circle group games, and dramatized stories are used to help the children develop.

A second group is made up of younger, hyper-active children. The children are over the age of seven, but are not ready for a public school trainable class. Speech is developed or improved. A reasonable degree of conformity to group activities is required. Children are helped to use pencils, crayons, scissors, paste and paints. We attempt to encourage quieter activity and behavior, and to increase their attention span. When each child appears to be ready for the transition, he is referred to the public school system.

The third group consists of older, more advanced young people who are interested in teen-aged activities on a simplified basis. Several members attend a trainable class in the morning. The afternoon recreational activities provide additional stimulation and an opportunity to relax with peers. Some members of this group are over the age of public school training and they are aided in retaining their learned skills and helped to acquire new ones. Typical teen-age fads develop and are encouraged.

Domestic and practical skills are taught to the extent that is possible.

Daily schedules are carefully planned and posted in each room. Each child is carefully studied and individual aims established for each. Monthly reviews of the child's progress help to insure that each student is helped on an individual basis to reach his potential.

SUMMER PROGRAMS

The summer program is planned to be as similar as possible to a Day Camp for the normal child.

We include all the traditional activities and adapt them to the specific needs and capabilities of our campers. Physical education is directed each day for muscular coordination. At other periods during the day it takes the form of sports, races and circle group games.

Arts and crafts are chosen to allow the most limited child to achieve the feeling of success, and at the same time, allow the most advanced camper to add more intricate details.

Music is a most effective tool. The children respond better to music than to almost any other activity. It is therefore used in many ways such as flag raising, rhythmic expression, dramatics and for many just plain listening pleasure.

Campers are divided into two groups, using separate playgrounds. The "Pioneers" are older and can enjoy more advanced sports. They enjoy baseball, basketball, kickball and competitive races.

The "Indians" are the younger children. They play more circle games, finger games and have more free play. Story hour is usually accomplished in rather small groups. Their rest time is held in the building, while the Pioneers rest on blankets out-of-doors, weather permitting.

Several special activities high-lighted the summer program such as:

Entertainment by Miss Dorothy Silva, talented folk singer.
Entertainment by Miss Janice Patys, accordionist.

Food parties and treats thru the generosity of Mr. and Mrs. Arthur Pederson and twice thru the courtesy of the Stop and Shop Markets.

An outing for a hayride at Apache Ranch was rained out but due to the interests of Mr. and Mrs. Owen McQuade, horses were brought to the Center and every child who wished to do so had a ride.

Arrangements were made by Herbert Rego and Edward Lowney of the Recreation department and we were able to spend an enjoyable day at the Municipal Beach in a roped off and restricted area and with three excellent lifeguards assigned to duty to assist our regular staff. The children swam, splashed in the water and enjoyed sand play on the beach. This was so very much enjoyed by everyone, that we anticipate scheduling it for next season with the cooperation of Mr. Rego, Supervisor of water activities, as a regular once a week project.

On rainy days, our talented and devoted staff dressed up in various costumes and gave impromptu shows and with the addition of hastily made favors and ice cream, each day turned into an enjoyable one.

"Uncle Bruce" M.C. of a popular local TV Funtime show delighted the children with a personal visit and distributed autographed pictures of himself and his pal, Coco the poodle.

Several short hikes were taken in the area near the school. As simple as this activity may seem, the campers enjoy the change of scenery and take pride in their behavior on these group walks.

As in other years, the children presented a show for their parents at the end of the summer. This year's theme was "Story-book Land". Each child, no matter how severely handicapped has some part in the program. The well earned applause for their endeavors provides happy stimulation for further successes in other endeavors.

It is very gratifying to learn that four young persons who worked with us have now entered the field of study in Special Education.

Respectfully submitted,

DOROTHY McCARTHY,
Director

December 28, 1966

Honorable School Committee
New Bedford, Massachusetts

Mrs. Ferreira and Gentlemen:

In accordance with the laws of the Commonwealth and the adopted policy of the New Bedford School Committee, I have the honor of submitting my sixth annual report as Superintendent and the one hundred and sixth annual report of the New Bedford Public Schools.

Research, automation, profound sociological changes and the application of new knowledge to industrial processes are remaking the economy of the United States. The process has been termed by some to be the Second Industrial Revolution. Others are calling it the Age of Automation. Regardless of the name, the impact upon education is profound. It is imperative that both public and private schools respond to the changing demands being made upon them.

Hence, it is fitting to review the year of 1966 and for the record, delineate the path that was followed by the New Bedford Public Schools. A listing of events in chronological order may not indicate the relative importance of events but it will indicate the sequence which so often spells the difference between success and failure.

January 13 — Evaluation of physical facilities of NBHS by electrical and mechanical engineers.

January 25 — Preliminary Plans for 6-room addition to the Campbell School forwarded to the School Building Assistance Bureau.

January 31 — Flag raising and occupation of the new John Avery Parker School. Grades 4, 5 and 6 marched from the Old Parker Street School to the new building carrying their books and par-

ticipating in the ceremony before entering their new classrooms.

February 11 — Regular School Committee meeting held at the new Parker School; inspection of the building.

March 7 — Pre-School Program initiated with federal funds.

March 14 — Dr. Thomas J. Curtin, Deputy Commissioner, visited New Bedford to review plans for eliminating racial imbalance in four schools.

March 23 — School Committee approved New Bedford plan to eliminate Racial Imbalance.

Bids received on Science Project at Normandin Junior High School. This project using NDEA funds and local funds built science laboratories for a new approach to teaching science in junior high.

April 21 — Board of Education approved New Bedford Plan to eliminate Racial Imbalance and released Chapter 70 State Aid Funds.

April 28 — City Council gave approval to plans for addition to Campbell School.

May 4 — Letter received from School Building Assistance Bureau that they are unwilling to participate in the expansion of New Bedford High School on the present site.

May 6 — Meeting with AFL-CIO Local 641; negotiations stopped when union withdrew because meeting was opened to the press.

May 11 — Additional classes established for the non-English speaking child.

May 20 — School Committee voted 4-2 to oppose rezoning of land on northeast corner of Liberty and Parker Streets with the intention of building a new high school in the area.

May 25 — City Council Committee on Ordinances voted not to rezone land on corner of Liberty and Parker Streets.

- June 16 — Arrival of first of four mobile reading laboratories purchased with federal funds.
- June 20 — Meeting with School Building Assistance Bureau re approval to build a comprehensive high school north of Sargent Field; approval given orally subject to presentation of plans.
- June 22 — New Bedford High School Evening Extension Program graduates 140 adults.
- June 24 — School Committee voted to relinquish all rights to Cedar and Merrimac Schools and return these schools to the City Property Committee.
- June 29 — Final plans for Campbell School Addition approved.
- July 15 — Workshop held with State Auditors to accomplish new Financial Report Forms; forms included for first time Vocational High School financial report with public school reports.
- July 28 — Evaluation Team (New England) visited New Bedford to review Title I projects. Report received was excellent.
- August 9 — Opened final bids on Campbell School Addition.
- August 30 — Appeared before Emergency Finance Board re bonds for Campbell School Addition.
- September 8 — Opened schools with New Parker School enrolling K-6, a special class, three enrichment classes and a pre-school class.
In contrast with 29 non-English Speaking children enrolled in September, 1965, 424 were enrolled this September. During the summer, a federal project was written to cover hiring of new teachers and supply of materials.
- September 20 — Award of Campbell Addition Contract.
- September 28 — Special Council Committee on Ordinances discussed use of land north of Sargent Field.
- September 30 — Informal hearing at Superior Court with Mass. Labor Relations Commission re open

meetings for negotiations with AFL-CIO Local No. 641.

October 3 — Special Meeting of City Council; it was voted to authorize the taking of all land from Parker to Durfee Streets and from Liberty to Hathaway Blvd. for the purpose of building a Comprehensive High School.

November 20 — John Avery Parker School dedicated and building open to the public for inspection.

December 14 — AFL-CIO Local No. 641 rejected School Committee pay proposals and grievance procedures. January 9 date was scheduled for next meeting.

December 19 — Pupil projections, teacher stations and tentative general educational specifications approved by School Building Assistance Bureau; authorized to prepare Form 2 for square footage requirements and submit for approval.

December 20 — Notified that New Bedford Teachers Association have requested a fact finder; several meetings during October, November and December have resulted in disagreement concerning the non-economic proposals; salary proposal made by School Committee \$100 higher than asked by teachers was withdrawn when disagreements could not be resolved.

The assistant superintendents have described the various federal projects in which we have participated to offer compensatory education for the disadvantaged. It is pertinent for the record to indicate that as of this month these projects have educationally enhanced our program and have in a financial manner meant to New Bedford the following:

ELEMENTARY AND SECONDARY EDUCATION ACT

(PL 89-10)

Title I	\$398,248.32
Title II (Libraries)	\$ 31,797.71

VOCATIONAL EDUCATION ACT OF 1963

(PL 88-210)

Business Education	\$12,501.00
--------------------	-------------

ADULT BASIC EDUCATION

Title IIB	\$26,489.81
-----------	-------------

This money did not arrive automatically. It was necessary to make a city-wide survey establishing the priority of educational needs as related to the economically disadvantaged and the educationally disadvantaged. Once the general basic data was submitted then each and every project required planning, coordinating with the persons and the physical facilities to be utilized. The projects once approved by the School Committee then were forwarded for approval by the State authorities. In addition, fiscal requirements including requisition, inventory and accounting procedures became necessary. Without the services of a Coordinator of Federal and State Projects a very small percentage of the money received would have been utilized for the children of New Bedford. Also, many long hours in addition to regular schedules have been donated by regular staff.

For the balance of the fiscal year until June 1967, the remainder of the Adult Basic Education grant of \$50,-669.05 will be utilized to raise the level of the functional illiterates, additional funds will be requested under Title II for libraries and already approximately \$300,000.00 has been written into projects to teach English as a second language, to expand the Reading and Language Arts Project to include wider use of the Language Laboratories and provide for the instruction of children with Specific Language Disabilities, continuance of the Pre-School program, the Ungraded Program on the junior high level and a program to promote Interracial Understanding and Pupil Motivation by a Voluntary Transfer Program. Approaching the approval date is a workshop type project designed for teachers of the disadvantaged child so that understandings and techniques applicable to New Bedford can be worked out by persons intimately involved with the day-to-day problems of such work.

Unquestionably the four outstanding accomplishments of the year were the opening of the John Avery Parker Elementary School, the establishment of a new science center at Normandin Junior High School, the definite steps taken to establish a new comprehensive high school and the steps taken to reduce racial imbalance in the schools.

The problems still unsolved stem mainly from the interpretation and application of Chapter 763 which gave the employees the right to collective bargaining, the space

problems at all levels which include not only square footage but also the conversion of the space to the needs of modern teaching techniques and demands of modern society.

To a community which is and has been "on wheels" the solution has been sought by creating a middle school type organization. However, in New Bedford, a community which has traditionally used the neighborhood school, has used bus transportation for a relatively small percentage of its school population, the middle school organization would represent a radical change. It would mean placing large numbers of pupils on busses who never rode them before and with an accompanying large operational expense.

Working in cooperation with the New Bedford Redevelopment Authority, a large 900-1000 pupil elementary school is planned for the south end as an integral part of the application for a Demonstration City Project. Rehabilitation of the Thompson St. School, now closed, is planned for a federal project to accommodate the ungraded classes teaching English to the foreign born children. The construction of a 3000 pupil high school on a 40 acre site will allow expansion, if necessary, to 4000 pupil capacity. These are goals not of the distant future but immediate and in the action category.

Not so immediate but also not to be lost in vague futurities are these needs:

1. Construction of an elementary school in the area just north of Durfee and Liberty Streets to accommodate the proposed housing project children. This will allow the Kempton School to alleviate the crowding in the already popular Parker area which in turn would help the Cook School area. Enlarging the Brooks School is a second choice because a new school located east of Rockdale Ave. would be closer to the pupils served.

2. Construction of a school on land now reserved near Fort Rodman will alleviate crowding at the Taylor and the Hannigan Schools.

3. Modernization and enlargement of the Knowlton School could eliminate the Clark Street School now on an inadequate site and but a few blocks from the Knowlton.

4. Modernization and enlargement of the Clifford School or a selection of a new site could possibly eliminate

the Phillips Avenue School which is on a very small site.

5. Enlarging and modernization of the Kempton School is recommended because of the size of the site and the location.

6. Erection of a new school on land reserved in the Sassaquin area should be planned as building in that area increases beyond the expanded Campbell school capacity. This will be in the not too distant future.

7. An addition to the Winslow School, planned several years ago and unfortunately cancelled, would help the over-crowding in the Hathaway-Rodman and the Winslow areas. The Winslow School has used a library for a classroom for years while the Rodman has two classes on the third floor.

It is unrealistic to tear down or contemplate modernization of a building without planning for the children who normally use the premises. This is where the old high school can be used to great advantage. This building, partially used for administration, sorely needed now, and partially used as a temporary holding area for schools undergoing major renovation, will serve a most valuable purpose for years to come.

We cannot expect any building program, regardless of the economic factors involved, to be accomplished overnight. However, for the first time in the history of New Bedford, we have a high school site large enough to provide for many, many years to come. Undoubtedly, the state and federal governments will play a much greater role in not only the financial support of education but also the direction of education. However, unless we are willing to cast aside all the responsibilities of citizenship, we on the local scene must be ready with a clear voice to give direction to the state and federal help when it arrives on the local scene. Towards this end, these recommendations are directed and towards this end we dedicate our efforts.

For all the efforts of all the citizens of New Bedford who have worked for the advancement of the education of the children of New Bedford, a special certificate of appreciation is due, namely, a warm and heartfelt THANK YOU.

Respectfully submitted,
JAMES R. HAYDEN,
Superintendent of Schools

ANNUAL REPORT

DEPARTMENT OF SECONDARY EDUCATION

Heated by the federal and state legislation of 1965, the educational teapot boiled this year. Federal funds gave support and impetus to educational projects which, in turn, inspired new approaches and concepts of instruction. The results have been gratifying to date. Furthermore, the project results should spur the implementation of added educational growths.

Elementary and Secondary Education Act Title I projects, with their commitment to aid the disadvantaged pupil, gave the greatest opportunities to experiment in compensatory education. A policy of selectivity in proposing Title I projects bore fruit in terms of additional and improved opportunities for learning. Innovation was, of necessity, part of that "fruit" — not for innovation, per se, but for progress.

Federal, state, or local funding, however, is not the full answer to our problems. First, we need a new intent, or perspective, on the part of educators, in the direction of a new educational structure with flexibility and depth. Toward this end, every teacher, too, has a contribution to make, if this school system is to profit most effectively from the changes which are necessary to progress.

PROFESSIONAL PERSONNEL

Finding and holding qualified teachers continues to be our most acute problem. Our salary scale remains a barrier to the establishment of a stable faculty.

Twenty-eight new teachers were elected to staff the secondary schools — a very high turn-over in personnel, once again. Five resignations have occurred since September. Two of these positions, presently, are being filled by substitutes. Three more resignations after the first of the year are anticipated.

To augment this situation, over-sized classes have remained an obstacle. To reduce class size, two teachers were added to the high school faculty; one in French, the other in math. In spite of the additional teachers, class sizes remained at the same level because of unexpected

enrollment. Next year's budget will provide for three additional teachers to cope with the expected enrollment increases.

The outcome of the present ongoing professional negotiations for a teacher's contract could well determine the future status of teacher recruitment and retention.

EXPERIMENTAL PROGRAMS

Projects Financed by Federal Funds—ESEA Title I

1. Ungraded Class

A second ungraded class began in October at Roosevelt Junior High School. This program, which will run for thirty-four weeks and include grades 7, 8, and 9, is an expansion of the first such program completed at Roosevelt in June. It is hoped that individual programming, intensive individual counseling, and home visitations, will increase pupil motivation and enhance academic success.

Results of the program completed in June were extremely favorable. Of twenty-three boys and seven girls scheduled to repeat the seventh grade, fifty-three percent eventually advanced to eighth grade status during the school year.

Hopefully, by September, 1967, similar programs will be started in Normandin and Keith Junior High Schools.

2. Tutorial Centers

The first session of the original program began operation on April 4 and continued for nine weeks through June 8. Two hundred twenty-seven high school and four hundred ten junior high school pupils participated in the forty-eight classes in the four tutorial centers meeting at the high school and the three junior high schools. Of those enrolled, thirty-five were parochial school students.

In the light of last year's success, a second program of after-school tutorial centers in the four secondary schools has been proposed for the school year to begin in early 1967. An evaluation of last year's program has clearly demonstrated the worthwhile services offered, in that seventy-five percent of the tutored pupils passed the course for the year. The proposed twenty-week program for the

tutorial centers will consist of two 2-hour classes on Monday and Wednesday afternoons.

3. Summer Projects

A. Home Economics and Industrial Arts classes were offered during the six-week program this past summer. Instruction in clothing, foods, woodwork, machine shop, and graphic arts was given to high school pupils to develop skills and to provide opportunities not available in the regular high school curriculum. The classes were held in the three junior high schools and thus provided for their year-round use. The Industrial Arts project provided an industrial experience for fifty-six educationally deprived boys who expressed satisfaction and pleasure with the project. Forty girls were enrolled and improvements in attitudes and skills were noted in all cases. Worthwhile features of both these programs may become a part of a future comprehensive high school curriculum.

B. In an attempt to nurture and satisfy the natural curiosities of young people, a Science Enrichment Program was conducted at Roosevelt Junior High School. Field trips, classroom demonstrations and experiments provided the practical applications of basic scientific principles for the pupils involved. It is hoped the program will be repeated next summer.

C. A unique summer project was the eight-week educational day camp, Camp ECHO (Educational, Cultural, and Health Opportunities). Two four-week sessions for one hundred pupils, each, were provided, featuring remedial education services, guidance, medical and nutritional services, in addition to recreational activities. Selected pupils from grades 4-7 attended these sessions. A visiting New England evaluating team made special commendations of this particular project. The camp staff continually commented on the significant and dramatic changes in the campers' attitudes and behavior during the four-week period.

D. Basic Remedial Educational and Development Program for selected pupils entering junior high school for the first time in September was held last summer in each junior high school. Intensive remedial work was provided in the major areas of reading, language arts and mathematics, together with guidance counseling to fortify

the minimum essentials of the elementary school program. These pupils have adjusted more readily to junior high school work than some of their counterparts in the past years. Follow-up studies now under way are expected to furnish invaluable data as to the effectiveness of this program.

E. An innovative six-week program established a class made up of junior high school drop-outs during the 1965-66 school year. Of several pupils encouraged, eight enrolled and attended for the full time. An individual curriculum was planned for each pupil and intensive counseling was undertaken with both pupils and parents. The positive change in attitude towards school and education was remarkable, for eight returned to some school in the fall.

SUMMER SCHOOL

Record enrollment was again the story at the secondary summer school. Nine hundred thirty-seven pupils — six hundred twenty-four of them regular pupils of the New Bedford Public Schools, attended our fourth year of summer sessions. Forty-five different subjects were offered and a staff of thirty-seven teachers and a guidance counselor taught one thousand two hundred and twelve class enrollments daily.

Of those enrolled, 61.3% took courses to make up deficiencies in one or two subjects — eleven students subsequently receiving their New Bedford High School diplomas, and fifty-seven their junior high school diplomas. Even more encouraging than the recorded enrollment is the fact that 38% of the students took courses for review or enrichment. All over the country, summer school programs are expanding and ours is part of this national trend.

A class in creative writing and English composition was introduced last summer. This type of class and the College Board Preparation in English and Math will probably be expanded in years to come.

PHYSICAL FACILITIES

The new Normandin Science Center, located in remodeled rooms of the former cafeteria, is now a function-

ing reality with the help of NDEA Title III funding. A certificate of substantial completion was awarded the contractor on October 31, 1966 and pupils and teachers occupied this new area to implement the new junior high school science program.

The bright and colorful laboratories have created an atmosphere conducive to the study of science — that of a real lab where relevant scientific work is carried on. The new center has also introduced a new coordinated program for teachers by reducing repetitive activities and by revising, updating, and expanding the course content. Co-operative teaching and planning were developed by the science teachers; with the better facilities, teachers have been encouraged to share their talents in both teaching and developing better classroom procedures. Each teacher is specializing in his particular field of interest.

PLAN FOR THE FUTURE

In the coming year, plans will be made either to refurbish the Roosevelt Junior High School cafeteria or, perhaps, to build a new one as an addition to the school. Once this is formulated, we will have met the commitments for all the secondary school building needs as established in recommendations made in December, 1962.

New Bedford High School enrollment increased unexpectedly by forty-eight students to a total of two thousand, five hundred ninety-three. The problem of overcrowding does not go away. However, some encouraging progress has been made for an eventual solution. After much study, discussion, and debate, the School Committee voted for building a new comprehensive high school to replace our present facility. The site selected was designated as the area north of, and adjacent to, Sargent Field. Again, after much debate and a public hearing, the City Council voted to acquire all the land, approximately forty acres, for the new high school. The boundaries for this site are Durfee, Liberty, Parker Streets and the proposed extension of Hathaway Boulevard.

A survey of future projected enrollments, a preliminary study of educational needs and a tentative schedule of required spaces for the new school have been prepared and submitted for consideration. The latter schedule of

spaces is now under study by the State School Building Assistance Bureau.

It has been recommended that the new high school accommodate three thousand students in grades 10-12 at the start, with provisions for adding grade 9 some time in the future. The proposal has been made that the new school be organized on the "house plan" or school-within-a-school concept. This plan is designed to combine the advantages of the improved facilities and a comprehensive curriculum of a large school without the sacrifice of the close relations between students and staff. Much planning remains, and, of paramount importance, educational specifications must be written for interpretation by the appointed architect.

EDUCATIONAL DEVELOPMENTS

ENGLISH

In the never-ending pursuit of efficiency and excellence, the Department of English attempted new and additional projects and absorbed new materials and equipment of instruction. Tested texts in grammar and literature were adopted and placed in general use. Under Title III, audio-visual materials and machines (records, filmstrips, tapes, record player, projectors, etc.) were obtained in commendable amounts. For the first time, units on the newspaper (utilizing, for the most part, the local paper) were taught, experimentally, on all grade levels in the secondary schools.

In response to more liberal policies, an unprecedented number of students — high school and junior high school — participated in field trips, journeying to such places as Boston, Everett, and Stratford, Connecticut, in order to see and participate in live drama.

After an absence of over twenty years, a verse choir was organized at the New Bedford High School . . . with implications for novel and interesting experiences in the language field.

Finally, the new Language Arts Curriculum Guide became a reality. Its adoption and printing will insure an improved understructure for instruction at the New Bedford High School.

MATHEMATICS

In order to continue on its long range plan of updating the course of study, the Math Department has added two more divisions of seventh grade students who are now studying "modern" mathematics. Plans are being readied for a non-credit course in remedial arithmetic for junior and senior high school pupils. The course would be offered during the summer and on afternoons during the school year. A plan is being devised to provide homogeneous grouping in the college preparatory classes in grades 10, 11, and 12. Text-books are being chosen to conform as closely as possible to the abilities of the various groups of students.

SCIENCE

Definite gains are now being seen as the result of the operation of the new Normandin Science Center. The science curriculum has been revised to introduce life science, physical science, and earth and space science in the junior high school, to make way for more science study in depth in the high school courses. The curriculum guides which were prepared in a summer workshop for the teaching of life science in grade 7, the physical sciences in grade 8, earth and space sciences in grade 9 have been put into use.

SOCIAL STUDIES

New equipment and educational materials have been acquired by the department under NDEA Title III funds. To date, the high school has received film and slide projectors, a phonograph, tape recorder, two overhead projectors, and numerous audio-visual instructional materials.

In June, the department introduced a twelve-hour course, "Personal and Family Survival". The course was sponsored by the Massachusetts Civil Defense Education Department and was offered in the Problems of Democracy courses to twelfth grade College and Business Curriculum students. Certificates were presented to each student who completed the course.

"A Study of Newspapers in the Classroom" was conducted in selected ninth and twelfth grade classrooms.

The use of non-text materials has increased throughout the department.

New textbooks have been adopted for use in many classes, and the study goes on to find more appropriate texts for the more effective teaching of low-level readers.

FRENCH

Along with our aim of keeping in the vanguard of modern methodology and materials and equipment, the French Department has taken upon itself the subsequent problems of measurement and placement.

The department will publish criteria for marks to establish norms, and to help new teachers, in view of the high turnover of the teaching staff in this department during the last few years.

Plans are in progress to expand the junior high school language laboratories from their present fifteen to thirty pupil stations.

PORTUGUESE

The Portuguese Department, which was organized in September, 1955, is the largest in the public schools of this country with eighteen classes this year and an enrollment close to five hundred. The New Bedford area is the greatest center of Portuguese linguistic resources, and is rapidly expanding with the influx of new immigrants. In comparison to other areas in the country we may feel justified with our contribution, but considering the urgency of the situation and our extraordinary local resources, we are bound to wonder if the expansion is sufficient to fulfill the need. The department strongly recommends the offering of the Portuguese language in grades seven and eight.

Two members of the department attended the Sixth Luzo-Brazilian Colloquium, which was held at Harvard University and at Columbia University. An "Enrichment Lecture Program" on Luzo-Brazilian literatures consisting of five lectures was given at New Bedford High School.

BUSINESS EDUCATION

This past year was a banner year for the Business Education Department. The funds made available by the Federal Government under the Vocational Education Act of 1963, purchased equipment long needed by the department to aid students attain occupational goals in the business world. One room was furnished with electric typewriters for the use of some eleventh and twelfth grade students providing a more realistic situation for those whose objective is office work. Acquisition of adding machines has proved to be of considerable benefit in training students in more meaningful classroom atmospheres closely resembling on-the-job experiences. An increase in student interest and understanding of the transactions studied also was noted because of the use of the overhead projectors.

Educational Development Laboratory Skill builders and overhead projectors are an innovation in the shorthand and typewriting classes where each teacher has these machines available for her own use whenever desired. Individual shorthand discs are now issued to pupils for home use, allowing them to practice at their own speed and thus help them attain better grades.

INDUSTRIAL ARTS

Equipment purchased for the summer program was very useful and will continue to be of service in the regular industrial arts shops. A new camera and plate maker for offset printing have shown the great potential there is for teaching boys a useful occupation in the offset printing field.

HOUSEHOLD ARTS

It is increasingly evident that instruction in all aspects of homemaking is becoming the responsibility of the school, rather than the home. We must give the girls the tools to make decisions in the years to come. We must retain our traditional skills in cooking and sewing, and develop as well the ability to accept the rapid changes which are part of our present society.

To do this requires a continuous effort to replace equipment and furniture as it becomes outdated and less

usable. We have continued to do this gradually in all three junior high schools. Recent renovations at Roosevelt have greatly benefited the four Home Economics rooms at this school. New furniture has improved the educational atmosphere of the Family Living Room there.

The innovations in methods, materials, and perspectives — so apparent this year — are indicative of important new directions being taken, in the future, by the personnel of the New Bedford Public Schools. These innovations, we can be sure, will invite a certain amount of criticism from within and without the system — teachers, parents, civic organizations, or private citizens. But we must give heed to such criticism, when it is constructive and of good intent; otherwise we run the risk of disregarding the valuable and significant role that the interested citizen can play in the future of education in this community. With this fact in mind, we recommend a stronger public relations program in the conviction that such a program would disseminate information about our schools which might serve to give new insights into our endeavors and prevent certain misunderstandings inherent in them.

New educational challenges lie ahead. We must plan to meet these challenges through the adoption of foresight, sound preparation, new attitudes and lucid perceptions. Complex, numerous, and demanding as these will be, a combined and genuine effort by the School Committee, the administrators, the teachers and the citizens of the community becomes a necessity and an obligation if each boy and girl is to attain the personal, social, intellectual, or even vocational fulfillment which is his natural heritage. Our educational crusade must be a "pursuit of excellence". We are consecrated thereto, in the conviction that it lies within the realm of possibility.

ANNUAL REPORT DEPARTMENT OF ELEMENTARY EDUCATION

ELEMENTARY BUILDINGS — SPACE

The opening of the 1966 school year divulged a shortage of qualified teachers and swelling enrollments in the elementary schools of the New Bedford Public Schools.

Twenty-four of our twenty-six elementary buildings now utilize every available classroom. Many classes are far too large with enrollment in 34 classes ranging from 33-40 pupils. No suitable accommodations for transient teachers of reading, speech, testing, French or guidance personnel are possible.

Elementary schools of tomorrow that do not have space provided for libraries and audio-visual centers will soon be classified as sub-standard and will not meet the coming accreditation requirements. New elementary schools for New Bedford must be considered in future educational plans in order to overcome the great shortage of modern space in our fast aging buildings.

Should there be a delay in new construction, it will become imperative that we solve the problem of overcrowded buildings and classes by changing the present instructional organization from K-6 to K-5 and initiate a middle school consisting of Grades 6-8, or else adopt a K-4 — 4 — 4 plan of organization. This would, of course, necessitate considerable planning, as it would involve changing the present junior high school pattern of organization. It would, however, result in opening up a few classrooms in each present elementary building for modern teaching requirements.

ELEMENTARY TEACHERS

Schools will never be any better than the teachers who man them. A professional obligation to new teachers is to make sure that each new crop gets sufficient time, help and encouragement. These teachers deserve more time than they are getting presently. All kinds of teachers are in the new crop each year and, despite differences, they are similar in only one respect — all are beginners.

An opportunity for them to observe good, experienced teachers in action is often difficult to arrange. If provision could be made in the 1967 Budget to pay substitute teachers in order to release the new teachers for several observation days, it would prove most beneficial to the neophyte and to her class, and definitely result in better teaching.

OVER-AGE PUPILS

Each year the problem of what to do with the over-aged, over-sized pupil in our Grade Six classrooms arises. The junior high does not welcome him and he no longer profits by repeating the work of Grade Six with many younger and smaller classmates where he is most often a social misfit. A program that provides SHOP WORK for slow learners from Grades Four through Six would do much to alleviate many dropouts and much discouragement and feelings of failure among these youngsters. A committee of principals and directors will be formed to undertake this problem early in 1967 and to endeavor to find a possible proposal for its solution.

TEXTBOOKS

Today, as yesterday, the school has a responsibility for providing educational experiences that will help children meet the needs in this world, where change is coming so rapidly and knowledge is becoming obsolete at such a frightening pace.

The publication of thousands of new books each year brings increasing pressure upon administrators and teachers to critically examine and to evaluate textbooks with extreme care before final decisions as to choice are made.

At the present time, the Elementary Reading Committee is studying the various competitive reading programs on the market in an earnest effort to introduce a reading series in our classrooms that will more suitably meet the needs of the children of today. Critical problems in intercultural relations have become an issue to be considered as a way of solving personal and societal problems, and publishers have sensed this situation. For the first time, minority races are being pictured and storied in many series and activities relating to urban living are included.

A new modern mathematics book was introduced in Grade Three this year and teachers of that grade met twice in the spring with consultants from the publishers to study the text and obtain suggestions on presentation of material. Early in 1967 they will again meet to discuss any problems or questions that may have arisen in their presentation of class lessons.

Teachers in Grade Four are now scheduled to have a series of meetings with the same math consultant, commencing early next spring to acquaint them with material already covered in previous grades and to prepare them for the new math they are to teach in September 1967.

The Language Textbook Committee recommended the adoption of two recent textbooks for classroom use, and these recommendations were approved by the School Committee in April 1966.

There is every evidence that the elementary pupils in our New Bedford Public Schools have an excellent supply of modern textbooks in all major subjects. A constant review of books by standing teacher committees assures us of this position, and I am certain that our pupils are far more fortunate in this area than in many other communities.

JOHN A. PARKER SCHOOL

The most outstanding accomplishment of 1966 was the opening of a new 25-room building to replace the ancient, outmoded Parker Street School. Pupils from three schools in the area were transferred there in September. Thus, two other old schools, the Merrimac Street and Cedar Street were closed.

With the most modern equipment and materials purchased for this new building, we are providing over seven hundred pupils with a beautiful structure, and an atmosphere for learning that compares favorably with any in the area. Perhaps the one feature it lacks, according to general comment, is a cafeteria, which today is considered of prime importance for elementary schools as it greatly lessens absenteeism and possible traffic hazards.

FEDERAL FUNDS

The availability of federal funds in the past two years has been a great stimulus to creative innovation in teach-

SCHOOL REPORT

25 v

— to the "new" John Avery Parker School.

From the classroom of 1852 —

— To the classroom of the 1967!

er education. A Course for preparing school personnel to work with disadvantaged children in New Bedford is in its formative stage and will get underway early in 1967. The faculties in the schools located in the disadvantaged areas will make up the greater portion of the class members.

The Pre-School Program in our New Bedford Public Schools has been in activation for two summers, a 1966 spring program, and in September approximately one hundred seventy-seven four-year olds were enrolled for the 1966-67 school year. Only twelve such classes are operating because of the very limited amount of space we could make available to them.

The entrance of such classes to our already overcrowded elementary buildings poses MORE space problems, and a temporary restriction therefore has to be made on the enrollment in the Pre-School Program.

Among the most rewarding Federal Programs was the Tutorial Program which was operated from March through June 1966. Many elementary youngsters having difficulties with classroom work enrolled for instruction after school twice each week. A similar program is now in the process of organization and children needing help will be tutored for the period from January to June 1967.

FUTURE TEACHERS' DAY

For the first time, a request was made by the Future Teachers Club at the New Bedford High School during April to allow senior girls interested in the teaching profession to spend an entire day observing experienced teachers in the classroom. Nineteen of these students were assigned to thirteen schools throughout the city and the teachers who volunteered to take the girls felt that the experience was most worthwhile and enjoyable for both the "future teacher" and her hostess for the day.

CONSERVATION PROGRAM

In May 1966, sixth grade students from six elementary schools gathered at one of three city parks and took part in an all-morning outdoor teaching session sponsored by members of the New Bedford Conservation Commission. Five stations were set up in each of the Parks and

the children progressed every twenty-five minutes from one area to another where they were presented with pertinent information on five aspects of conservation. It was enthusiastically received by the pupils and teachers, and it is hoped that a similar program can be conducted on an expanded basis during this coming year.

IN-SERVICE EDUCATION

Perhaps the highlight of the school year for elementary teachers was the opportunity to attend an all-day workshop on "The Improvement of Instruction in Elementary Reading". Teachers of Grades 1-3 met all day on June 8th. Grades Four to Six teachers met on June 9th. Dr. S. Elizabeth Campbell, Director of Student Teaching for Rhode Island College and Professor in charge of Elementary Liberal Arts Graduate Program, the guest speaker, was enthusiastically received by both groups as she was a dynamic leader who had great insight into the needs of the classroom teacher of reading.

ADDITIONAL PROBLEMS IN 1966

The past year has seen the emergence of many foreseen and unforeseen problems in the operation of the elementary school day.

Overcrowding at the Campbell School forced us to plan a bus schedule to the Lincoln School for all pupils living in the Pine Hill Acres development. Normandin Junior High School students, and pupils attending the new St. Mary's School who live in this area also had to be accommodated on buses.

Approximately fifty children living in the Greene and Donaghy area are being bused daily this year to the Parker and Mt. Pleasant Schools in an effort to solve a racial imbalance situation. The pupils are adjusting satisfactorily, but again this is another program where bus schedules have to be planned and lunch accommodations which are not ideal have to be provided for because we lack cafeteria convenience.

Close to five hundred Non-English speaking children have descended upon our classrooms in 1966 and it has been a time consuming problem to find teachers, class-

rooms and materials for them, as well as to route a bus service in two sections of the city.

Federal Programs, Summer School Programs, the surge of immigrants into the city public schools, the new building program, the greatly increased need for school bus schedules and the Inter-racial situation, are all mounting problems in the day of an elementary assistant superintendent.

It has been almost impossible to give adequate assistance and supervision to close to forty new elementary teachers this year and to make provisions for improvement or change in curriculum studies which is a continuing process.

May I earnestly recommend that serious consideration be given to the creation of a new position — that of a Curriculum Co-ordinator in the Elementary Schools. The duties and problems of this office have more than tripled in the last ten years and the workload could well be shared by such a person.

ANNUAL REPORT

NEW BEDFORD HIGH SCHOOL

The enrollment at New Bedford High School this September increased for the first time in three years from 2535 to 2592. This increase was due to a smaller graduating class and to the new rule requiring students with four subject failures to attend summer school rather than dropping out for a full year. It is also possible that the tutorial program inaugurated under Title I last spring encouraged some pupils to continue with their schooling.

The earlier projected stabilized enrollment of 2500 pupils still stands since the next graduating class will number approximately 75 more students than that of June 1966. With a new comprehensive high school in the offing it is expected that our enrollment will increase. The new curriculum to be offered should increase our "holding" power on some of our students, but how much cannot be measured at this time. In the interim we will continue to maintain the high standards of our present curriculum since even minor changes are practically impossible.

The physical condition of the school on the whole continues to be satisfactory. During the summer an excellent job was done in dividing a study hall into two much needed classrooms. Typing room 240 was wired and is now totally equipped with Electric Typewriters. Continued was the installation of four fire and smoke doors on the second floor of the East Building leaving only the third floor to complete the project required by law. However, less maintenance work was done during the summer than in many years. It is to be hoped that the opening of the new school will not allow the present building to be neglected. Three roof gutter leaks should not be permitted to continue, several basement staircases should be resurfaced, and the Boy's Room on the East Basement floor should be rehabilitated. Past annual reports since 1961 have included a recommendation that our bell system dating back to 1912 be replaced with a modern electronic one. It is to be hoped that the system will at least be checked before its complete failure.

DEPARTMENT REPORTS

ENGLISH DEPARTMENT

During the year the Department continued to provide those experiences, in and out of class, which will result in making all students better readers, writers, speakers, listeners, thinkers, and hence better citizens. Below are listed some of the activities of the year.

1. The maintaining of permanent reading records for all students became an established fact.
2. The summer reading program was continued on a voluntary basis and involved approximately the same numbers of students as heretofore.
3. The Language Arts Curriculum Guide — compiled in 1964 by the Summer Workshop Committee — is being distributed in order to begin the transition from the old to the new study requirements.
4. Increased participation in field trips to drama presentations resulted in larger groups of students journeying to Boston, Cambridge, Everett, and Stratford, Connecticut.
5. Units of instruction on the newspaper were created and taught experimentally at all levels with the cooperation of the *Standard-Times*.
6. A verse choir, the first in over twenty years, was organized and should add a new educational and artistic experience to the school.
7. For the first time students with language or literary or composition problems were exposed to a new federally-sponsored tutorial program involving a number of our English teachers.
8. The taking advantage of opportunities under Title III resulted in the Department obtaining exclusive use of much-needed audio-visual material and equipment. Recordings, tapes, filmstrips, a visual composition course, a tape recorder, a record player, and a filmstrip projector helped to facilitate the teaching of literature and composition. The Audio-Visual Department — also profiting from federal aid — not only gave in-

creased and better quality support in fulfilling nearly all requests for material, but also gave our teachers a brief course in how to operate the new equipment.

RECOMMENDATIONS

1. That in-service courses for teachers in the teaching philosophy and techniques of efficient reading and writing instruction be given.
2. That a reading expert or consultant be appointed to hold jurisdiction over the developmental and remedial aspects of the English program.
3. The completion of supplying all remaining English classrooms with filing cabinets.

SOCIAL STUDIES DEPARTMENT

The Department as in the past aims at a continuous, varied, and up-to-date Social Studies program for all levels. A review of some of the activities of the year is listed below.

1. "A study of Newspapers in the Classroom" was conducted on an experimental basis in Grade 12 Problems of Democracy with the cooperation of the *Standard-Times*.
2. "Personal and Family Survival", a 12 hour course provided by the Massachusetts Civil Defense Adult Education Department, was introduced in the Problems of Democracy courses for Grade 12 College and Business Curriculums. At the completion of the course a certificate was presented to each student.
3. A new remedial reading approach textbook, *Follette World History Study Lessons*, has been adopted for Grade 10 World History General Curriculum.
4. A new remedial reading approach textbook, *Follette United States History Study Lesson*, is being used on an experimental basis in Grade 11 General Curriculum.
5. The Department cooperated with two Massachusetts State Department of Education projects: The

Annual Student Government Exchange Program and The Spring Massachusetts Youth Conference for Secondary Schools.

6. The Department was represented at the Spring Conference for the Exceptional Child at Boston College.
7. In February, "American History Month", Dr. Annabelle M. Melville, noted Commonwealth Professor of History at Bridgewater, was the main speaker at the History Department's Assembly.
8. Under Title III the Department has received to date for the High School a film projector, film-strip and slide projector, phonograph, tape recorder, two overhead projectors, and audio-visual instructional materials.

RECOMMENDATIONS

1. Require a two year course in United States History and Modern Problems, with U. S. History for three semesters.
2. Adoption of a more suitable World History textbook for the Business Curriculum student.
3. Special current events papers for Grade 12 Problems of Democracy pupils.
4. Additional supplementary reading materials for all grade levels.
5. Consider the possibility of replacing Grade 11 English History College Curriculum elective course.

SCIENCE DEPARTMENT

The Science Department, having updated its courses in the past several years, continues its research in content and material to keep pace in the ever expanding world of science.

1. *Biology*
 - a. A second experimental textbook is being used in a trial course of study in 3A Biology in order to find a book geared to its reading intellectual level.

- b. Three teachers are participating in a thirty week National Science Foundation Biological Sciences Curriculum Study Institute at Bridgewater State Teachers College. The purpose of the Institute is to acquaint biology teachers with the recent advances in molecular and cellular biology.
2. *Physics*
The Physical Science Committee Study Physics (PSCS) has now been adopted as part of the Physics Honors Course.
3. *Westinghouse Science Talent Search*
The purpose of this national project is to discover at the senior high school level those who have the potentialities to become the research scientists of tomorrow.
Seven of our students were involved in the search and three were placed in a group of 300 national "honors" award winners.
4. *Ford Future Scientists of America Awards*
The purpose of this program is to encourage and identify students with strong interests in science and with potential to pursue a career in science. Sponsored by the Ford Motor Company and conducted by the National Science Teachers Association, the project entails the completion of an experimental, investigative, or research-type of science project.
Our school produced one of twenty national winners. In addition, we were honored by two regional winners and three honor roll winners.
5. *Greater New Bedford Science Fair*
One of our students was declared the Grand Prize Winner. He represented Greater New Bedford at the National Science Fair in Dallas, Texas, accompanied by Mr. Abel Fidalgo, one of our chemistry teachers.

RECOMMENDATIONS

1. A textbook committee be formed to evaluate chemistry textbooks and that trial sets be introduced in September 1967.

2. A sum of money be appropriated in this year's budget to purchase teacher and pupil research and reference material.
3. A sum of \$1500 be appropriated for the purchase of 12 new microscopes under NDEA Title III.

MATHEMATICS DEPARTMENT

The Mathematics Department aims to provide those learning experiences that will allow each student in his required or elective mathematics courses to achieve his potential in keeping with his ability, and to become mathematically literate to enable him to meet the demands of society in the future.

To relieve the teaching load, an additional teacher was assigned to the Department. However, due to the increase in registration in the college preparatory classes, the reduction in class load was negligible.

The Department was honored as a result of the totals of the three highest scores of students taking the 1966 prize examination conducted by the Mathematical Association of America. For this the school received a certificate of merit.

The Department also shared in the honors received by the school in preparing one of the twenty national winners in the Ford Future Scientist Award Contest.

RECOMMENDATIONS

1. Instruction for all divisions at each grade level be up to date.
2. Textbooks be chosen to conform as closely as possible to the ability of the various groups.
3. A service course (no credit) be offered in the summer and in the afternoons during the school year in remedial arithmetic, a basic weakness with many students.
4. A plan be devised for homogeneous grouping, more imperative than ever because of the wider spread of abilities among the pupils selecting the college preparatory course.

FRENCH DEPARTMENT

The aims of foreign language teaching are now accepted as understanding, speaking, reading, and writing, in that order. Along with our aim of keeping in the vanguard of modern methods and materials and equipment, the Department has taken upon itself the problems of measurement and placement.

A pupil questionnaire relating to past experience with French has been helpful in sorting out those who have been members at one time or another of an accelerated class. Teachers are suiting their procedures to the pattern.

A close watch is being kept on College Boards in terms of competition within and without our school. Our best score last year was 725 and it has been learned that this young man placed third in the placement test for Harvard freshman French.

The tutoring and summer programs are succeeding in helping poorer students complete their second year of French and thus attain the credit necessary for college in a foreign language. This factor plus an additional teacher gave some relief to our crowded second year classes.

The Language Laboratory was used for the first time to give the Listening Test to foreign language students under arrangements made with the Director of Guidance. Improved scores reflect the advantages of the 30 positions.

The Department along with the others is undertaking the establishment of norms in preparing a criteria for marks to help both students and teachers.

Two classes of German and two in Russian continue to be under the supervision of the Department.

RECOMMENDATIONS

1. A Study of grades and placement in class of pupils in Honors Classes.
2. A larger book budget for purchase of readers and supplementary material.
3. Homogeneous grouping beyond Honors Classes.

PORTUGUESE DEPARTMENT

The Department has continued to progress in the new methods of teaching language with materials and equipment aimed for understanding, speaking, reading, and writing in that order. In our school we now have three teachers teaching fourteen classes with approximately 325 pupils at all levels.

During the year the Sixth Luzo-Brazilian Colloquium was held at Harvard and at Columbia. Miss Andrade covered the sessions at Harvard while Mr. Felix continued the coverage at Columbia. One of the most important developments to come out of these meetings was the steps taken for the establishment of a summer institute, maintained by the U. S. Department of Education under the NDEA program, to retool present teachers and to provide specialized training for future instruction in Portuguese. Recent steps taken indicate the Institute will be opened at the University of Massachusetts.

During the year an "Enrichment Lecture Program" on Luzo-Brazilian literature, consisting of a series of five lectures, was given at our school by Dr. Mildred D. Vieira, assistant professor of Portuguese at Boston College. The lectures left both teachers and students with a greater appreciation of Luzo-Brazilian culture.

Last summer, a special program was started to give high school graduates eight weeks of intensive training, with all expenses paid, at any of the three Luzo-Brazilian centers. The same program may be continued if a sufficient number of students apply.

RECOMMENDATIONS

1. That Portuguese be offered in grades seven or eight.
2. That extra-curricular enrichment programs be undertaken.
3. That advantage be taken of all opportunities offered by the Education Act of 1965.
4. That a concerted effort be made with our State Department of Education to have the proposed Summer Institute established at SMTI and *not* at the University of Massachusetts.

BUSINESS EDUCATION DEPARTMENT

The Department constantly endeavors to keep abreast of the rapidly changing circumstances in the business community and continues to equip pupils with skills for gainful occupation.

The funds made available by the Federal Government under the Vocational Education Act of 1963 purchased equipment long needed by the Department to aid students attain occupational goals in the business world. Described below are some of the reasons why the year was a banner one for the Department.

Room 240 was furnished with Electric Typewriters for the use of the 12th grade pupils providing a more realistic situation for those whose objective is office work.

In the Bookkeeping classes, the acquisition of Adding Machines has proved to be of considerable benefit in training students in a more meaningful classroom atmosphere closely resembling the on-the-job experiences. An increase in student interest and understanding of the transactions studied also was noted because of the use of the Overhead Projectors.

Educational Development Laboratory Skill Builders and Overhead Projectors are an innovation to the Shorthand and Typewriting classes where each teacher has these machines available for her own use whenever desired. Individual Shorthand discs are now issued to pupils for home use, allowing them to practice at their own speed and thus help them attain better grades.

A Thermo-Fax copying machine and a Spirit Duplicator were added to the Business Machines room. Teachers now may issue unlimited copies of daily work and test materials to pupils which heretofore had to be dictated during class time.

In the Data Processing classes, to assist those who will have an opportunity to learn basic wiring, control panels and complements of wires were supplied.

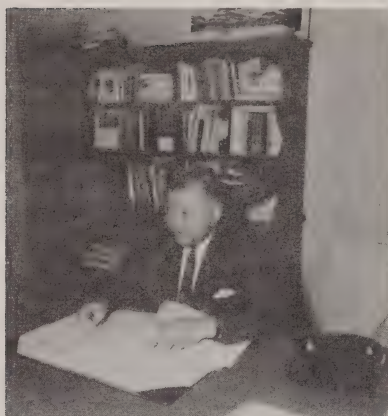

EXTRA-CURRICULA ACTIVITIES

At the time of the visitation of the Evaluation Visiting Committee in 1961 the school was commended for its many offerings in this field. While the number of ac-

tivities has not increased during this year, the interest of the student body has continued through the diligence of our various sponsors.

CONCLUSION

Our five year report to the New England Association of College and Secondary Schools comes in June 1967. This will show that we have made progress since our two year report in those areas in which space has not been a factor. However, the most important fact to be reported will be that 1966 became the "year of decision", and that at long last we will have a new comprehensive high school. Our next accreditation review is due in 1971. If the new school is not a reality but construction is in progress, provision is made for a later date with the Association. It is to be hoped that in the interim an Educational Consultant and a Director of Curriculum will be appointed in the undertaking of this vast project (probably the most important since 1910) which will affect education in our city into the twenty-first century.

Mr. Edward V. Hill, Coordinator of State and Federal Projects —
— completes the "paper work" for —

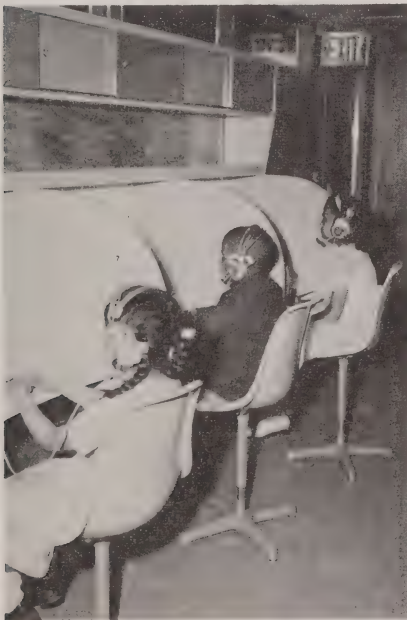

— the electronic classroom of the future
brought to New Bedford today —

In the mobile lab. Mayor Harrington —

"checks out" the young learners who find —

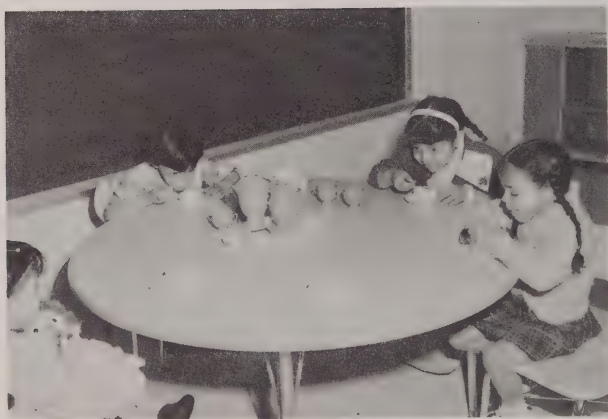

many exciting, interesting "things to do" with tapes, films, projectors AND books!

SCHOOL REPORT

What we develop in "Pre-School" —

— gives us a "Head Start" next year!

This means working together —

— or just "finding out" for oneself!

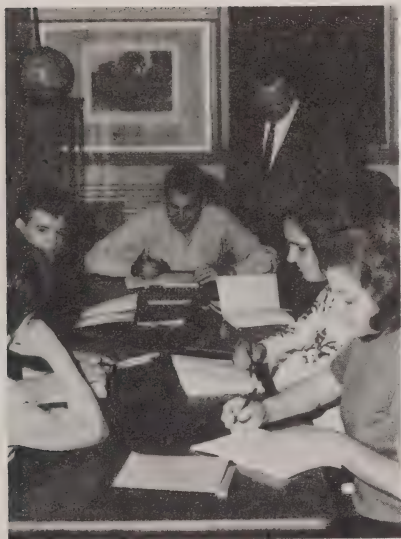

SCHOOL REPORT

Day and night, young and old —

— from all lands —

new citizens for this our country —

— are developed by studying together.

Camp Echo
(Educational, Cultural, and Health Opportunities)

— Literature on the lawn is fun —

nature hikes, exploring, learning and —

good fun singing together really
makes the camp E-C-H-O!

Report of the School Committee

STATISTICS

POPULATION AND VALUATION

The population of the city (census of 1966)	100,141
Valuation of taxable property was	\$135,097,875
Schoolhouses and lots	11,268,550
Other school property (furnishings, etc.)	1,468,506.57

APPROPRIATIONS

Rate of taxation (per \$1,000.00)	\$81.60
Account for general school purposes, not including new buildings	\$6,142,926.28

SCHOOL CENSUS

Number of children between five and sixteen years of age, and illiterates (not having completed Grade 6) between sixteen and eighteen years of age, reported by the Attendance Department in accordance with the census taken October 1, 1966:

Between 5 and 7 years	3,368
Between 7 and 16 years	15,354
Between 16 and 18 years	110

SCHOOL ORGANIZATION, SEPTEMBER 1, 1966

TUITION RATES

Rates of tuition for non-resident pupils for school year beginning September 1, 1966, payable in advance are:

High School	Year	\$400.00
Junior High)		
Sight Saving)		
Special Class)	Year	400.00
Work Shop)		
Elementary	Year	400.00
Kindergarten	Year	200.00
Evening School	Night	.50
Evening High Extension Program	(per class)	18.00

PER CAPITA COSTS

The cost of instruction per scholar for Day Schools is based on the average number belonging and the total amount expended from taxation money, not including expenditures from the Sylvia Ann Howland, Paisler, Bourne Prize, Etta Abbott Smead, Brooks, Campbell or Beatrice Mosgrove Funds:

	Gross Cost	Net Cost (after) reimbursement)
High School	\$389.75	\$287.63
Junior High School	485.62	407.12
Elementary Schools	376.84	280.90
Average for Day Schools	399.50	306.14

ANNUAL REPORT
of the
COMMISSIONER
of
PUBLIC WORKS
of the
CITY OF NEW BEDFORD, MASS.
to the
CITY COUNCIL
1966

BRADBURY-WARING, INC.
New Bedford, Mass.
1967

COMMISSIONER'S REPORT

February 3, 1967

Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

In compliance with Chapter 3, Section 58 of the City Code, I herewith submit the annual report of the Department of Public Works for the year ending December 31, 1966.

Appropriations and expenditures are shown in the various tables, together with a chart indicating the comparative Highway expenditures for the period from 1921 through 1966.

AERIAL PHOTOGRAPHY — The services of Aero Service, Philadelphia, Pa. were procured, at a cost of \$10,960.00, to produce topographic maps of the zero to the 20 foot elevation area covered by the Hurricane Dike. These proved invaluable in preparing the plans of the assessment area for the Assessor's Office. Photographs were taken of the entire city and it is my hope that money will be made available to procure topographic maps of the remainder of the city.

HURRICANE DIKE — During the year, the U. S. Corps of Engineers turned over the operation and maintenance of that portion of the Hurricane Barrier that lies within the City Limits, with the exception of the Navigation Gates in N. B. Harbor, which will remain in the care and custody of the U. S. Army Engineers. This will require additional funds for this phase of the department for proper maintenance and operation.

I wish to express my appreciation for the cooperation that I have received from His Honor, Mayor Edward F. Harrington, the members of the City Council, the various department heads, and my own capable assistants in carrying on the work of the department .

Respectfully submitted,

EDMUND J. TOOMEY

Acting Commissioner

ENGINEERING DIVISION — 1966

AIRPORT COMMISSION — Plans were drawn and surveys made in connection with airport boundaries and leases.

ASSESSORS — Real Estate transactions and transfers were filed at the Registry of Deeds. Such transfers were changed on city plots and indexed. Three sets of 200 plots are kept up to date and blueprints made of the same.

BOARD OF APPEALS — Thirty-six surveys and plans were drawn and records kept.

BUILDING DEPARTMENT — Lines and grades were given for 34 new buildings. The buildings were numbered and records kept.

CITY SOLICITOR — Plans and blueprints were made and descriptions were written on request of City Solicitor for the sale of City owned land and acquisition by Eminent Domain.

CURBING — Lines and grades were given for setting 6,864 lineal feet of curbing. Inspection and measurement was made of the same.

HOUSE DRAINS — One hundred and thirty-six (6,041 feet) new house drains and eight relays were laid connecting house sewer and surface pipes with the main sewer. Locations of these drains were measured, records were made of the same and drawn on drain plots.

PLANNING BOARD — (Zoning) Twenty-two plans for zoning changes were made and lists of abutters made and reported.

PARKING METERS — Three surveys and plans were drawn for new meters and removal of meters. Surveys

were made for No Parking signs and laying out stalls for No Parking areas.

SEWERS — Surveys, plans, lists of abutters, assessments, and specifications were made for seven new sewers and four new surface drains. Construction costs, inspection, lines and grades, were given for 2,300.04 feet of sewers and 2,443.14 feet of surface drains. Records of construction, final plans, and final assessments were made and reported.

SIDEWALKS — Surveys, plans and estimates were made for sixty projects under the Betterment Act. Measurements, records, final plans, and assessments were made and reported. Plans and estimates were made for 143 projects laid by bonded private contractors for property owners.

STREETS — Surveys were made and plans drawn for the acceptance of 7 new streets. Lines and grades were given for all street construction and public utilities construction. Surveys were made and points set for the installation of new street bounds.

TRAFFIC COMMISSION — Surveys were made and plans drawn. Traffic counts were made at 23 intersections.

ROUTES 195 and 140 — The Engineering Division co-operated with State and Federal District Engineers, private engineers, and also with private contractors on the proposed projects.

HURRICANE BARRIER — The Engineering Division co-operated with the Corps of Engineers and private engineers on the proposed projects.

WATER BOARD — Lines, grades, engineering and survey information as required were given for all water main extensions.

MISCELLANEOUS — Lines and grades were given for fences, street lines, and sidewalks. Forty-nine accident or damage sites were surveyed. Plans were drawn to prepare for possible court action. Numerous plans were drawn and descriptions prepared for study by the City Council Committees and the City Solicitor.

Weather records were kept daily on rainfall, snowfall, wind velocity, temperature, and tides. This weather information was reported to State and Federal agencies and was made available to the public. Records were kept of street sweeping and ash collections. The areas of cuts in pavements and walks were measured and recorded. City maps and plans were kept up to date, blueprinted and indexed.

GENERAL STATISTICS

January 1, 1967

Set off from Dartmouth	1787
Incorporated as a City	1847
Length of City	10.73 miles
Breadth of City (Maximum)	3.10 miles
Highest point	1250 feet north of Rockdale Ave. and Hathaway Road. Elevation 181.50 feet
City Datum	Based on 0.85 ft. above mean high water
State Datum	Based on mean sea level 2.55 feet below City Datum
Geometrical Center of City	Nash Road and Mt. Pleasant St.
Area — Land	12,241 acres
Ponds	193 acres
Land — Ponds	12,434 acres — 19.42 sq. miles
Tidal Water	8,451 acres — 13.21 sq. miles
Length of frontage on tidal waters	10.13 miles
Depth of main channel	30 ft. at low water
Average rise and fall of tide	3.50 ft.
Population — Registrar of Voters estimate	100,141
Assessed valuation	\$160,154,975
Assessed valuation per capita	\$1,599.29
Accepted streets — Area 1,443.508 acres	244.804 miles
Bridges (3)	0.796 miles in New Bedford
Sewers	261.942 miles
Length of Intercepting Sewer:	
Outfall	0.626 miles
Intercepting	9.188 miles
16 Public Parks	288.80 acres
14 Public Playgrounds	31.72 acres
1 Rifle Range	230.35 acres
7 Parking Lots	5.81 acres
30 School Buildings — Area of Ground	116.60 Acres
1 Airport — Area of Ground	829.93 acres
Area of Easement	118.67 acres
5 Wharves — and other waterfront land (Harbor Development Comm.) ...	72.00 acres

STREET INVENTORY

January 1, 1967

BRIDGES:

Coggeshall St. — $\frac{3}{4}$ Maintained by New Bedford
 Slocum St. — $\frac{1}{2}$ Maintained by New Bedford

PAVEMENTS:

(Note:—In the following list the area is the total of that kind of pavement on all streets, but the length is the length of street where that material is the principal pavement.)

	Length Miles	Area Square Yards
Bituminous Macadam	24.41	418,050
Water Bound Macadam	.02	321
Granite Block	.08	6,102
Concrete	.11	1,697
Oil Gravel	7.25	347,205

Bituminous Concrete Surface over:

Block or Crushed Stone Base	149.32	2,393,512
Bituminous Macadam Base	27.01	359,627
Water Bound Macadam Base	4.97	114,366
Granite Block Base	.09	5,635
Oil Gravel Base	30.52	881,801

Unimproved Streets (some
have been graded) 1.02

New Streets (Accepted 1966)
(1.233 miles) —

 244.80

WATER REPORT

WATER BOARD REPORT

April 11, 1966

To the Mayor and City Council
of the City of New Bedford

Gentlemen:

In accordance with the provisions of Chapter 23, Section 3-2312 of the City Code of New Bedford, the Water Board herewith respectfully presents this, its ninety-seventh annual report, covering its operation for the calendar year 1966, and including the reports of the superintendent and the water registrar.

Mr. Adalberth S. Rozario was reappointed as a member of the Water Board for a term to expire in June, 1969.

Mr. George J. Goulet was reappointed as a member of the Water Board for a term to expire in June, 1970.

The average daily consumption for the past year was 20,162,697 gallons which was approximately 143,127 less than 1965.

The total consumption for 1966 was 7,359,384,400, which was approximately 52,241,400 less than 1965.

The water debt as of December 31, 1966 was \$1,567,000.00 a decrease over 1965 of \$152,000.00.

Bonds in the amount of \$75,000, Water Loan No. 1 of 1965 were sold, the proceeds being made available for the purchase of water meters and couplings.

The Water Board voted to request the transfer of \$301,270.11 surplus from Water Department receipts to Water Department New Construction and Improvement Account.

The Town of Acushnet renewed its five year lease on a portion of Water Department property on the north side of Lake Street, Acushnet for a picnic and beach area in accordance to Chapter 40, Section 3 for the sum of one dollar per year.

The Water Board voted to require the Water Registrar to put into effect a new set of regulations pertaining to the main pipe assessments.

The Water Board approved a new sprinkler regulation set up by Assistant City Solicitor Mr. Perras.

The following abstracts from the Water Registrar's report shows in condensed form the financial operations of this department during the year. Full details will be found in his report, which accompanies this.

	Salaries & Wages	Labor	General Expense	New Construction	Total
1966 Budget					\$530,004.24
Transfer	\$171,000.00	\$183,951.43	\$143,050.00	\$ 32,002.81	17,800.00

William J. Kruger

WATER REPORT

REPORT OF THE WATER REGISTRAR

City of New Bedford
Water Registrar's Office
December 31, 1966

To the New Bedford Water Board:

Gentlemen:

I herewith present to you a detailed statement of the receipts and expenditures of the Water Works Department for the year ending Dec. 31, 1966.

The report is based on Budget vs. Expenditures and also on Receipts and Expenditures as previously.

RECEIPTS

FIRST, Based on the budget system

Budget Appropriation	\$498,001.43	
Refunds	521.02	
1965 Encumbrances	17,587.68	
Service Transfers	4,145.50	
Transfer	17,800.00	
Transfer — New Contrustion	267,135.92	
Balance — New Construction Acct. 1965	32,002.81	\$ 837,194.36

EXPENDITURES

Payrolls	364,493.48	
Bills	152,789.38	
Payrolls — New Contstruction	16,704.90	
Bills — New Contstruction	143,162.60	
1966 Encumbrance Account	11,394.63	\$688,544.99
Balance — New Construction Account carried over to 1967	139,271.23

REPORT OF THE SUPERINTENDENT

April 11, 1967

To the New Bedford Water Board

Gentlemen:

The annual report of the superintendent of operations of the department for the year 1966 and on the general condition of the works is respectfully submitted.

The financial report of the water registrar, rainfall and usual tables showing in detail the work of the department, are incorporated as part of this report.

RAINFALL

Total rainfall for the calendar year 1966 was recorded at Quittacas Pumping Station, Rochester, Massachusetts at 39.25 inches.

POND LEVELS

The water levels in the Lakeville Ponds reached the following elevations during 1966:

	<i>High Level</i>	<i>Low Level</i>
Pocksha Pond	49.79 June 14	47.26 November 2
Great Quittacas Pond	49.51 June 14	47.18 November 2
Little Quittacas Pond	47.85 March 2	46.58 November 2

WATER TREATMENT

All water during the year was sterilized through the addition of liquid chlorine at the rate of approximately 10 pounds in the winter months to 20 pounds during the summer months. All water coming into the city is again treated as it passes through the High Hill Chlorination Station, Dartmouth, Massachusetts.

All water leaving Quittacas Pumping Station is now treated with Soda Ash. Various tests have been made throughout the system showing that the pH now ranges from 7.3 to 7.8. Since applying the Soda Ash to the system it has eliminated the continuous complaints of green and blue stains in sinks, bath tubs, etc.

STORAGE YARD AND BUILDINGS

The Superintendent reports that with the aid of boys from the Youth Corps and the forestry crew from the Quittacas Station, all trees were cut down into logs or cord wood and the brush burnt. Some cord wood was taken to the Quittacas Station and the rest given to the Park Department. All logs were cut into planking.

The Department of Public Works loaned two trucks and bulldozers to clear the rock and grade off the land.

The Mayor stated he would go out to bid in January 1967 using Water Department surplus of 1966 to finance the project.

1966 — IN THE BLACK

The financial report submitted by the Water Registrar for the year 1966 is shown in detail in various sections of the Water Department annual report. It will be noted that the department operated with a balance of \$301,270.11 which will be transferred to the New Construction and Improvement Account.

This is possible only through the fine, close cooperation of the staff under the Water Registrar and the close cooperation of the staff in the superintendent's office in processing and expediting and promptly billing of all work reports pertaining to charge outs, helps in the keeping of collectable accounts at a minimum. The superintendent thanks all those responsible for such a fine efficient job.

WATER REGISTRAR'S OFFICE

Due to Route 140-195 — Downtown Connector and the South and North Terminal, this office has been kept busy processing cards of new and relocations, checking addresses and locations of owners for billing purposes, transfers of water meters and the termination of hundreds of old services.

METER DEPARTMENT

Due to the progress made through the cooperation of all concerned our meter replacement and repair program is beginning to show results as our collections have shown a substantial increase in those areas where the work has been done. But there is considerable work to do yet.

This department has two Youth Corps boys who have done an excellent job and could be fully recommended for this type of work in private industry.

ACUSHNET SYSTEM

The following work has been completed in connection with this system:

A) 370' of 24" reinforced concrete pipe was installed from the inlet house at Coggeshall Street Reservoir westerly to manhole in the Revere Copper Brook.

B) The Revere Copper & Brass Company offered to pay up to \$2600 toward the cost of installing 200' of drain pipe (iron or cement) from the manhole at Coggeshall Street to a manhole just south of this Coggeshall Street manhole. This 200' was laid 30" Cast Iron Pipe. This work was done by Barletta Construction Company on an extra work order.

C) After numerous meetings with the State Department of Public Works they finally agreed to spend approximately \$35,000 in renewing approximately 1000' of old conduit with 36" reinforced pipe plus a number of manholes from Cedar Grove Street to a new manhole on the west sidewalk of Acushnet Avenue just north of Logan Street.

D) The Water Board set a minimum rate of \$25.00 a day for the use of water from Whites Pond for irrigation purposes.

E) It was voted March 22, 1966 to authorize the New England Telephone Company to run their duct line through the top quarter of the culvert, in the north gutter of Coggeshall Street opposite the Inlet House.

F) A meeting was held at the State Department of Public Health office, Lakeville, Massachusetts, between Mr. Paul Anderson, Selectman Charest, Conservation Officer Mr. Peter Murphy, Representative William McLean and the superintendent pertaining to the sale of Watershed Property in the Town of Acushnet. Mr. Anderson of the State Department of Public Health said that their office would be opposed to any sale of any watershed property.

The department was notified by the Town that they would like to renew their 5 year lease for the property off Lake Street, Acushnet, for a picnic and beach area in accordance to Chapter 40 — Section 3.

HIGH HILL RESERVOIR

No work worthy of mentioning was done in this area other than to demolish a cottage that was beyond repair.

ROCKDALE AVENUE SYSTEM

Due to Route 195 it was necessary for the State Department of Public Works to relocate the electrical pole and its fixtures at an estimated cost of \$995.00. Hawes Electric was given the contract by the City.

By a vote of the Water Board, approval was granted to the Police Department to install an aerial on the platform of the tank with a base station in the wooden house at the base of the tank, provided there was no interference to our own communication system.

STATE DEPARTMENT OF PUBLIC HEALTH

The State Department of Public Health has notified the City of New Bedford Water Department and Health Department to increase the testing and taking of 100-120 water samples a month from the system. The Division of Sanitary Engineering for the State stated their budget was so limited that they couldn't test over 18 a month.

PUMPING STATION

Assistant Superintendent Edward Begin has completed many improvements to the station, grounds, ponds and watershed area, with his limited help has done an excellent job.

PONDS

The conditions of the ponds are still at a very low level and it will take substantial amount of rain to recharge them. As of December we are at the low level of 1957.

A communication was sent to the Mayor and City Planner requesting action at the meeting of the Regional Water Conference to be held at the Lakeville Hospital, February 9, 1966 to expedite some type of action in the Fall Brook area and the Taunton River Project as stated in the 1965 Annual Report.

The superintendent recommends that the Mayor, City Planner, Water Board and all other agencies interested in development of the Watershed areas take some type of action in 1966 to get a program going. Improvement in the Watershed area can guarantee our home owners and industries an additional supply for the next 50 years.

The Water Board entered into an agreement with Tibbetts Engineering Corp. for the sum of \$2,000.00. This was for a Basis Research

Investigation of Great and Little Quittacas Ponds, relative to a feasibility study and report on the enlarging of the storage facilities of these two ponds.

The Planning Department has now been requested to secure a Federal Grant to complete this study.

TURNER'S POND AREA

Commissioner Hanack and a committee from Dartmouth met with the City Council and Superintendent requesting the development of Turner's Pond area situated in New Bedford for a water supply for the town. The matter is under study.

SOUTH TERMINAL AREA

The Redevelopment Authority is in the process of demolishing all buildings in this area, which includes everything from Second Street to the river and Potomska Street to Middle Street. All water mains and services in this area except the 30" water main will be shut off and abandoned. The engineering work is being done by George Carson — Goodkind & O'Dea.

REVISED ASSESSMENT AGREEMENTS

1) An individual, contractor or developer may pay in a lump sum based on an estimate given by the Water Department. He will only have to pay the actual cost of the work done by the department.

2) An individual, contractor or developer may pay 50¢ per foot for 15 years, plus water bills, provided houses are built on each lot, and if the case is such the Water Board considers it economically feasible. The cost is based on the connection from the water main to the terminus.

3) An individual contractor or developer may have this work done at his expense, but to the specifications of the New Bedford Water Department and under their supervision the Department will make the initial connection with certain reservations. The department may be compensated for the time spent by their inspector.

4) Assistant City Solicitor, Edward Livingstone explained to the Water Board that under the old assessments, they must be conducted on the basis as when originally signed.

AN ORDINANCE — 1966

Providing for Water Board approval of Fire Sprinkler systems, underground heating systems and other systems.

Section 1

Chapter 23 of Title 3 of the Code of the City of New Bedford is hereby amended by adding thereto the following:

Section 3-2325 Inspection and Approval

No person shall directly or indirectly connect to, or in any way use a City Water supply, well or other water supply, public or private, with any underground heating system, any fire sprinkler system, or any other system without first making application therefor and receiving, after inspection, the approval of the Water Board of the City of New Bedford.

All presently connected to such systems may continue in operation provided that such approval, after inspection, be obtained on or before July 1, 1966.

Section 3-2326 Forms and Their Display

The Water Board shall furnish suitable application forms and inspection certificates, therefor; such certificates shall be displayed at all times at the connecting point, or as near as reasonably practicable thereto, of any such system to the City water supply by the owner or person in control of such system.

DISTRIBUTION SYSTEM

Assistant Superintendent Edward V. Peters has been fully occupied with the limited work crew in making alterations, repairs, relocations, installations in the projects as stated below:

- 1) Coggeshall Street Reservoir was filled in and new connections made to manholes.
- 2) Approximately 250 old services were disconnected.
- 3) Relocation of 1000' of 30" water main with Class 25 Cement Lined from Cornell Street to Logan Street. Installed 2 — 24" Gate Valves at Weld Street. Due to Water Conduit at Weld Square the 30" Water Main has approximately 8½' of cover. Waste Gate was installed in manhole just south of the south line Weld Street.
- 4) Howard Street — 295' of 4" and 170' of 6" water pipe was abandoned.
- 5) Kenyon Street — 820' of 6" water pipe was abandoned.
- 6) Cedar Grove Street — 720' of 6", 260' of 12" and 480' of 24" water pipe was abandoned.

- 7) Blackburn Street — 250' of 4" water pipe was abandoned.
- 8) Acushnet Ave. — 980' of 8" water pipe was abandoned beginning at a tee in Coggeshall Street to a tee in the old 30" water line at Weld Square.
- 9) Weld Street — 740' of 8" water pipe from tee in Purchase Street to tee in old 30" water line.
- 10) Marvin Street — 385' of 4" water pipe was abandoned.
- 11) Cornell Place — 230' of 6" water main was abandoned.
- 12) Tarkiln Hill Road — 660' of 10" water main removed and replaced with 16" Cast Iron Class 25 and connections made to side streets.
- 13) Rockdale Ave. — 205' of 10" water main was abandoned in place between Hathaway Road and Lemos Street.
- 14) Wamsutta Street — 165' of 8" water main was abandoned with a plug at Acushnet Ave. and at the terminus of the present line.
- 15) Phillips Road — 950' of 10" water main was abandoned in place by plugging the tee at Church Street and by plugging the 16" x 16" x 10" just north of the new overpass.
- 16) Phillip Road — 1050' of 16" water main was abandoned in place and a new line installed in overpass.
- 17) Hathaway Road — 295' of 8" water main from tee old Rockdale Ave. westerly to new Rockdale Ave.
- 18) Hathaway Road — 215' of 12" water main from tee of old Rockdale Ave. to east side off overpass.
- 19) Hathaway Road — installed new 12" line in overpass to the tee in new Rockdale Ave.
- 20) Approximately 600' of 10" Cast Iron Class 25 pipe was installed in Lemos Street and on West Rockdale Ave. to Hathaway Road due to Route 195.
- 21) Approximately 250' — 16" C. I. Pipe Class 25 plus 2 all bell gates and one air valve was installed on the north side of Weld Street from 30" water main to 16" water main on Purchase Street.
- 22) State supplied two 16" insertion valves in the Weld Square intersection.

The pumping station personnel installed 3-24" Class B flanges and flare units along with 1-36" unit on the intakes.

The station personnel completed the change over for installing one ton cylinders of chlorine, installed the scale, track and dolly and built a loading and unloading area. The cost of this work will be paid for by the saving of approximately one cent a pound in all future orders of chlorine purchased for the Station.

WATERSHED AREA

Mr. Donald Goodhue submitted a plan and a letter through his attorney to the State Department of Public Works (Waterway Division) for a hearing pertaining to a License for a Pump — Pump House and Dredging a Flume from Long Pond to his cranberry bog. After objections by the City, it was recommended that his attorney Mr. Paul sit down with New Bedford, Taunton and Fall River and therefore an agreement was drawn up by Assistant City Solicitor Mr. Livingstone and was signed by all concerned.

Assistant City Solicitor Mr. Livingstone prepared an agreement for the purpose of allowing electric power lines, telephone lines and poles to cross Watershed property for the purpose of supplying the following families only, Mr. Donald Cannon, Mr. Leonard Lawrence and Mr. Benjamin Howes, Jr., in an area off Walnut Street, Middleboro.

The New Bedford Water Board authorized the superintendent and Assistant City Solicitor Edward Livingstone to contact Mr. Ayotte, Realtor, Lakeville, Massachusetts for the purchase of the Clark Farm bordering Pocksha Pond off Marion Road and Walnut Street, Middleboro, approximately 123 acres. He set a price of \$1500 per acre. We suggested the purchase of 79 acres of the low land but the price remained the same. The matter was dropped and the Department of Public Works, Waterway Division was notified that we were requesting a hearing pertaining to fill being placed in the swampy area of this land and all work stopped and is still stopped.

Over on Long Point Road the Water Department personnel demolished three houses that were in deplorable condition and an eye sore, plus being a health menace. This area will be planted over with red pines in the spring.

FORCE MAINS

No work worth mentioning was done on these lines or on the Private Way. An attempt was made to steal a few thousand feet of

our copper wire but the department employees arrived on the scene in time.

Permission was granted to the New Bedford Gas Company to place their 16" Algonquin Gas Feed Line over the top of the two 48" pipes inside the fence off County Road at the double gates of the Private Way.

CHAPTER 90 PROJECT

Due to the resurfacing and widening of Nausett Street, Parker Street — Hathaway Blvd. to Liberty Street, Durfee Street from Liberty Street to Rockdale Avenue, all water utilities were installed or relocated by the Water Department. In certain locations the 42" water main has only $2\frac{1}{2}'$ of cover. The 24" water main on Nausett at Deane Street has a cover of only $2\frac{1}{2}'$ to $3'$.

CEMENT LINING

The department went out to bid for the following cement lining work:

- 1) Rockdale Ave. — Kempton Street to Allen Street 12" water main — approximately 4030'.
- 2) Kempton Street — Rockdale Ave. to a point just east of the city line, approximately 2865'.
- 3) Phillips Road — Church Street tee to gate on west line of Ashley Blvd. — 10" pipe — approximately 2300'.

Work was done by Pipe Lining Company

Bids were — Pipe Lining — \$48,667.78

Central Lining — \$52,467.00

It is hoped that by 1968 many of the projects proposed in previous reports will be undertaken due to their absolute necessity.

FLUSHING

The system was only given a limited flushing and gates up to 12" were worked along with every hydrant.

PROPOSED PROJECTS

1) **Improvements at the Watershed** pertaining to the dam, storage, additional property and the reallocation of the water rights in the ponds.

2) **Cross town connections** 24" in size from the Acushnet Avenue 30" to Park Street 30" water main.

3) **Hathaway Road** connection from 30" at Mt. Pleasant Street to 42" at Rowe Street — 24" or 30".

4) **Brock Avenue** connections from David Street to Rodney French Blvd. (S) 16" water main to replace 8" main.

5) **Transmission Mains** — complete overhaul of Air Valves and Gate Valves as recommended by Camp, Dresser & McKee.

6) **Replacement of 20" water main** installed in 1800's that runs through the center from Cedar Grove Street to County and Sixth Street.

7) **Replacement** of a large number of gate valves that are in poor condition.

8) **Cement Lining** program to continue.

9) **Install** a 20 million gallon electric pump at Quittacas Station.

10) **Relocate pump** at Hathaway Road Pump House and install one ton chlorine cylinders for the High Hill Chlorination Station.

LEAKS

There have been twenty-two leaks on main pipe during the year as here-with shown.

15,177 feet of distribution pipe, in sizes from 6 inch to 30 inch, were added to the system during the year and 5,865 feet was removed.

670 feet of distribution pipe less than 4 inches have been removed during the year. The total length now in use is 12,075 feet.

Eighty-six stop gates have been set and thirty-three of these previously set have been removed. The total number now in use is 3,851.

One small size stop gate has been set making a total of 96 now in use.

One waste gate has been set and two of those previously set have been removed making a total of 209 now in use.

Three air vent valves have been removed making a total of 216 now in use.

Thirteen private gates have been set and seventeen of those previously set have been removed making a total of 1,165 now in use.

Thirty-one new hydrants have been set and twenty-two of those previously set have been removed. The total number now in use is 2,186.

One water cart hydrant has been removed making a total of 18 now in use.

Two hundred and thirty-two service pipes have been laid and three hundred and eighteen of those previously laid have been removed. The total number now in place is 23,662. Of this number three hundred seventy-three are unmetered fire services, twenty thousand, six hundred two are metered, and the balance of three thousand sixty are not in use.

Two hundred and ninety-six service leaks have been repaired.

Two hundred sixty-one taps have been cleaned as follows:

Blow-off	251;	trouble inside	10
----------	------	----------------	----

One thousand six hundred thirty meters have been removed for repairs, two thousand five hundred thirty-four have been reset. Also two hundred ninety-one new meters have been set for the year making the total number in use 20,602.

CONSUMPTION OF WATER

The Consumption of water for the year has been as follows:

Month 1966	Monthly Consumption				Daily Average Consump- tion Gallons
	New Bedford	Dartmouth	Acushnet	Total	
	Gallons	Gallons	Gallons	Gallons	
January	583,990,900	450,000	6,273,000	590,713,900	19,055,287
February	526,017,600	447,000	6,183,000	532,647,600	19,023,129
March	588,555,650	578,250	8,494,500	597,628,400	19,278,335
April	557,677,850	585,850	10,156,500	568,420,200	18,947,340
May	586,760,350	424,500	5,249,250	592,434,100	19,110,777
June	631,449,450	2,602,050	9,300,000	643,351,500	21,445,050
July	657,354,350	18,116,400	16,533,750	692,004,500	22,322,725
August	705,989,150	11,459,100	11,628,750	729,077,000	23,518,613
September	613,767,200	3,841,500	14,244,000	631,852,700	21,061,757
October	599,602,500	426,000	8,431,500	608,460,000	19,627,742
November	591,213,600	485,250	6,948,750	598,647,600	19,954,920
December	496,615,650	555,750	76,975,500	574,146,900	18,520,868
Totals	7,138,994,250	39,971,650	180,418,500	7,359,384,400	
Averages	19,558,888	109,511	494,297	20,162,697	

Maximum daily consumption — (24 hrs) — August 428,140,100

Minimum daily consumption — (24 hrs.) — January 111,002,800

Average daily consumption — 6 a.m. to 6 p.m.11,398,112

Average night consumption — 6 p.m. to 6 a.m. 8,764,584

Amount of water consumed shown on above table includes the supplying of about 135.90 miles of distribution pipes located in the adjoining towns of Dartmouth and Acushnet. Dartmouth supplies 14,610 consumers through 4,870 taps. Acushnet supplies 5,281 consumers through 1,509 taps.

*Includes special assessment accounts

**Not charged to City of N. B. Depts.

As superintendent, I wish to express my appreciation for the help received from the Mayor, the Water Board, the members of the City Government, and particularly to the employees of the Water Department for their continued and wholehearted support.

Respectfully submitted,

GEORGE H. BRIGHTMAN,

Superintendent

TABLE X

**STATEMENT OF WORK DONE BY THE SERVICE DEPARTMENT
FOR THE YEAR ENDING
DECEMBER 31, 1966**

Kind and Size	Services	Length on City and taker
Copper tubing, 4 inch	1	13.11
Copper tubing, 2 inch	1	99.00
Copper tubing, 1½ inch	7	285.50
Copper tubing, 1 inch	168	9006.00
Copper tubing, ¾ inch	44	1674.00
Cast Iron, 10 inch	1	8.80
Cast Iron, 8 inch	-	40.00
Cast Iron, 6 inch	5	56.80
Cast Iron, 4 inch	5	102.50
Totals	232	11,285.71

Three 1 inch light lead services have been removed and replaced with 1 inch copper service.

Five ½ inch heavy lead services have been removed and replaced with ¾ inch copper services.

Thirty-one ⅝ inch heavy lead services have been removed and replaced with ¾ inch copper services.

Eighteen ⅝ inch light lead services have been removed and replaced with ¾ inch copper services.

One ¾ inch iron service was removed and replaced with ¾ inch copper service.

Four ¾ inch heavy lead services were removed and replaced with ¾ inch copper services.

Ten ¾ inch light lead services were removed and replaced with ¾ inch copper services.

Two connections have been made to services,

WATER REPORT

One 8 inch cast iron service, five 6 inch cast iron services, five 4 inch cast iron services, four 2 inch cast iron services, one 4 inch cement asbestos service, one 2 inch galvanized iron service, two 2 inch copper services, two 1½ inch copper services, one 1¼ inch copper services, five 1 inch copper services, thirty-four ¾ inch copper services, two 1 inch light lead services, eleven ¾ inch light lead services, two ⅝ inch light lead services, two 1 inch heavy lead services, fourteen ¾ inch heavy lead services, eighty-three ⅝ inch heavy lead services, one hundred forty-one ½ inch heavy lead services, two 3 inch cast iron services have been removed.

The following extensions were made to services by takers:

173 ft. 1 inch copper tubing, and 55 ft. ¾ inch copper tubing.

Length of service pipe laid during the year	1,125.50 ft.
Number of services laid in 1966	232
Number of services removed	318
Number to be deducted	86
Number in use December 31, 1965	23,738
Number in use December 31, 1966	23,652

SUMMARY OF STATISTICS

FOR THE YEAR ENDING DECEMBER 31, 1966
IN FORM RECOMMENDED BY THE NEW ENGLAND
WATER WORKS ASSOCIATION

NEW BEDFORD WATER WORKS

NEW BEDFORD
BRISTOL COUNTY, MASS.

GENERAL STATISTICS

Population by census of 1966 — 100,141.

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899 inclusive.

By whom owned, City of New Bedford.

Source of supply. — Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply. — Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40' + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6/10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30') located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154') located 1,879 feet distance, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from Little Quittacas Pond (grade 52'). It is pumped through two 48 inch force mains 8¼ miles long to a distributing reservoir (capacity 67 million gallons, grade 216') located upon High Hill, in the town of Dartmouth. From this reservoir, it flows into the city's distribution system by gravitation through two 36 inch cast iron pipes averaging 4 1/17 miles in length and one 42 inch pre-cast concrete pipe following a different course and approximately the same length. The concrete transmission line was put into operation in 1958.

It is also possible to pump directly to the city through a 48" and 36" main using the reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use.

WATER REPORT

PUMPING STATISTICS

LITTLE QUITTACAS STATION

1. Builders of Pumping Machinery.

Electric Units

No. 1 10 million gallons per day centrifugal pump manufactured by De-Laval Steam Turbine Company, driven electrically by 400 H.P., 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.

No. 2 Duplicate of No. 1.

No. 3 15 million gallons per day centrifugal pump manufactured by De-Laval Steam Turbine Company, electrically driven by 600 H.P., 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.

The three foregoing pumps are controlled by switches and automatic starting equipment in a switchboard manufactured by the Electric Machinery Company.

No. 4 30 million gallons per day centrifugal pump manufactured by De-Laval Steam Turbine Company, directly driven by 950 H.P. Baldwin locomotive type 6 cylinder supercharged Diesel engine, 600 R.P.M. manufactured by the Baldwin Locomotive Company.

Electric current purchased off New Bedford Gas and Edison Light Company.

Total installed capacity, 65 million gallons per day.

LITTLE QUITTACAS STATION — Pump 4 "Diesel"

2. Description of fuel used:

a. No. 2 Diesel oil.

b. Brand of oil — various.

c. Price of oil per gallon — delivered to Little Quittacas Station 10.2 cents.

3. Oil consumed for the year 20,690 gals.

4. Total pumping for the year 409,090,000 gallons by Venturi meter.

5. Average static head against which pumps work — 170.5

6. Average dynamic head against which pumps work 191.8.

7. Number of gallons pumped per gallon of fuel oil — 19,772 gals.

8. Number of gallons raised 100 feet per gallons of fuel oil — 37,922 gals.

9a. Cost per million gallons raised into High Hill Reservoir — \$11.10.

9b. Cost per million gallons raised into High Hill Reservoir — diesel fuel only — \$5.16.

LITTLE QUITTACAS STATION — PUMPS 1, 2, 3,

10. Total pumping time for the year — 14,049 Hrs.

11. Total current used for the year — 4,945,673 K.W.H.

12. Total Pumpage for the year — 6,951,780,000 gallons.

13. Number of gallons pumped per K.W.H. — 1,040.

14. Number of K.W.H. required to raise one million gallons into High Hill Reservoir — 712.
Cost per K.W.H. varies in accordance with amount consumed.
15. Average cost per K.W.H. — \$.0112.
- 16a. Cost per million gallons raised into High Hill Reservoir, (Pumps 1, 2, 3) — \$22.13.
- b. Per power only \$7.94.
Total cost of pumping, figured on pumping station expenses, viz: \$158,398.90.
17. Per million gallons pumped \$21.52.
18. Per million gallons raised one foot (dynamic) — 12 cents.
Cost of pumping figured on total maintenance and interest on bonds (see financial CC + DD) less credits, viz: \$597,908.41.
19. Per million gallons pumped 81.23.
20. Per million gallons raised one foot (dynamic) — 44 cents
Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC + DD + EE) less credits, viz: \$824,908.41.
21. Per million gallons pumped \$112.07.
22. Per million gallons raised one foot (dynamic) — 63 cents.

STATISTICS OF CONSUMPTION OF WATER

1. Estimated total population at date (New Bedford)	100,141
Acushnet 7,355; Dartmouth 18,000	*125,496
2. Estimated population on lines of pipe	*121,000
3. Estimated population supplied	*121,000
Year July 1, 1965 through June 30, 1966	
4. Total consumption for the year	7,347,006,900
5. Passed through meters	6,657,456,400
6. Percentage of consumption metered	91%
7. Average daily consumption	20,128,786
8. Gallons per day to each inhabitant	*160
9. Gallons per day to each consumer	*166
10. Gallons per day to each tap (active)	*736
11. Average rate received per million gallons metered	\$145.74
12. Average rate received per million gallons consumed	\$104.98
Year January 1, 1966 through December 31, 1966	
13. Cost of supplying water, per million gallons consumed figured on total maintenance (item CC) less credits	\$ 72.09
14. Cost of supplying water per million gallons consumed figured on total maintenance plus interest on bonds (CC+DD) less credits	\$ 81.10
15. Total cost of supplying water per million gallons consumed figured on total maintenance, plus interest on bonds and bond payments (CC + DD + EE) less credits	\$110.73

* Includes population supplied in the towns of Dartmouth and Acushnet.

STATISTICS RELATING TO DISTRIBUTING SYSTEM

MAINS	SERVICES
1. Kind of pie cast iron, steel and cement asbestos.	16. Kind of pipe; lead, cast iron and copper tubing.
2. Size, from 4 inch to 48 inch.	17. Sizes, ½ inch to 12 inch.
3. Extend 15,177 feet during the year.	18. Extended 11,513.71 feet.
4. Discontinued 5,865 feet during year.	19. Discontinued 10,388.21 feet.
5. Total now in use 263.53 miles.	20. Total now in use 184,9984 miles.
6. Cost of ordinary maintenance per mile including flushing and inspecting gates and hydrants — \$172.93	21. Number of new service taps added during year: New Bedford232 Dartmouth139 Acushnet 73
7. Number of leaks per mile .083.	Total added444
8. Length of pipes less than 4 inches diam. 2.17 miles.	22. Number now laid: New Bedford23,652 Dartmouth 5,083 Acushnet 1,583
9. Number of hydrants added during the year 9.	Total now laid30,318 Total now in use in N.B.20,975
10. Number of hydrants public 2,186.	23. Average length of service 41.3 ft.
11. Number of stop gates added during year 53.	24. Average cost of service for the year: (a) Gross\$160.94 (b) Net (credit)\$ 88.1
12. Number of stop gates now in use, 3,851.	25. Number of meters to be deducted 86.
13. Number of stop gates smaller than 4 inch, 96.	26. Number now in use, New Bedford only 20,602 (See Table Z.)
14. Number of blow offs, 251.	27. Percentage of active service metered 98.2%.
15. Range of pressure on mains, 16 lbs, to 91 lbs.	28. Percentage of water receipts from metered water =100.

ZONING CHANGE NO. 29

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Six

AN ORDINANCE

Changing the zoning classification of property on the west side of
CHURCH STREET, south of New Route 140, from Industrial
C to Business

Be it ordained by the City Council of the City of New Bedford
as follows:—

SECTION 1. That all of the property bounded and described,
as follows:—

Beginning at a point in the westerly line of Church Street, distant northerly therein one thousand two hundred twenty and 05/100 (1220.05) feet, more or less, from the northerly line of proposed Tacoma Street;

thence northwesterly in the northeasterly line of land now or formerly belonging to Josephine Sarkes, a distance of three hundred twenty-six (326) feet to a point in the southerly line of land now or formerly belonging to Sarah A. Hughes;

thence westerly by land of said Sarah A. Hughes, a distance of six hundred ninety-six (696) feet to a point in the easterly line of land now or formerly belonging to Acushnet Saw Mills Company;

thence northerly by land of said Acushnet Saw Mills Company, a distance of fifty-two and 50/100 (52.50) feet to an angle;

thence continuing northerly by land of said Acushnet Saw Mills Company, a distance of seven hundred twenty-one and 95/100 (721.95) feet to a point in the southerly line of land now or formerly belonging to Marion G. Hilton;

thence easterly by land of said Marion G. Hilton, and continuing in a straight line across the path of new Route 140, a distance of three hundred eighty-five (385) feet, more or less, to a point in the easterly line of new Route 140;

thence northerly in said easterly line of new Route 140, a distance of four hundred sixty-five and 40/100 (465.40) feet to an angle;

thence continuing northerly in said easterly line of new Route 140, a distance of two hundred two and 09/100 (202.09) feet to an angle;

thence northeasterly in said easterly line of new Route 140, a distance of one hundred seventy-one and 85/100 (171.85) feet to a point in the westerly line of Church Street;

thence southeasterly in the westerly line of Church Street, a distance of one hundred thirty-four and 91/100 (134.91) feet to an angle;

thence southerly in said westerly line of Church Street, a distance of one thousand two hundred ninety (1290) feet, more or less, to a point in the northerly line of Natick Street;

thence westerly in the northerly line of Natick Street, a distance of one hundred forty-two (142) feet, more or less, to a point in the easterly line of land now or formerly belonging to Sarah A. Hughes;

thence southerly by land of said Sarah A. Hughes, a distance of twenty-six (26) feet, more or less, to a point in the easterly line of land now or formerly belonging to Josephine Sarkes;

thence southeasterly by land of said Josephine Sarkes, a distance of twenty-five (25) feet, more or less, to a point in the southerly line of Natick Street;

thence easterly in the southerly line of Natick Street, a distance of one hundred thirty-one and 24/100 (131.24) feet, more or less, to a point in the westerly line of Church Street;

thence southerly in said westerly line of Church Street, a distance of one hundred sixty-three (163) feet to a point in the northerly line of Kelton Street;

thence westerly in the northerly line of Kelton Street, a distance of fifty-five and 18/100 (55.18) feet to a point in the easterly line of land now or formerly belonging to Josephine Sarkes;

thence southerly by land of said Josephine Sarkes, a distance of fifty-one (51) feet, more or less, to a point in the southerly line of Kelton Street;

thence easterly in the southerly line of Kelton Street, a distance of thirty-eight (38) feet to a point in the westerly line of Church Street;

thence southerly in the westerly line of Church Street, a distance of eighty-one and 50/100 (81.50) feet to the point of beginning;

all of which is now zoned as Industrial C, be changed to Business; all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

AN ORDINANCE

ACCEPTING A GIFT OF ONE THOUSAND DOLLARS (\$1,000)
FROM THE FAMILY AND FRIENDS OF EDITH C. WOLLISON,
AND DESIGNATING IT
"THE EDITH C. WOLLISON MEMORIAL FUND"

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Chapter 20 of the New Bedford City Code is hereby amended by adding thereto the following section, to be known as Section 3-2018, which shall read as follows:

The City of New Bedford accepts the gift of One Thousand Dollars (\$1,000), given to the Public School Department of the City of New Bedford, Massachusetts, by the family and friends of the late Edith C. Wollison.

The Board of Trustees of Bequests, Gifts and Trust Funds of the City of New Bedford is hereby authorized and directed to receive for said city the aforesaid gift and to manage said gift in accordance with the provisions of Chapter 20 of the New Bedford City Code, and the person in direct charge of the Latin Department of the New Bedford High School shall have authority to direct that up to Fifty Dollars (\$50) from the annual income produced by said gift and the principal thereof be used for the purchase of an appropriate annual award, or awards, to be given to a student, or students, of the New Bedford High School for outstanding achievement in the study of Latin for three (3) years.

In the event that the study of Latin is discontinued at the New Bedford High School, the principal of the New Bedford High School is authorized to direct that up to Fifty Dollars (\$50) from the annual income produced by said gift and the principal thereof be used for the purchase of an appropriate annual award, or awards, to be given to a student, or students, of the New Bedford High School for outstanding achievement in the study of a language, or languages, for three (3) years.

The award, or awards, made under the provisions of this section shall be designated as the "Edith C. Wollison Memorial Senior Latin Award" or in the event that the study of Latin is discontinued at the New Bedford High School, the award, or awards, shall be designated as the "Edith C. Wollison Memorial Senior Language Award".

This gift shall be known as "The Edith C. Wollison Memorial Fund".

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Seven

AN ORDINANCE

ESTABLISHING A COUNCIL ON AGING

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Title 3 of the New Bedford City Code is hereby amended by the insertion of a new chapter, Chapter 28 with Sections 3-2801, 3-2802, 3-2803, and 3-2804, viz:

CHAPTER 28

COUNCIL ON AGING

Sec. 3-2801 Establishment — Chairman

There is hereby established a New Bedford Council on Aging consisting of not less than seven (7) nor more than eleven (11) voting members. Of this number, the Chairman, and not less than three (3) nor more than five (5) persons shall be appointed by the Mayor from the voters and residents subject to provisions of the charter. The Chairman of the Council, when appointed, shall designate the remaining members of the Council from interested and representative groups in the community.

Sec. 3-2802 Duties — Compensation

The New Bedford Council on Aging shall be responsible to the Mayor. Its members shall serve without compensation, and within the limits of available funds it may appoint such clerks and other employees as it may require. The Council shall study the conditions and needs of elderly persons in the community, in relation to housing, economics, employment, health, recreational needs, and other matters. It shall analyze the services for the aged provided in the community, both by public and private agencies and shall make recommendations to the Mayor regarding the development of such programs and their coordination with programs available through the Massachusetts Commission on Aging.

Sec. 3-2803 Membership

Members of the Council to be appointed by the Mayor shall include the Director or his representative from each of the following agencies:

1. The Greater New Bedford Community Council
2. The New Bedford Board of Public Welfare
3. New Bedford Housing Authority
4. ONBOARD, Inc.
5. The New Bedford Recreation Commission.

Each remaining voting member is to be appointed by the Chairman of the Council on Aging, and shall include interested community representatives of the following:

1. Religious groups
2. Golden Age — Senior Citizen — Retired Men's Clubs
3. Community Service Agencies (Y.M.C.A., Y.W.C.A., Family Service, Social Security Administration, etc.)
4. Professional groups (lawyers, teachers, doctors, etc.)
5. Businessmen
6. Fraternal and Service Organizations
7. Citizens known for their interest in civic affairs.

Ex-officio (non-voting) membership appointments may be made by either the Mayor or the Chairman to involve those persons who may wish to serve or who can provide a valuable personal resource to the Council for general community knowledge and for membership on sub-committees appointed to study a specific area of Council interest.

Sec. 3-2804 Term — Vacancies

Appointees shall hold membership in the Council on Aging for two years or until such time as a successor is designated by the appointing authority.

Vacancies shall be filled in the same manner as the original appointment.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Seven

AN ORDINANCE

RELATIVE TO THE DUTIES OF THE
COMMITTEE ON CITY PROPERTY

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Section 2-113 of the New Bedford City Code is hereby amended by adding thereto the following paragraphs:

Notwithstanding any other provision herein contained, the committee on city property within sixty (60) days of the receipt by it of an offer to buy or a request to bid with regard to any city-owned parcel of real estate, title to which has been in the City for over five (5) years or having an assessed value of over five hundred (500) dollars, shall make a determination as to whether or not it shall offer the property for sale and shall notify the head of each department of the City of New Bedford at least seven (7) days prior to the meeting at which such determination is to be made of the possible sale of such land to the public. As a condition precedent to making such determination the Committee shall hear all interested parties with regard to the question of whether said property is needed for municipal purposes. If, after such hearing, the Committee votes that the property in question is not needed for municipal purposes, it shall then make a determination as to whether or not it shall offer the property for sale.

(a) Within fourteen (14) days after a determination to sell has been made, the Committee Chairman shall commission a person licensed as a real estate broker under the provisions of Massachusetts General Laws Chapter 112, Section 87PP, to submit a sealed appraisal of the fair market value of the real estate in question within fourteen (14) days of the date of such commission. The choice of a broker shall be made on a rotating basis from a list to be maintained by the committee of licensed brokers, residing in the City, who have requested to be placed on said list. The manner in which the list shall be maintained and the method and amount of compensation of the brokers shall be determined by regulations adopted by the committee.

(b) The committee chairman shall schedule a meeting for the purpose of receiving bids upon the property in question which meeting shall be held no later than one hundred twenty (120) days from the date upon which the committee has made a determination to sell.

(c) Notice of the meeting must be advertised in a local newspaper once a week for at least two (2) consecutive weeks, the last publication to be at least seven (7) days before the time specified for the meeting. The published notice of the meeting shall identify the property to be bid upon and shall contain an invitation to submit sealed bids to the committee on or before the date and time scheduled for the meeting. No bids shall be accepted after the time scheduled for the meeting.

(d) At the meeting scheduled for the purpose of receiving bids upon the property in question, the committee shall open the appraisal made in accordance with paragraph (a) hereof and all bids submitted, and shall recommend to the city council that the property in question be sold to the highest bidder provided, however, that the highest bid is greater than the fair market value attributed to the property by the real estate appraiser commissioned by the committee to make an evaluation thereof. In the event that the highest bid upon the property in question is less than the value attributed to the property by said real estate appraiser, the com-

mittee may recommend to the city council that the property be sold to the highest bidder, but only if the committee certifies to the council in writing its reason or reasons for such recommendation.

(e) The sale price recommended by the committee shall be the total of the highest bid received for the property to be sold and the appraisal fee charged for appraising said property under the provisions of paragraph (a) of this section.

Notwithstanding any other provision herein contained the committee, upon delegation to it by the city council of the duty to dispose of specified articles of personal property, shall sell said property at public sale, the time and place of which shall be advertised in a local newspaper at least seven (7) days before the date of such sale. As a condition precedent to the commencement of any such sale, the committee shall hear all interested parties with regard to the question of whether any property to be sold is needed for municipal purposes and shall vote that such property is not needed for municipal purposes. The time, place and manner for holding said sale shall be determined by the committee.

SECTION 2. A two-thirds vote of all of the members of the City Council shall be necessary to approve a sale of real property.

SECTION 3. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

AMENDING CITY CODE RELATIVE TO DRIVEWAYS FOR
INDUSTRIAL OR COMMERCIAL PROPERTIES

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. Chapter 19 of Title 3 of the Code of the City of New Bedford is hereby amended by adding the following new section:

Section 3-1903 Driveways, curbing cuts, etc.

All petitions for curbing cuts for removal of curbing and elimination of new curbing used or to be used in connection with driveways or entrances to commercial and industrial properties shall be made to the Traffic Commission, which body is hereby empowered to grant, modify, or deny the request after a public hearing has been held.

Section 3-1904 Department of Public Works: Control

All work done under a permit granted pursuant to the provisions of the preceding paragraph shall be done by the Department of Public Works at rates not to exceed the actual cost thereof.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws. (Ter. Ed.).

ZONING CHANGE NO. 33

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-seven

AN ORDINANCE

Changing the zoning classification of property on the east side of CHURCH STREET, from the rear lot line of properties on the south side of Tacoma Street northerly to include all property bounded by CHURCH STREET, WILDWOOD ROAD, PHILLIPS ROAD and STARON STREET, from Residence B and/or Industrial A to Residence A

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. That all of the property bounded and described, as follows:

Beginning at a point in the easterly line of Church Street, distant northerly therein ninety-one and 12/100 (91.12) feet from the northerly line of Chaffee Street, said point being the southwest corner of land now or formerly belonging to Manuel Flora;

thence northerly in said easterly line of Church Street to its point of intersection with the southerly line of Staron Street;

thence easterly and northeasterly in said southerly line of Staron Street to its point of intersection with the southerly line of Phillips Road;

thence easterly in said southerly line of Phillips Road to its point of intersection with the westerly line of Wildwood Road;

thence southerly in said westerly line of Wildwood Road to a point ninety-four and 65/100 (94.65) feet south of the southerly line of Tacoma Street, said point being the southeast corner of land now or formerly belonging to Robert Sansoucy;

thence westerly by land of said Robert Sansoucy, in a line parallel to and ninety (90) feet southerly from the southerly line of Tacoma Street, to the point of beginning;

all of which is now zoned as Residence B and/or Industrial A, be reclassified and zoned as Residence A; all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as

part of Section 9-201 of the Code of the City of New Bedford is hereby amended to conform with said reclassification.

SECTION 2. This Ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Seven

AN ORDINANCE

ESTABLISHING A HUMAN RELATIONS COMMISSION

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. The Code of the City of New Bedford is hereby amended by adding to Title 3 the following new chapter:

CHAPTER 29

COMMISSION ON HUMAN RELATIONS

Section 3-2901 Membership; vacancies; rules and regulations; funds.

There is hereby established a Commission on Human Relations, hereinafter called the "commission", which shall consist of six members, each of whom shall reside or be employed in New Bedford. Commission members shall serve without compensation and shall be appointed by the Mayor and confirmed by the City Council. Of the six members originally appointed to the commission, two shall be appointed for a term ending December 31, 1968, two shall be appointed for a term ending December 31, 1969, and two for a term ending December 31, 1970. Thereafter, as the terms of the original appointees expire, their successors shall be appointed for three year terms. In the event of death or resignation of any member, his successor shall be appointed to serve the unexpired term by the Mayor subject to confirmation by the City Council.

The members shall elect a chairman, vice-chairman, and a secretary. Three members shall constitute a quorum in the exercise of any of the commission's powers and duties. The commission may adopt such practices, rules and regulations as it deems necessary to effectuate the purposes and provisions of this chapter.

The city may appropriate such funds as may be necessary to enable the commission to carry out its responsibilities under this chapter.

Section 3-2902 Purpose

The purpose of the commission shall be:

(a) to promote mutual understanding and respect among, and encourage and assure equality of opportunity for, all people of New Bedford without regard to their race, color, religion, creed or national origin; to conduct such programs of education, study, research, investigation, and action as will contribute to the carrying out of the provisions of this chapter; and to cooperate with governmental and non-governmental agencies and organizations in the field of intergroup relations and equal opportunities; and

(b) to aid and assist in the enforcement of Massachusetts General Laws chapter 151B and 151C, chapter 272, sections 92A and 98, and chapter 121, section 26FF.

Section 3-2903 Powers and duties.

The powers and duties of the commission shall be as follows:

(a) It shall assist federal, state, and city agencies as well as private, civic, religious, business, industrial, labor, and other organizations, groups, and persons to achieve harmonious intergroup relations in the community as well as to develop and establish positive programs which will help all members of the community enjoy equality of opportunity in all phases of community life.

(b) It shall study and investigate individual or community problems of limited opportunity, prejudice, discrimination, segregation, and

disorder and tensions occasioned thereby, and shall be empowered to receive written complaints with relation thereto.

(c) It may issue reports and publications on its study, research, and investigations designed to promote greater understanding of the problems, needs, and progress in the field of intergroup relations and equal opportunities.

(d) It may enter into cooperative working arrangements with the Massachusetts Commission Against Discrimination and other state, local, and federal agencies having related responsibilities when such arrangements will aid in carrying out the purposes and provisions of this chapter.

(e) Through cooperation with the Massachusetts Commission Against Discrimination and other governmental agencies and officers, and pursuant to this chapter, it may assist any person in the City of New Bedford who has been denied full and equal accommodations in violation of Massachusetts General Laws chapter 272, sections 92A and 98, and chapter 121, section 26FF, or against whom there has been committed an unfair employment or housing practice in violation of Massachusetts General Laws chapter 151B and 151C.

(f) It may appoint an executive director and such other staff in accordance with Massachusetts General Laws as it may deem necessary to carry out its responsibilities under this chapter, provided that sufficient appropriations have been allocated therefor.

(g) It may accept outside funds, gifts, or bequests, public or private, to help finance its activities under this chapter.

(h) It may recommend to the Mayor and City Council legislation or policies which will aid in carrying out the purposes of this chapter.

(i) It shall submit an annual report to the Mayor and City Council.

Section 3-2904 Construction.

The provisions of this chapter shall be construed liberally for the accomplishment of the purposes thereof.

Section 3 2905 Cooperation.

All departments, boards, commissions, agencies, bureaus, officers, officials, and employees of the city shall cooperate with the commission in implementing this chapter, and the heads thereof shall furnish to the commission information in their possession when the commission so requests.

Section 3-2906 Severability.

The provisions of this chapter are severable, and if any provision of this chapter or the application of such a provision to any person or circumstance shall be held invalid, the remainder of the chapter or the application of such provision to persons or circumstances other than those to which it is held invalid, shall not be affected thereby.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).
